The Story of Spanish Elsevier

Some thirty-two experts from fifteen countries join three of the world's leading authorities on the design, manufacture, performance and history of brass musical instruments in this first major encyclopaedia on the subject. It includes over one hundred illustrations, and gives attention to every brass instrument which has been regularly used, with information about the way they are played, the uses to which they have been put, and the importance they have had in classical music, sacred rituals, popular music, jazz, brass bands and the bands of the military. There are specialist entries covering every inhabited region of the globe and essays on the methods that experts have used to study and understand brass instruments. The encyclopaedia spans the entire period from antiquity to modern times, with new and unfamiliar material that takes advantage of the latest research. From Abblasen to Zorsi Trombetta da Modon, this is the definitive guide for students, academics, musicians and music lovers.

English as a Global Language Cambridge University Press

Looks at the variety, history, structure, and behavior of language, and discusses language learning, foreign language teaching, and linguistics

The English Language Pergamon Press

Concise Encyclopedia of Languages of the World is an authoritative single-volume reference resource comprehensively describing the major languages and language families of the world. It will provide full descriptions of the phonology, semantics, morphology, and syntax of the world's major languages, giving insights into their structure, history and development, sounds, meaning, structure, and language family, thereby both highlighting their diversity for comparative study, and contextualizing them according to their genetic relationships and regional distribution. Based on the highly acclaimed and award-winning Encyclopedia of Language and Linguistics, this volume will provide an edited collection of almost 400 articles throughout which a representative subset of the world's major languages are unfolded and explained in up-to-date terminology and authoritative interpretation, by the leading scholars in linguistics. In highlighting the diversity of the world's languages — from the thriving to the endangered and extinct — this work will be the first point of call to any language expert interested in this huge area. No other single volume will match the extent of language coverage or the authority of the contributors of Concise Encyclopedia of Languages of the World. * Extraordinary breadth of coverage: a comprehensive selection of just under 400 articles covering the world's major languages, language families, and classification structures, issues and disputes * Peerless quality: based on 20 years of academic development on two editions of the leading reference resource in linguistics, Encyclopedia of Language and Linguistics * Unique authorship: 350 of the world's leading experts brought together for one purpose * Exceptional editorial selection, review and validation process: Keith Brown and Sarah Ogilvie act as

first-tier guarantors for article quality and coverage * Compact and affordable: one-volume format makes this suitable for personal study at any institution interested in areal, descriptive, or comparative language study - and at a fraction of the cost of the full encyclopedia

The Cambridge Encyclopedia of Child Development Cambridge University Press

No ordinary dictionary, David Crystal's Dictionary of Language includes not only descriptions of hundreds of languages literally from A to Z (Abkhaz to Zyryan) and definitions of literary and grammatical concepts, but also explanations of terms used in linguistics, language teaching, and speech pathology. If you are wondering how many people speak Macedonian, Malay, or Makua, or if you're curious about various theories of the origins of language, or if you were always unsure of the difference between structuralism, semiotics, and sociolinguistics, this superbly authoritative dictionary will answer all of your questions and hundred of others.

Think on My Words Panpac Education Pte Ltd

Founded in 1540 by Ignatius of Loyola, the Society of Jesus (Jesuits) has been praised as a saintly god-send and condemned as the work of Satan. With some 600 entries written by 110 authors - those inside and outside the order - this encyclopedia opens up the complexities of Jesuit history and explores the current life and work of this Catholic religious order and its global vocation.

Approximately 230 entries are biographies, focusing on key people in Jesuit history, while the majority of the entries focus on Jesuit ideals, concepts, terminology, places, institutions, and events. With some 70 illustrations highlighting the centrality of visual images in Jesuit life, this encyclopedia is a comprehensive volume providing accessible and authoritative coverage of the Jesuits' life and work across the continents during the last five centuries.

The Stories of English St. Martin's Press

This complete reference provides a wealth of practical information covering all aspects of amateur astronomy. Organized thematically for ease of use, it covers observing techniques, telescopes and observatories, internet resources, and the objects that can be studied. Those new to the field will find tips, techniques and plans on how to begin their quest, and more advanced observers will find useful advice on how to get more from their hobby. Michael E. Bakich obtained a bachelors degree in Astronomy from Ohio State University and a masters degree in Planetarium Education from Michigan State University. He has written numerous original planetarium programs, and gives lectures on astronomy to groups of all ages. He is also a tour guide to eclipses and astro-archaeological sites. Bakich has written two previous books: The Cambridge Planetary Handbook (2000) and The Cambridge Guide to the Constellations (1995), both published by Cambridge University Press.

Encyclopedia of Language and Linguistics Cambridge University Press

A convenient, portable paperback derived from the acclaimed Cambridge Encyclopedia of the World's Ancient Languages.

Concise Encyclopedia of Sociolinguistics University of Chicago Press

This volume offers almost 200 detailed entries covering the entire range of communication and speech disorders in children and adults, from basic science to clinical diagnosis. It is divided into four

sections that reflect the standard categories with the field: voice, speech, language and hearing.

The Ancient Languages of Europe Elsevier

So how can we better understand Shakespeare? David Crystal provides a lively and original introduction to Shakespeare's language, making his plays easily accessible to modern-day audiences.

How Babies Babble, Words Change Meaning, and Languages Live or Die Cambridge University Press

Now in its third edition, The Cambridge Encyclopedia of the English Language provides the most comprehensive coverage of the history, structure and worldwide use of English. Fully updated and expanded, with a fresh redesigned layout, and over sixty audio resources to bring language extracts to life, it covers all aspects of the English language including the history of English, with new pages on Shakespeare's vocabulary and pronunciation, updated statistics on global English use that now cover all countries and the future of English in a post-Brexit Europe, regional and social variations, with fresh insights into the growing cultural identities of 'new Englishes', English in everyday use with new sections on gender identities, forensic studies, and 'big data' in corpus linguistics, and digital developments, including the emergence of new online varieties in social media platforms such as Facebook, Twitter and WhatsApp. Packed with brand new colour illustrations, photographs, maps, tables and graphs, this new edition is an essential tool for a new generation of twenty-first-century English language enthusiasts.

The Cambridge Encyclopedia to Human Evolution Cambridge University Press

20,000 more words, covers full-colour flags for the world's 203 countries, maps of the continents, oceans and earthquake zones, European trade organisations, and the effects of global warming and acid rain.

The Cambridge Encyclopedia of the English Language MIT Press

This new, thoroughly revised edition of the acclaimed Cambridge Encyclopedia of Language incorporates the major developments in language study which have taken place since the mid 1990s. Two main new areas have been added: the rise of electronic communication in all its current forms from email to texting, and the crisis affecting the world's languages, of which half are thought to be so seriously endangered that they will die out this century. • All language statistics have been updated, and additional information provided about their linguistic affiliation • All topics involving technology have been revised to take account of recent developments, notably in phonetics, language disability, and computing • Maps have been revised to include new countries or country names • Special attention has been paid to fast-moving areas such as language teaching and learning • The text design has been completely updated with many new illustrations throughout

The Cambridge Encyclopedia of Darwin and Evolutionary Thought Open Road + Grove/Atlantic

Examines the writing systems, morphology, phonology, syntax, and lexicon of ancient languages.

On Heroes, Hero-worship, & the Heroic in History Oxford University Press

A narrative history of language ranges from the first words of an infant to the modern dialect of text messaging, discussing linguistic styles, the origin of accents, and the search for the first written word.

The Cambridge Encyclopedia of the Jesuits The Cambridge Encyclopedia of Language Looks at the

variety, history, structure, and behavior of language, and discusses language learning, foreign language teaching, and linguistics The Cambridge Encyclopedia of Language The Cambridge Encyclopedia of Language The Cambridge Encyclopedia of the English Language Have you lost track of developments in generative linguistics, finding yourself unsure about the distinctive features of Minimalism? Would you like to know more about recent advances in the genetics of language, or about right hemisphere linguistic operation? Has your interest in narrative drawn you to question the relation between stories and grammars? The Cambridge Encyclopedia of the Language Sciences addresses these issues, along with hundreds of others. It includes basic entries for those unfamiliar with a given topic and more specific entries for those seeking more specialized knowledge. It incorporates both well-established findings and cutting-edge research and classical approaches and new theoretical innovations. The volume is aimed at readers who have an interest in some aspect of language science but wish to learn more about the broad range of ideas, findings, practices, and prospects that constitute this rapidly expanding field, a field arguably at the center of current research on the human mind and human society.

A Little Book of Language Cambridge University Press

The Cambridge Encyclopedia of Japan is the essential reference to all facets of Japan past and present. Up to date, authoritative and wide ranging in scope, it covers all the general reader, student, business person, journalist, researcher, tourist or armchair traveler would want to know. A highly absorbing read, the Encyclopedia is also filled with the facts, figures and general data on Japan that make it an indispensable source of information. Learn, for example, that the safest place to be during an earthquake in Japan is in a bamboo grove; or that one of the greatest delicacies of Japanese cuisine, the fugu, is deadly poisonous in the hands of an unskilled chef. Also included are the latest statistics on Japan's dramatically aging population, a complete listing of its prime ministers, and valuable data on the powerful Japanese advertising industry.

The Cambridge Encyclopedia of Brass Instruments Cambridge University Press

This encyclopedia provides an overview of the vast subject of sociolinguistics for an audience who may be unfamiliar or just becoming familiar with the area. It also includes a handy reference to key concepts and discipline.

The Fight for English Cambridge University Press

An up-to-date reference source offers more than forty thousand entries and a quick reference section of facts and figures.

The MIT Encyclopedia of Communication Disorders Cambridge University Press
