The book's power is in the collective details, all strung together in a story that is told with such clear-eyed conviction that you never doubt its veracity. . . . The Secret Race isn't just a game changer for the Lance Armstrong myth. It's the game ender."—Outside NEW YORK TIMES BESTSELLER • WINNER OF THE WILLIAM HILL SPORTS BOOK OF THE YEAR AWARD The Secret Race is the book that rocked the world of professional cycling—and exposed, at long last, the doping culture surrounding the sport and its most iconic rider, Lance Armstrong. Former Olympic gold medalist Tyler Hamilton was once one of the world's top-ranked cyclists—and a member of Lance Armstrong's inner circle. Over the course of two years, New York Times bestselling author Daniel Coyle conducted more than two hundred hours of interviews with Hamilton and spoke with numerous teammates, rivals, and friends. The result is an explosive page-turner of a book that takes us deep inside a shadowy, fascinating, and surreal world of unscrupulous doctors, anything-goes team directors, and athletes so relentlessly driven to win that they would do almost anything to gain an edge. For the first time, Hamilton recounts his own battle with depression and tells the story of his complicated relationship with Lance Armstrong. This edition features a new Afterword, in which the authors reflect on the developments within the sport, and involving Armstrong, over the past year. The Secret Race is a courageous, groundbreaking act of witness from a man who is as determined to reveal the hard truth about his sport as he once was to win the Tour de France. With a new Afterword by the authors. "Loaded with bombshells and revelations."—VeloNews "[An] often harrowing story . . . the broadest, most accessible look at cycling's drug problems to date."—The New York Times " 'If I cheated, how did I get away with it?' That question, posed to SI by Lance Armstrong five years ago, has never been answered more definitively than it is

in Tyler Hamilton's new book."—Sports Illustrated "Explosive."—The Daily Telegraph (London) **Hardball** Ebury Press Seize the chance to be extraordinary. Who has made the biggest difference in your life? Whose words and actions have uplifted and motivated you to excel? Chances are it was someone like Fred the Postman -- so outstanding in his service that Mark Sanborn realized this mail carrier could be an example for any person wanting to be extraordinary. The "Fred Factor" is summarized by four principles that will release fresh energy, enthusiasm, and creativity in your career and life: • Make a Difference • Build Relationships • Create Value • Reinvent Yourself You, too, can apply The Fred Factor to enrich the lives of customers, co-workers, friends, and family members, as well as reach new levels of personal success yourself. Sanborn also shows how to discover and develop other Freds. Why not become a "Fred" yourself? You will turn the ordinary moments of life into extraordinary opportunities to make a difference in the world. *Summary* Nicholas Brealey Publishing A manual for building a faster brain and a better you! The Little Book of Talent is an easy-to-use handbook of scientifically proven, field-tested methods to improve skills—your skills, your kids' skills, your organization's skills—in sports, music, art, math, and business. Whether you're age 10 or 100, whether you're on the sports field or the stage, in the classroom or the corner office, this is an essential guide for anyone who ever asked, "How do I get better?" Praise for The Little Book of Talent "The Little Book of Talent should be given to every graduate at commencement, every new parent in a delivery room, every executive on the first day of work. It is a guidebook—beautiful in its simplicity and backed by hard science—for nurturing excellence."—Charles Duhigg, bestselling author of *The Power of Habit* "It's so juvenile to throw around hyperbolic terms such as 'life-changing,' but there's no other way to describe The Little Book of Talent. I was avidly trying new things within the first half hour of reading it and haven't stopped since. Brilliant. And yes: life-changing."—Tom Peters, co-author of *In Search of Excellence* **Unschooling Rules** Putnam Adult For the first time in decades of

groundbreaking research, the inventor of the 10,000-hour rule explains his techniques for developing mastery of any skill We live in a world full of people with extraordinary abilities. Consider what Roger Federer can do with a tennis ball, or Connor McDavid with a puck. There are chess grandmasters who can play several dozen different games simultaneously--while blindfolded--and a seemingly unending supply of young musical prodigies who would have astonished aficionados a century ago. We are dramatically better at just about everything than we were just a generation ago. We assume, though, that these peak performers are the lucky ones, the ones with a gift. That's only partly true. The fact is we are all lucky. We all have that gift. As Ericsson's whole career has shown, with the proper practice, we are all capable of extraordinary feats. On the surface, the techniques that chess players use to develop their skills seem quite different from the methods soccer players use to perfect their games, which in turn seem quite different from how pianists improve their playing. But at a deeper level, they are all variations on a single fundamental approach to learning, what Ericsson, a world-renowned researcher, has named "deliberate practice": a simple, yet powerful system for enhancing learning. This approach to expertise has the potential to revolutionize how we think about every sort of education and training. We are not limited by an endowment of natural talent. We create our own limits. Whether you want to step up your game at work or on the weekend, or help your kid achieve athletic or academic goals, Ericsson's revolutionary methods will show you how to master almost anything. *The Law of Success* Simon and Schuster Acton Academy: The one-room schoolhouse for the twenty-first century Seeking a 21st century education for their children, Laura and Jeff Sandefer jumped off the track of conventional school and created a new model for learning. They created Acton Academy as a better school where learning is made practical and meaningful and where students begin a lifelong Hero's Journey to discover their true potential. Using the Socratic method, elements of the Montessori approach and state-of-the-art online instruction, Acton guides students toward independence and self-motivation, helping them find the courage to grow into the person they were meant to be. Soon, other parents wanted to start their own Acton Academies, and less than a decade from the seven founding students' first Socratic discussion, Acton has spread around the

world. *Courage to Grow* is the Sandefer family's personal quest for their own children's education and happiness. Their story also contains a path for other parents who want to give their children the freedom to take ownership of their own education and to start their own school. The treasure at the end is much larger than Laura ever expected—a quickly growing network of dedicated, curious young people and parents who are not afraid to set them free.

Notes From A Friend Simon and Schuster Coach John Wooden's teams won 10 NCAA mens basketball championships at UCLA and Sporting News magazine named him the greatest coach of all time. Yet decades after he retired and now after his passing, his wisdom capsulized so clearly in his famous Pyramid of Success continues to guide new generations of athletes, coaches, and people of all walks of life. In The Greatest Coach Ever, the Fellowship of Christian Athletes features 40 tributes from athletes, coaches, and other influential leaders like Bobby Bowden, Tom Osborne, Sue Semrau, Tony Dungy, Mike Singletary, Tamika Catchings, Joe Girardi, Jim Tressel and David Robinson playing honor to Coach Wooden and reflecting on how his example has challenged and changed them. Their stories can challenge and change your life, too. Coach Wooden appreciated the tributes and the honor of being called the greatest coach ever, but felt uncomfortable with the title. He was eager to see that this book points to the one whom he calls the greatest coach ever. I am happy being remembered as a man of integrity. I like that, --John Wooden, May 21 2010.
