Revise A2 Chemistry for OCR  
Specification A Pearson Education Ltd  
Written by curriculum and specification experts, this Student Book supports and extends students through the new course while delivering the breadth, depth, and skills needed to succeed in the new AS and beyond. It develops true subject knowledge while also developing essential exam skills.  
*Student Unit Guide* Heinemann

Written by the University of York project team for Salters Advanced Chemistry, this Student Book supports and extends students through the new linear course while delivering the breadth, depth, and skills needed to succeed in the new A Levels and beyond. It develops true subject knowledge while also developing essential exam skills. The fourth edition combines the Chemical Storyline and Chemical Ideas into a single, integrated volume for the first time, providing ideal support for the new specification.  
Heinemann Educational Publishers  
A Level Chemistry a for OCR Year 2

Student Book

OCR AS Chemistry Student Unit Guide

Unit 2 Hodder Education

A student resource that supports readers through the transition from GCSE to Further Education. It integrates 'How Science Works' throughout to help students understand the underlying principles of science. It includes worked examples and exam-style questions that demonstrate how to approach complex questions.

*Chemical Storylines*. Nelson Thornes

This revision guide is written at the appropriate level for the exam, giving students a clear indication of the level they are expected to achieve. The content covers everything students need to know for the OCR exams, without extra information needed for other exam

specifications.

Condensed Revision Notes - Designed to

Facilitate Memorisation Oxford

University Press - Children

This student-friendly textbook comprehensively covers the OCR A exam specification for A2-Level Chemistry. It contains in-depth, accessible notes explaining every topic, supported by clear diagrams, photographs, tips and worked examples. To test students' knowledge and understanding, there are practice questions throughout the book - with complete answers included. There's also detailed guidance for success in the final assessments, including exam-style questions and sections dedicated to exam skills and how science works.

2 Student Book Written by curriculum and specification experts, this Student Book supports and extends students through the new course while delivering the breadth, depth, and skills needed to succeed in the new A Level and beyond. It develops true subject knowledge while also developing essential exam skills. A Level Chemistry a for OCR Student Book Written by curriculum and specification experts, this Student Book supports and extends students through the new linear course while delivering the breadth, depth, and skills needed to succeed in the new A Levels and beyond. It develops true subject knowledge while also developing essential exam skills. Chemistry A for OCRA Level, Year 1 and AS Written by curriculum and specification experts, this Student Book

supports and extends students through the new course while delivering the breadth, depth, and skills needed to succeed in the new AS and beyond. It develops true subject knowledge while also developing essential exam skills. A Level Chemistry for OCR A: Year 1 and AS

This is an OCR endorsed resource Stretch and challenge your students' knowledge and understanding of Chemistry, build their mathematical and practical skills, and provide plenty of assessment guidance with this OCR Year 1 Student Book. - Build understanding with a summary of prior knowledge and diagnostic questions at the start of each chapter to help bring students up to speed - Support practical assessment with Practical Skill summaries that help

develop your students' knowledge and skills - Test understanding and provide plenty of practice to assess progression, with Test Yourself Questions and multiple choice questions - Provide mathematical support with examples of method integrated throughout and a dedicated 'Maths in Chemistry' chapter - Develop understanding with free online access to Test yourself Answers, an Extended Glossary, Learning Outcomes and Topic Summaries OCR A Level Chemistry Student Book 1 includes AS Level

**A Level Salters Advanced Chemistry for OCR B: Year 2** Oxford University Press - Children

Written by curriculum and specification experts, this Student Book supports and extends students through the new

course while delivering the breadth, depth, and skills needed to succeed in the new A Level and beyond. It develops true subject knowledge while also developing essential exam skills.

**A2 Level Chemistry for OCR A: Student Book** Coordination Group Publication

Please note this title is suitable for any student studying: Exam Board: OCR Level: A Level Year 2 Subject: Chemistry First teaching: September 2015 First exams: June 2017 Written by curriculum and specification experts in partnership with OCR, this Student Book supports and extends students through the new course while delivering the breadth, depth, and skills needed to succeed in the new A Level and beyond. It develops true subject knowledge while also

developing essential exam skills. Covers the second year worth of content required for the new OCR Chemistry A A Level specification.

New A-Level Chemistry for 2018: OCR A Year 1 & 2 Complete Revision & Practice with Online Edition Heinemann

This series is for schools following OCR A double or separate award for GCSE science. The resources offer preparation for the OCR exams with teacher support to minimise time spent on administration. The teacher's resources are available on CD-ROM in a fully customizable format.

### **OCR A level Chemistry Student**

Oxford University Press - Children  
COLOURED EDITION! These concise revision notes (flashcards) contain all the necessary exam knowledge in a short,

easy to memorize form. Each page covers the key facts, such as definitions, of a single topic, without the distraction of unnecessary information. Created with great care, they include important information specific to exam questions.

Energy; Core Organic Chemistry  
Coordination Group Publication

The volumes in this series aim to present revision in a straightforward and user-friendly way. The authors give tips on common pitfalls and each guide contains help with the best ways to tackle different types of exam questions.

*OCR Chemistry a Student Guide 4* Nelson Thornes

Written by the University of York project team for Salters Advanced Chemistry, this Student Book supports and extends students through the new linear course

while delivering the breadth, depth, and skills needed to succeed in the new A Level and beyond. It develops true subject knowledge while also developing essential exam skills. The fourth edition combines the Chemical Storyline and Chemical Ideas into a single, integrated volume for the first time, providing ideal support for the new specification.
