Delivering a fresh, timely reflection every week on assigned scripture passages is a formidable challenge for even the most resourceful preacher. So when you're short on time or need creative ideas to jump-start your sermon preparation, the newest edition of this classic CSS resource is just what the doctor ordered! Prominent pastor, former seminary president, and

prolific author Jerry Schmalenberger draws on the experience of a lifetime in the ministry to help you prepare vital, incisive messages that are sure to connect with the people in your pews. The "Lectionary Preaching Workbook" explores a variety of approaches for Cycle C lectionary passages, providing you with plenty of practical aids for effectively proclaiming God's Word. Each chapter includes: - a listing of the applicable Revised Common, Roman Catholic, and Episcopal lectionary texts; - a theme for the day's service; - commentary on the Old Testament, New Testament, and Gospel lessons; -

suggestions on preaching possibilities; - an outline of possible sermon moves; - a prayer for the day; and - additional illustrations to flesh out the message. The former president of Pacific Lutheran Theological Seminary in Berkeley, California, Jerry L. Schmalenberger served some of the largest Lutheran congregations in the United States during 29 years as a parish pastor. He is a graduate of Wittenberg University and Hama School of Theology in Springfield, Ohio (where he received his D.Min. degree), and received an honorary D.Div. degree from Wittenberg. He now preaches

and teaches throughout the world as a Global Mission Volunteer for the Evangelical Lutheran Church in America, appearing in such varied locations as Germany, Jamaica, Argentina, Uruguay, Suriname, Liberia, Indonesia, and China. Schmalenberger also serves as Visiting Professor of Practical Theology at the Lutheran Theological Seminary in Hong Kong.

*Workbook for Bontrager's Textbook of Radiographic Positioning and Related Anatomy - E-Book* Rockport Publishers Master radiographic positioning and produce quality radiographs! Bontrager's Workbook for Textbook of Radiographic Positioning and Related Anatomy, 9th Edition offers opportunities for application to enhance your understanding and retention. This companion Workbook supports and complements Lampignano and Kendrick's text with a wide variety of exercises including situational questions, laboratory activities, self-evaluation tests, and film critique questions, which describe an improperly positioned radiograph then ask what corrections need to be made to improve the image. A wide variety of exercises include questions on anatomy,

positioning critique, and image evaluation, with answers at the end of the workbook, to reinforce concepts and assess learning. Situational questions describe clinical scenarios then ask a related question that requires you to think through and apply positioning info to specific clinical examples. Chapter objectives provide a checklist for completing the workbook activities. Film critique questions describe an improperly positioned radiograph then ask what corrections need to be made to improve the image, preparing you to evaluate the quality of radiographs you take in the clinical setting. Laboratory exercises provide hands-on experience performing radiographs using phantoms, evaluating the images, and practicing positioning. Self-tests at the end of chapters help you assess your learning with multiple choice, labeling, short answer, matching, and true/false questions. Answers are provided on the Evolve site. NEW! Updated content matches the revisions to the textbook, supporting and promoting understanding of complex concepts. NEW and UPDATED! Stronger focus on computed and digital radiography, with images from the newest

equipment to accompany related questions, prepares you for the boards and clinical success.
