Theoretical and Empirical Studies on the Restandardization of Italian Walter de Gruyter GmbH & Co KG

Do bi- and multilinguals perceive themselves differently in their respective languages? Do they experience different emotions? How do they express emotions and do they have a favourite language for emotional expression? How are emotion words and concepts represented in the bi- and multilingual lexicons? This ground-breaking book opens up a new field of study, bilingualism and emotions, and provides intriguing answers to these and many related questions.

Rivista Di Linguistica Cambridge University Press

The city as a complex socio-cultural structure plays a central role, economically, administratively as well as culturally. Factors such as higher population density, a more expansive infrastructure, and larger social and cultural diversity compared to rural areas have a substantial impact on urban society and urban communication. Focusing on the latter, the contributions to this volume discuss the characteristics and dynamics of urban language use, considering aspects such as contact, variation and change, as well as identity, indexicality, and attitudes, but also spatial factors including mobility, urbanisation/counterurbanisation, and diffusion processes. The collected articles provide an update of 'first wave' approaches of variationist sociolinguistics, but also establish a connection to 'third wave' research for readers from a broad range of fields,

especially sociolinguistics, variationist linguistics, and dialectology. The book presents modern methodological and conceptual ideas and a wealth of new findings but also serves as a reference work, combining theoretical discussions with results from recent empirical studies.

Informationsorganisation und makrostrukturelle Planung in Erzählungen Walter de Gruyter GmbH & Co KG

In this edition, the *Breviary of Aesthetics* is presented in a brand new English translation and accompanied by informative endnotes that discuss many of the philosophers, writers, and works cited by Croce in his original text.

Intertextuality. Intermixing Genres,

Languages and Texts Springer Science & Business Media

This volume contains a selection from papers presented at the 9th International Conference on Language Variation in Europe (ICLaVE 9), which was held at the University of Malaga (Spain), from June 6 to 9, 2017. The volume includes plenaries by Manuel Almeida ("Language hybridism: On the origin of interdialectal forms") and Frans Hinskens ("Of clocks, clouds and sound change"). In addition, the editors have selected 13 papers encompassing different languages and language varieties — not only from large language families, such as Romance and Germanic, but also small language families, like Greek, or smaller languages, like Croatian — and covering

a large range of topics on sociolinguistics and linguistic variation. The book displays a contemporary picture of the research currently being conducted on language variation and change in European languages. Readers interested in every field related to language and language use will enjoy a wide variety of theoretical frameworks and methodological perspectives on speech variation, historical sociolinguistics and foreign language acquisition and learning.

Manuale di linguistica italiana

FrancoAngeli

Those aspects of language use that are crucial to an understanding of language as a system, and especially to an understanding of meaning, are the acknowledged concern of linguistic pragmatics. This textbook provides a lucid and integrative analysis of the central topics in pragmatics - deixis, implicature, presupposition, speech acts, and conversational structure. A central concern of the book is the relation between pragmatics and semantics, and Dr Levinson shows clearly how a pragmatic approach can resolve some of the problems semantics have been confronting and simplifying semantic analyses. The exposition is always clear and supported by helpful exemplification. The detailed analyses of selected topics give the student a clear view of the empirical rigour demanded by the study of linguistic pragmatics, but Dr Levinson never loses sight of the rich diversity of the subject. An introduction and conclusion relate pragmatics to other fields in linguistics and other disciplines concerned with language usage - psychology, philosophy, anthropology and literature.

The Life of Vittorio Alfieri Walter de Gruyter GmbH & Co KG

Il volume nasce dall'esigenza di un confronto a più voci sul tema delle migrazioni. Al fine di dare conto della complessità della questione, il volume si articola in tre sezioni tematiche, che rispondono ad altrettanti itinerari interdisciplinari: Corpi/Spazi/Identità; Sguardi/Rappresentazioni/Discorsi; Frontiere/Erranze/Attraversamenti. L'obiettivo è riflettere a più voci sulle migrazioni e offrire strumenti adeguati e completi che tengano conto della multidimensionalità del fenomeno. L'interdisciplinarietà - frutto dell'incontro tra le diverse discipline e prospettive scientifiche - è l'approccio scelto per fornire un punto di vista accurato e consapevole sui temi trattati. In questa prospettiva, il testo raccoglie saggi inediti di studiosi afferenti a diverse aree disciplinari: sociologia, linguistica, letteratura, demografia, storia, psicologia, islamologia, e spazia dalle determinanti e dalle dinamiche dei flussi migratori all'impatto delle migrazioni sui contesti di partenza e di arrivo, alle strategie di integrazione, alle resistenze istituzionali e alle soggettività migranti.

Bilingual Minds Narr Francke Attempto Verlag

The Romance languages offer a particularly fertile ground for the exploration of the relationship between language and society in different social contexts and communities. Focusing on a wide range of Romance languages - from national languages to minoritised varieties - this volume explores questions concerning linguistic diversity and multilingualism, language contact, medium and genre, variation and change. It will interest researchers and policy-makers alike.

Preparative Chromatography

Techniques Walter de Gruyter GmbH &

Co KG

This volume provides an overview of research on Italian communities abroad, and, thus, represents an important contribution to the recent wave of paradigm renewal in the field of migration (socio)linguistics of Italian. The contributors here are some of the most active and rigorous exponents of this renewal tendency, and here they discuss new approaches and paradigms for the sociolinguistic study of migrations.

A Handbook of Present-day English

Routledge

In many European languages the National Standard Variety is converging with spoken, informal, and socially marked varieties. In Italian this process is giving rise to a new standard variety called Neo-standard Italian, which partly consists of regional features. This book contributes to current research on standardization in Europe by offering a comprehensive overview of the re-standardization dynamics in Italian. Each chapter investigates a specific dynamic shaping the emergence of Neo-standard Italian and Regional Standard Varieties, such as the acceptance of previously non-standard features, the reception of Old Italian features excluded from the standard variety, the changing standard language ideology, the retention of features from Italo-Romance dialects, the standardization of patterns borrowed from English, and the developmental tendencies of standard Italian in Switzerland. The contributions investigate phonetic/phonological, prosodic, morphosyntactic, and lexical phenomena, addressed by several empirical methodologies and theoretical vantage points. This work is of interest to scholars and students working on language variation and change, especially those focusing on standard

languages and standardization dynamics.

Urban Matters Walter de Gruyter

Manual of Romance Sociolinguistics

Cambridge University Press

This book explores the linguistic expression of identity, intended as the social positioning of self and others, by focusing mostly on a scenario of prolonged language contact, namely the ancient Mediterranean area. The volume includes studies on language contact and on identity strategies developed at different levels of analysis, from phonetics to pragmatics, in, among others, Latin, Greek, Coptic, Syriac, (Cypriot) Arabic, Medieval Sardinian.

I disturbi della comunicazione nella popolazione multilingue e multiculture

John Benjamins Publishing Company

The papers in this volume address the interplay of factors underlying the formation of intermediate varieties in the 'dialect-standard' landscape of present-day Europe. Research is presented on varieties of several different languages (Norwegian, Dutch, German, Italian, Spanish, Greek), on speech communities with different (geo)political and sociolinguistic histories, as well as on previously unexplored sociolinguistic situations. The contributions all share the twin characteristics of (a) robust scrutiny of structural variation and its links to both structural-systemic parameters and extralinguistic variables and (b) nuanced approaches to macro- and micro- level categories, with the requisite theoretical and methodological fine-tuning. While focusing on different languages/language groups, the papers in this volume share the common foci of bringing together structural and sociolinguistic considerations and of the concomitant necessary revisiting of

methodologies. The data and analyses presented yield a firmer and more nuanced understanding of the dynamic permutations of cross-dialectal and dialect-to-standard convergence and the formation of intermediate varieties in different yet comparable contexts.

Changing English Cambridge Scholars Publishing

Language Variation - European Perspectives V is based on papers presented at the Seventh International Conference on Language Variation in Europe (ICLaVE 7), which was held in Trondheim, Norway from 26 to 28 June 2013. The 17 papers included in the book explore phonetic and phonological variation (Bitenc and Kenda-Jež; Hildenbrandt and Moosmüller; Jansen; Schaufuß; Schleef, Flynn and Ramsammy; Stuart-Smith, Rathcke, Sonderegger and Macdonald), morphology (Padilla-Moyano), syntax (Christensen and Juel Jensen; Jónsson, Brynjólfssdóttir and Sverrisdóttir), morphosyntax (Auger and Wycoff; Cerruti and Regis), language ideology, linguistic practices and language attitudes (Strand; Hall-Lew, Fairs and Lew; Dunmore and Smith-Christmas), code-switching (Amadou; Bucher) and language documentation (Kühl). The book is essential reading for scholars working on variation and change in European languages. The articles in the present volume investigate Romani, Turkish, Greek, Slovene, Picard, Swiss-German, Basque, Danish, Italian, English, Gaelic, Icelandic Sign Language, Faroese, Danish and Norwegian.

An Introduction to American English

Walter de Gruyter GmbH & Co KG
Im Prozess der Sprachproduktion organisieren Sprecher Inhalte, die zum Ausdruck gebracht werden, indem sie Informationen auswählen, eine

Perspektive einnehmen sowie Vorder- und Hintergrund voneinander abgrenzen. Diese Prozesse folgen sprachspezifischen Prinzipien, die zur Folge haben, dass der Informationsaufbau in mündlichen Nacherzählungen je nach Sprache unterschiedliche Präferenzen aufweist. Die vorliegende Studie zeigt auf, inwieweit sich das Französische und Italienische in Bezug auf die Organisation von Informationen voneinander unterscheiden und berücksichtigt dabei auch bilinguale Sprecher des Italienischen und Französischen.

Language and Identity in Multilingual Mediterranean Settings Springer

The Language of the News investigates and critiques the conventions of language used in newspapers and provides students with a clear introduction to critical linguistics as a tool for analysis. Using contemporary examples from UK, USA and Australian newspapers, this book deals with key themes of representation - from gender and national identity to 'race'- and looks at how language is used to construct audiences, to persuade, and even to parody. It examines debates in the newspapers themselves about the nature of language including commentary on political correctness, the sensitive use of language and irony as a journalistic weapon. Featuring chapter openings and summaries, activities, and a wealth of examples from contemporary news coverage (including examples from television and radio), The Language of the News broadens the perceptions of the use of language in the news media and is essential reading for students of media and communication, journalism, and English language and linguistics.

Applications in Natural Product

Isolation FrancoAngeli

This manual aims to provide a systematic and up-to-date overview of Italian linguistics taking into account new research topics such as Italian outside of Italy, historical varieties, or the syntactic properties of early Italian. Particular focus will be placed on linguistic subfields that have grown more important and relevant in the past years and decades, such as pragmatics, textual linguistics, corpus linguistics, or language acquisition.

morfosintassi di una varietà diatopica in prospettiva sociolinguistica Routledge

This manual contains overviews on language acquisition and distinguishes between first- and second-language acquisition. It also deals with Romance languages as foreign languages in the world and with language acquisition in some countries of the Romance-speaking world. This reference work will be helpful for researchers, students, and teachers interested in language acquisition in general and in Romance languages in particular.

Koinai and regional standards in Europe Blackwell Publishing

Il presente Glossario nasce dalla necessità di far chiarezza sui concetti base della linguistica forense, disciplina di intersezione tra i saperi umanistici e le scienze forensi. L'obiettivo principale dell'opera è la conciliazione ermeneutica, alla base ogni collaborazione interdisciplinare tra studiosi di diversa provenienza e formazione: si vogliono rendere comprensibili – senza banalizzazione alcuna – i principali concetti linguistico-filologici agli operatori forensi, e far sì

che le basi delle scienze forensi – indispensabili alla disciplina – siano altrettanto chiare agli umanisti.

The Language of the News La linguistica.

Un corso introduttivo Towards a New Standard Theoretical and Empirical Studies on the Restandardization of Italian

This volume offers recent developments in pragmatics and adjacent territories of investigation, including important new concepts such as the pragmatic act and the pragmeme, and combines developments in neighboring disciplines in an integrative holistic pragmatic approach. The young science of pragmatics has, from its inception, differentiated itself from neighboring fields in the humanities, especially the disciplines dealing with language and those focusing on the social and anthropological aspects of human behavior, by focusing on the language user in his or her societal environment. This collection of papers continues that emphasis on language use, and pragmatic acts in their context. The editors and contributors share a perspective that essentially considers language as a system for communication and wants to look at language from a societal perspective, and accept the view that acts of interpretation are essentially embedded in culture. In an interdisciplinary approach, some authors explore connections with social theory, in particular sociology or sociolinguistics, some offer a political stance (critical discourse analysis), others explore connections with philosophy and philosophy of language, and several papers address problems in theoretical pragmatics.
