Myths and Legends of Australia, New Zealand, and Pacific Islands Praeger

This study of the young volcanoes of eastern Australia and parts of New Zealand looks at rock types and formation and inclusions of the upper mantle and lower-crustal rocks found in volcanic deposits. It discusses the Earth's crust and the mantle beneath, and the geological evolution in the area over the last 70-80 million years.

This book provides an arresting interpretation of the history of Australia, New Zealand and the Pacific from the earliest settlements to the present. Usually viewed in isolation, these societies are covered here in a single account, in which the authors show how the peoples of the region constructed their own identities and influenced those of their neighbours. By broadening the focus to the regional level, this volume develops analyses - of economic, social and political history -

which transcend national boundaries. The result is a compelling work which both describes the aspirations of European settlers and reveals how the dispossessed and marginalized indigenous peoples negotiated their own lives as best they could. The authors demonstrate that these stories are not separate but rather strands of a single history.

This volume explores Australian and New Zealand experiences of translation and interpreting (T&I), with a special focus on the formative impact of geocultural contexts. Through the critical lenses of practitioners, scholars and related professionals working in and on these two countries, the contributors seek a better understanding of T&I practices and discourses in this richly multilingual and multicultural region. Building on recent work in translation and interpreting studies that extends attention to sites outside of Europe and the Americas, this volume considers the geocultural and geopolitical factors that have helped shape T&I in these Pacific neighbours, especially how the practices and conceptualization of T&I have been closely tied with immigration. Contributors examine the significant role T&I plays in everyday communication across varied

sectors, including education, health, business, and legal contexts, as well as in crisis situations, cultural and creative settings, and initiatives to revitalize Indigenous languages. The book also looks to the broader implications beyond the Australian and New Zealand translationscape, making it of relevance to T&I scholars elsewhere, as well as those with an interest in Indigenous studies and minority languages.

Lewis's Medical-Surgical Nursing has long been considered a comprehensive and reliable resource for nursing students preparing for their transition into clinical practice. This sixth edition has been fully updated to incorporate the latest research, data, current clinical practice, procedures and guidelines. The text addresses core skills and knowledge that students need to pass their exams and go on to provide expert clinical care. It prepares nurses to assess patients, understand underlying diseases and their signs and symptoms, and go on to plan and deliver care. The text encourages readers to develop their clinical reasoning and problem-solving skills in order to apply theory to their work. This edition has been produced by leading expert nursing academics and

clinicians who bring a strengthened focus on inclusion and diversity. Provides a person-centred holistic approach to patient assessment and care. Complex concepts are illustrated with figures, tables, summaries and reflections of best practice. Case studies throughout—based on real-life medical-surgical scenarios—help students to apply theory to real life. Clinical practice features offer practical guidance for students. Underpinned by the nursing process framework. Three forces—dwindling British power, rising American influence, and nationalism in a variety of forms—have transformed Australia, New Zealand, and the adjacent islands since 1919. In this volume, some of the most distinguished scholars of the Pacific region assess these significant historical changes. These essays deal with international relations, politics, changing social structures, and literature since World War I. The themes of the volume as a whole are social and humanistic; they concern the evolution of both a regional identity and separate national identities in the Southwest Pacific. The unique areal and thematic concentration of this book makes it essential reading for all those interested in the history, politics, and culture of the Pacific.

[Australia, New Zealand, and the Pacific Islands since the First World War](#) Psychology Press In Australia and New Zealand, many public projects, programs and services perform well. But these cases are consistently underexposed and understudied. We cannot properly 'see'—let alone recognise and explain—variations in government performance when media, political and academic discourses are saturated with accounts of their shortcomings and failures, but are next to silent on their achievements. Successful Public Policy: Lessons from Australia and New Zealand helps to turn that tide. It aims to reset the agenda for teaching, research and dialogue on public policy performance. This is done through a series of close-up, in-depth and carefully chosen case study accounts of the genesis and evolution of stand-out public policy achievements, across a range of sectors within Australia and New Zealand. Through these accounts, written by experts from both countries, we engage with the conceptual, methodological and theoretical challenges that have plagued extant research seeking to evaluate, explain and design successful public policy. Studies of public policy successes are rare—not just in Australia and New Zealand, but the world over. This book is embedded in a broader project exploring policy successes globally; its companion volume, Great Policy Successes (edited by Paul 't Hart and Mallory Compton), is published by Oxford University Press (2019).

This volume offers a "southern," Pacific Ocean perspective on the topic of racial hybridity, exploring it through a series of case studies from around the Australo-Pacific region, a region unique as a result of its very particular colonial histories. Focusing on the interaction between "race" and culture, especially in terms of visibility and self-defined identity; and the particular characteristics of political, cultural and social formations in the countries of this region, the book explores the complexity of the lived mixed race experience, the structural forces of particular colonial and post-colonial environments and political regimes, and historical influences on contemporary identities and cultural expressions of mixed-ness.

There are many memorials to Australias war dead; among them are two permanent reminders to the Australian participation in the New Zealand Wars. The entrance to the Anglesey Barracks in Hobart is dominated by a tall column memorial to the members of the 99th Regiment that sailed from Hobart to take part in the First New Zealand War (1845-1847). On their discharge after the war the Tasmania veterans of the 99 Regiment who finally settled in Hobart regularly met at the Anglesey Barracks memorial for their annual commemorative service and reunion. The second memorial is more directly significant to this study and it is frequently the cause of curious questions raised by visitors. It stands in a foremost site dominating its pleasant garden surroundings designed as a memorial triumphal arch in the centre of Sydney's Burwood public park. The stone arch has chiselled on its exterior the countries where Australians have fought for Empire to Peace Keeping. At the top of the list is the inscription;The New Zealand Wars;The

reference no doubt is a recollection within the Burwood historical memory of those young men who in the mid nineteenth century sailed from the district and who died or returned from their service for the Empire and the New Zealand War.

This book provides an up-to-date and well-grounded analysis of education in Australia, New Zealand and the Pacific, including Cook Islands, Federated States of Micronesia, Fiji, Kiribati, Marshall Islands, Papua New Guinea, Samoa, Solomon Islands, Tonga, Tuvalu, and Vanuatu. Leading writers from throughout this region identify contemporary educational challenges, issues, and priorities while drawing upon their own ongoing empirical research. Key themes include the impact of international trends and developments; educational reform and the quality of education; indigenous learning; inclusivity; aid and development co-operation; and the changing role and place of tertiary education. Detailed studies of specific educational systems and developments are considered in the light of broader analyses that run throughout the volume.

The History of Australia and New Zealand from 1606 to 1890 is a concise history of the countries from their discoveries until the dawn of the 20th century. This book is about an excellent and very detailed history of the discoveries of several navigators and the settlements of various European countries on the continent, which provides a good interesting read, not for pure entertainment value.

The Odyssey Down Under, which started in the first book, has blossomed into a continuing story. Book one was the first story, then began the series! Book two became a double book in which James travels with Captain Mobley to many South Sea Islands, their beauty and beauty story. Book three now becomes a double book with a travel north in the Pacific to the Aleutian Islands and back with many ports of interest in between. In Return to Fiji, the saga continues with introduction to Hawk, an Ojibwe Indian from Canada, becoming Curt's partner. We meet Magnus McGregor who takes us on a Fiji Island tour and introduces us to Bligh Water. So come aboard with me while we explore more of the North and South Pacific Islands.

Disasters in Australia and New Zealand brings together a collection of essays on the history of disasters in both countries. Leading experts provide a timely interrogation of long-held assumptions about the impacts of bushfires, floods, cyclones and earthquakes, exploring the blurred line between nature and culture, asking what are the anthropogenic causes of 'natural' disasters? How have disasters been remembered or forgotten? And how have societies over generations responded to or understood disaster? As climate change escalates disaster risk in Australia, New Zealand and around the world, these questions have assumed greater urgency. This unique collection poses a challenge to learn from past experiences and to implement behavioural and policy change. Rich in oral history and archival research, Disasters in Australia and New Zealand offers practical and illuminating insights that will appeal to historians and disaster scholars across multiple disciplines.

Eleven African Americans, including a musician, were among the First Fleet of colonial settlers to Australia. In the 150-plus following years, African Americans visiting the region included jubilee singers, vaudevillians, sports stars and general entertainers. This book provides the only comprehensive history of more than 350 African American entertainers in Australia and New Zealand between European settlement in Australia in 1788 and the entry of the United States into World War II in 1941. Famous names covered include boxer Jack Johnson, film star Nina Mae McKinney and jazz singer Eva Taylor. Background stories provide a multidimensional view of the entertainers' time in a place very far from home.
