The mind-blowing conclusion to the Monster trilogy and the final installment in the Gone series from science fiction and fantasy master Michael Grant is perfect for superhero and Stephen King fans alike. After the fall of Perdido Beach dome, a new set of humans developed mutant powers from the rock infected with alien virus. They are the Rockborn Gang: Dekka, Shade, Cruz, Malik, Armo, and Francis. With their superpowers, they have defended the earth from other rockborn who used their powers for evil, like Dillon Poe. When another rock carrying the virus strikes New York, a new foe, Bob Markovic, rises with a horrifying and nearly unstoppable ability. Markovic's unending ambition and lack of a moral compass made him unbearable before the virus. And that was before he was a swarm of plague-ridden insects, with the power and means to take over the city—and

maybe the world. As the Rockborn Gang try to defeat their latest villain, they will find themselves on morally gray grounds and have to make tough decisions if they want to save the world. In this pulse-pounding finale to the saga more than ten years in the making, Michael Grant delivers an unforgettable conclusion while asking: What does it take to be a hero?

From the bestselling author of *Blink* and *The Tipping Point*, Malcolm Gladwell's *Outliers: The Story of Success* overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. *Outliers* will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' Guardian 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' Observer 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' The Times
