A Technique for Producing Ideas A Technique for Producing Ideas Advertising copywriters, engineers, poets, painters and scientists have all benefited from its text to make creative breakthroughs. Advertising trailblazer William Bernbach wrote, "James Webb Young conveys in his little book something more valuable than the most learned and detailed texts on the subject of advertising. Mr. Young is in the tradition of some of our greatest thinkers when he describes the workings of the creative process". Table of contents How it started The formula of experience The Pareto theory Training the mind Combining old elements Ideas are new combinations The Mental digestive process "Constantly thinking about it" The final stage Some after-thoughts

A Technique for Producing Ideas Now SC Press

Robert Collier was decades ahead of his time in writing down ways for man to improve his lot in life. He wrote "Secret of the Ages" during an active and successful life developed upon basic ideas which opened up new vistas of living for countless multitudes of people. Brought up to be a priest, he worked as a mining engineer, an advertising executive and a prolific writer and publisher. The Robert Collier Letter Book earned Robert Collier the distinction of being one of the greatest marketing minds in history. Robert Collier sales letters were successful because he wrote to his readers' needs. As an expert in marketing, his sales savvy and writing expertise placed hundreds of millions of dollars in his clients' pockets.

Egghead Crown House Publishing

A practical step-by-step technique for sparking breakthrough creativity in any field. Since its publication in 1965, A Technique for Producing Ideas has helped thousands of advertising copywriters smash through internal barriers to unleash their

creativity. Professionals from poets and painters to scientists and engineers have also used the techniques in this concise, powerful book to generate exciting ideas on demand, at any time, on any subject.

Hello, My Name Is Awesome John Wiley & Sons

This concise and powerful book lifts the lid on the creative process and eloquently details the steps needed to create exciting new ideas. Advertising copywriters, engineers, poets, painters and scientists have all benefited from its text to make creative breakthroughs. Advertising trailblazer William Bernbach wrote, "James Webb Young conveys in his little book something more valuable than the most learned and detailed texts on the subject of advertising. Mr. Young is in the tradition of some of our greatest thinkers when he describes the workings of the creative process". The Idea Hunter N T C Business Books

"It's Not How Good You Are, It's How Good You Want to Be is a handbook of how to succeed in the world: a pocket bible for the talented and timid alike to help make the unthinkable thinkable and the impossible possible. The world's top advertising guru, Paul Arden, offers up his wisdom on issues as diverse as problem solving, responding to a brief, communicating, playing your cards right, making mistakes, and creativity - all endeavors that can be applied to aspects of modern life. This uplifting and humorous little book provides a unique insight into the world of advertising and is a quirky compilation of quotes, facts, pictures, wit and wisdom - all packed into easy-to-digest, bite-sized spreads. If you want to succeed in life or business, this book is a must. "

A Technique for Producing Ideas Contemporary Books

Every year, 6 million companies and more than 100,000 products are launched. They all need an awesome name, but many (such

as Xobni, Svbtle, and Doostang) look like the results of a drunken Scrabble game. In this entertaining and engaging book, ace naming consultant Alexandra Watkins explains how anyone—even noncreative types—can create memorable and buzz-worthy brand names. No degree in linguistics required. The heart of the book is Watkins's proven SMILE and SCRATCH Test—two acronyms for what makes or breaks a name. She also provides up-to-date advice, like how to make sure that Siri spells your name correctly and how to nab an available domain name. And you'll see dozens of examples—the good, the bad, and the “so bad she gave them an award.” Alexandra Watkins is not afraid to name names.

Serious Creativity Nicholas Brealey

A new classic, cited by leaders and media around the globe as a highly recommended read for anyone interested in innovation. In *The Innovator's DNA*, authors Jeffrey Dyer, Hal Gregersen, and bestselling author Clayton Christensen (*The Innovator's Dilemma*, *The Innovator's Solution*, *How Will You Measure Your Life?*) build on what we know about disruptive innovation to show how individuals can develop the skills necessary to move progressively from idea to impact. By identifying behaviors of the world's best innovators—from leaders at Amazon and Apple to those at Google, Skype, and Virgin Group—the authors outline five discovery skills that distinguish innovative entrepreneurs and executives from ordinary managers: Associating, Questioning, Observing, Networking, and Experimenting. Once you master these competencies (the authors provide a self-assessment for rating your own innovator's DNA), the authors explain how to generate ideas, collaborate to implement them, and build innovation skills throughout the organization to result in a competitive edge. This innovation advantage will translate into a premium in your company's stock price—an innovation premium—which is possible only by building the code for innovation right into your organization's people, processes, and guiding philosophies. Practical and provocative, *The Innovator's DNA* is an essential resource for individuals and teams who want to strengthen their innovative prowess.

Dancing About Architecture McGraw Hill Professional
 HOW DO I TRANSFORM MY LIFE? The answer is simple: come up with ten ideas a day. It doesn't matter if they are good or bad the key is to exercise your 'idea muscle', to keep it toned, and in great shape. People say ideas are cheap and execution is everything but that is NOT true. Execution is a consequence, a subset of good, brilliant idea. And good ideas require daily work. Ideas may be easy if we are only coming up with one or two but if you open this book to any of the pages and try to produce more than three, you will feel a burn, scratch your head, and you will be sweating, and working hard. There is a turning point when you reach idea number 6 for the day, you still have four to go, and your mind muscle is getting a workout. By the time you list those last ideas to make it to ten you will see for yourself what "sweating the idea muscle" means. As you practice the daily idea generation you become an idea machine. When we become idea machines we are flooded with lots of bad ideas but also with some that are very good. This happens by the sheer force of the number, because we are coming up with 3,650 ideas per year (at ten a day). When you are inspired by an extraordinary idea, all of your thoughts break their chains, you go beyond limitations and your capacity to act expands in every direction. Forces and abilities you did not know you had come to the surface, and you realize you are capable of doing great things. As you practice with the suggested prompts in this book your ideas will get better, you will be a source of great insight for others, people will find you magnetic, and they will want to hang out with you because you have so much to offer. When you practice every day your life will transform, in no more than 180 days, because it has no other evolutionary choice. Life changes for the better when we become the source of positive, insightful, and helpful ideas. Don't believe a word I say. Instead, challenge yourself to try it for the 180 days and see your life transform, in magical ways, in front of your very eyes.

The Innovator's DNA Createspace Independent Publishing Platform

Dancing about Architecture: A Little Book of Creativity is a compendium of outrageous ideas: ideas about how to take more risks, and about how to go about coming up with better ideas. Ideas about how to plan experiences that leave people who are in the same room as those ideas awestruck, and ideas to help you

avoid the textbook, the worksheet the barely stifled yawn. From using The Book of Revelation as a planning device; to seeing every experience through the prism of physical activity or song; to measuring a poem to find its real heart; it outlines a methodology that, if you use it, will make you an even greater creative force than you already are.

George Lois on His Creation of the Big Idea Harvard Business Press

In a series of disarmingly simple arguments financial market analyst George Cooper challenges the core principles of today's economic orthodoxy and explains how we have created an economy that is inherently unstable and crisis prone. With great skill, he examines the very foundations of today's economic philosophy and adds a compelling analysis of the forces behind economic crisis. His goal is nothing less than preventing the seemingly endless procession of damaging boom-bust cycles, unsustainable economic bubbles, crippling credit crunches, and debilitating inflation. His direct, conscientious, and honest approach will captivate any reader and is an invaluable aid in understanding today's economy.

A Technique for Producing Ideas Kogan Page Publishers

A different way of discovering and developing the best business ideas Jack Welch once said, "Someone, somewhere has a better idea." In this myth-busting book, the authors reveal that great business ideas do not spring from innate creativity, or necessarily from the brilliant minds of people. Rather, great ideas come to those who are in the habit of looking for great ideas all around them, all the time. Too often, people fall into the trap of thinking that the only worthwhile idea is a thoroughly original one. Idea Hunters know better. They understand that valuable ideas are already out there, waiting to be found - and not just in the usual places. Shows how to expand your capacity to find and develop winning business ideas Explains why ideas are a critical asset for every manager and professional, not just for those who do "creative" Reveals how to seek out and select the ideas that best serve your purposes and goals and define who you are, as a professional Offers practical tips on how to master the everyday habits of an Idea Hunter, which include cultivating great conversations The book is filled with illustrative accounts of successful Idea Hunters and stories from thriving "idea" companies. Warren Buffet, Walt Disney, Thomas Edison, Mary Kay

Ash, Twitter, and Pixar Animation Studios are among the many profiled.

A Technique for Producing Ideas Laurus

Elaborate apparatus plays an important part in the science of today, but I sometimes wonder if we are not inclined to forget that the most important instrument in research must always be the mind of man. It is true that much time and effort is devoted to training and equipping the scientist's mind, but little attention is paid to the technicalities of making the best use of it. There is no satisfactory book which systematises the knowledge available on the practice and mental skills—the art—of scientific investigation. This lack has prompted me to write a book to serve as an introduction to research. My small contribution to the literature of a complex and difficult topic is meant in the first place for the student about to engage in research, but I hope that it may also interest a wider audience. Since my own experience of research has been acquired in the study of infectious diseases, I have written primarily for the student of that field. But nearly all the book is equally applicable to any other branch of experimental biology and much of it to any branch of science. - (Cambridge, 1957. W.I.B. Beveridge)

How to Get to Great Ideas Phaidon Press

A Technique For Producing Ideas: (A Technique For Getting Ideas)
 This book is a result of an effort made by us towards making a contribution to the preservation and repair of original classic literature. In an attempt to preserve, improve and recreate the original content, we have worked towards: 1. Type-setting & Reformatting: The complete work has been re-designed via professional layout, formatting and type-setting tools to re-create the same edition with rich typography, graphics, high quality images, and table elements, giving our readers the feel of holding a 'fresh and newly' reprinted and/or revised edition, as opposed to other scanned & printed (Optical Character Recognition - OCR) reproductions. 2. Correction of imperfections: As the work was re-created from the scratch, therefore, it was vetted to rectify certain conventional norms with regard to typographical mistakes, hyphenations, punctuations, blurred images, missing content/pages, and/or other related subject matters, upon our consideration. Every attempt was made to rectify the imperfections related to omitted constructs in the original edition via other references. However, a few of such imperfections which

could not be rectified due to intentional/unintentional omission of content in the original edition, were inherited and preserved from the original work to maintain the authenticity and construct, relevant to the work. We believe that this work holds historical, cultural and/or intellectual importance in the literary works community, therefore despite the oddities, we accounted the work for print as a part of our continuing effort towards preservation of literary work and our contribution towards the development of the society as a whole, driven by our beliefs. We are grateful to our readers for putting their faith in us and accepting our imperfections with regard to preservation of the historical content. HAPPY READING!

How to be a Brilliant Thinker Random House

If you want to be the best, focus on your most valuable asset: the power of your creative mind. As competition and the pace of change intensify, companies and individuals need to harness their creativity to stay ahead of the field. Under pressure, people often think they can't be creative; many more are convinced they are not creative at all because they have never been 'arty'. Creative genius Edward de Bono debunks these common notions in this remarkable book. He shows how creativity is a learnable skill - one that everyone can use to improve their performance. He then explains how you can unlock your own creativity to reap the personal and professional rewards it will bring. Learn how to: be creative on demand with de Bono's step-by-step approach add value to ideas and turn them into financial assets boost creativity with the power of lateral thinking break free from old ways of thinking with creative challenging

A Technique for Producing Ideas Penguin

Evolving from the premise that customers have always behaved more like cats than Pavlov's dogs, *Waiting for Your Cat to Bark?* examines how emerging media have undermined the effectiveness of prevailing mass marketing models. At the same time, emerging media have created an unprecedented

opportunity for businesses to redefine how they communicate with customers by leveraging the power of increasingly interconnected media channels. Bryan and Jeffrey Eisenberg don't simply explain this shift in paradigm; *Waiting for Your Cat to Bark?* introduces Persuasion Architecture™ as the synthetic model that provides business with a proven context for rethinking customers and retooling marketers in a rewired market. Readers will learn: Why many marketers are unprepared for today's increasingly fragmented, in-control, always-on audience that makes pin-point relevance mandatory How interactivity has changed the nature of marketing by extending its reach into the world of sales, design, merchandizing, and customer relations How Persuasion Architecture™ allows businesses to create powerful, multi-channel persuasive systems that anticipate customer needs How Persuasion Architecture™ allows businesses to measure and optimize the return on investment for every discreet piece of that persuasive system "There's some big thinking going on here-thinking you will need if you want to take your work to the next level. 'Typical, not average' is just one of the ideas inside that will change the way you think about marketing." ?Seth Godin, Author, *All Marketers Are Liars* "Are your clients coming to you armed with more product information than you or your sales team know? You need to read *Waiting for Your Cat to Bark?* to learn how people are buying in the post-Internet age so you can learn how to sell to them." ?Tom Hopkins, Master Sales Trainer and Author, *How to Master the Art of Selling* "These guys really 'get it.' In a world of know-it-all marketing hysteresis, these guys realize that it takes work to persuade people who aren't listening. They've connected a lot of the pieces that we all already know-plus a lot that we don't. It's a rare approach that recognizes that the customer is in charge and must be encouraged and engaged on his/her own terms, not the sellers. *Waiting for Your Cat to Bark?* takes apart the persuasion process, breaks down the steps and gives practical ways to tailor your approaches to your varying real customers in the real world. This book is at a high level that marketers better hope their competitors will be too lazy to implement." ?George Silverman, Author, *The Secrets of Word of Mouth Marketing: How to Trigger Exponential Sales Through Runaway Word of Mouth* "We often hear that the current marketing model is broken-meaning the changes in customers, media, distribution, and even the flatness

of the world make current practices no longer relevant. Yet few have offered a solution. This book recognizes the new reality in which we operate and provides a path for moving forward. The authors do an outstanding job of using metaphors to help make Persuasion Architecture clear and real-life examples to make it come alive. Finally, someone has offered direction for how to market in this new era where the customer is in control." ?David J. Reibstein, William Stewart Woodside Professor, Wharton Business School of the University of Pennsylvania and former Executive Director, Marketing Science Institute "If you want to learn persistence, get a cat. If you want to learn marketing, get this book. It's purrfect." ?Jeffrey Gitomer, Author, *The Little Red Book of Selling*

The Art of Thought Grand Central Publishing

The practice of entrepreneurship is transformative to anyone who chooses to take the journey, and it can also be a pathway to changing the world! The goal of entrepreneurship, is not mastery of every aspect, the goal is to keep learning, to execute past failure, to reach your definition of success. After studying entrepreneurs and entrepreneurship for over thirty years, this book, *See, Do, Repeat: The Practice of Entrepreneurship* identifies a method to identify and carry out successful entrepreneurial ventures, highlighting that you must find opportunities, take action, execute and repeat! Entrepreneurship is as much a business challenge as it is a mental one. Dr. White's new book provides the data for the discipline required to achieve the extraordinary every day. Jason Feifer, Editor in Chief *Entrepreneur Magazine* What I found most interesting was the tangible processes for learning how to ideate and discover opportunities. The book describes real, practical advice for today's entrepreneur. Jeffrey Vinik, Owner, Tampa Bay Lightning The human aspect of this book involving mental preparedness, thought incubation, positive mentality, and gratitude harvest the fundamental skills of success. Dr. Jacqueline Darna N.M.D CEO & Medical Inventor of NoMo Bands, Top WBE CEO of 2021 Dr. White's book captures the true essence of the entrepreneurial journey and unlocks the keys to true success along the way. I wish I had read this book earlier in my entrepreneurial career as well! Nick Friedman, Co-Founder/Visionary, College H.U.N.K.S. *Hauling Junk* About the Author Rebecca J. White is an experienced educator, entrepreneur, speaker, author, consultant, and board member

with expertise and experience in the design, management, and leadership of innovation and talent development. Dr. White is currently the James W. Walter Distinguished Chair of Entrepreneurship, Professor of Entrepreneurship, and Director of the John P. Lowth Entrepreneurship Center at the University of Tampa. She received her MBA and Ph.D. from Virginia Tech University. In addition to starting several business ventures of her own and launching nationally ranked academic centers, she grew up in a family business and has helped countless entrepreneurs launch and grow their companies. Her research is based on the intersection of creative problem solving, entrepreneurial mindset, and situated cognition. Her podcast, En Factor, and the companion blog, share inspirational stories of successful entrepreneurs, with a focus on opportunity recognition and resilience. In 2019, Dr. White was named one of the Most Influential Board Members in the United States by Women Inc. Additionally, under her leadership, the award-winning

entrepreneurship program at the University of Tampa, is ranked in the top 20 by Princeton Review and in the top 35 by US News and World Report and Bloomberg Business. In 2017, Dr. White received the Karl Vesper Pioneer in Entrepreneurship Education award, the Max S Wortman, Jr. Lifetime Achievement in Entrepreneurship award, and the Max S Wortman, Jr. Lifetime Achievement in Entrepreneurship award. *A Technique for Producing Ideas* John Wiley & Sons An Adweek Book Master the techniques that top companies use to spark creativity In today's business environment, gaining the competitive edge through creative and original thinking is a crucial component of brand strategy. Creative leader of advertising Tom Monahan offers a fresh look at the subject, providing hard and fast methods for freeing the mind and inspiring active creativity in oneself and others. His 180-degree Thinking(TM), 100 MPH Method, and other techniques he employs in his creative consulting practice are easy-to-use strategies for unleashing new ideas and facilitating creative product development, advertising, and marketing plans. This book has the added benefit of

Monahan's experience of using these methods at A-list client companies.

How to Become an Advertising Man John Wiley & Sons

Do you want to have great ideas? Do you want to break out of the rut of conventional thinking? Would you like to be a genius?
