Saddleback Educational Publishing Award-winning poet and author Joseph Coelho breaks new ground with his first novel in verse. *The Girl Who Became a Tree* is a powerful and mesmerizing exploration of grief and renewal. Daphne is unbearably sad and adrift. She feels the painful loss of her father acutely and seeks solace both in the security of her local library and the escape her phone screen

provides by blocking out the world around her. As Daphne tries to make sense of what has happened she recalls memories of shared times and stories past, and in facing the darkness she finds a way back from the tangle of fear and confusion, to feel connected once more with her friends and family. *The Girl Who Became a Tree* sees Joseph Coelho deploy a wide variety of poetic forms

with consummate skill in its narration of events. He seamlessly but searingly weaves together the ancient legend of Daphne, who was turned into a tree to avoid the attentions of the god Apollo, and a totally modern tale, mixing real-life and fantasy, in which a latter-day Daphne seeks her own freedom. This a heart-stoppingly imaginative story told in poems, at times bleak and even

tragic, which is layered, rich, and ultimately a tour de force of poetic skill and energy. Handbook of

Pragmatics

Zondervan

Pragmatics is the study of human communication: the choices speakers make to express their intended meaning and the kinds of inferences that hearers draw from an utterance in the context of its use. This Handbook surveys pragmatics from different perspectives, presenting the main theories in pragmatic research, incorporating seminal research as well as

cutting-edge solutions. It addresses questions of rational and empirical research methods, what counts as an adequate and successful pragmatic theory, and how to go about answering problems raised in pragmatic theory. In the fast-developing field of pragmatics, this Handbook fills the gap in the market for a one-stop resource to the wide scope of

today's research and the intricacy of the many theoretical debates. It is an authoritative guide for graduate students and researchers with its focus on the areas and theories that will mark progress in pragmatic research in the future.

The Power of Habit
University Press of Colorado
Everyone is being disciplined. The question is: what is discipling us?
The majority of Christians today are being disciplined by

popular media, flashy events, and folk theology because churches have neglected their responsibility to make disciples. But the church is not a secondary platform in the mission of God; it is the primary platform God uses to grow people into the image of Jesus. Therefore, as church leaders, it is our primary responsibility to establish environments and relationships

where people can be trained, grow, and be sent as disciples. There are three indispensable elements of discipleship: Learning to participate in the biblical story (the Bible) Growing in our confession of who God is and who we are (theology) Regularly participating in private and corporate intentional action (spiritual disciplines) Deep Discipleship equips churches to

reclaim the responsibility of discipling people at any point on their journey. *Graded Exercises in English for the Foreign Born* Oxford University Press Here's a great vocabulary program that is equally appropriate for younger students working at grade level and older students who have "forgotten" or never mastered the basics. The friendly look and tone of

this series belies the comprehensive sweep of the instructional sequence. Every topic--from primary level phonics to the specialized terminology of essay tests--is developed "from the ground up." Includes answer key, 144-pages. Contents include: Synonyms/Antonyms, Greek/Latin Roots, Variant Word Forms, Figurative Language, Special Vocabularies, Using Context Clues.
