The Titanic was the most famous ship in history. But what really happened to the Titanic on that terrible April night in the North Atlantic? Why did it hit an iceberg? Why did it sink? Why did more than one thousand people die? This book looks at the true story - and gives some of the answers.

A level 1 Oxford Bookworms Library graded reader. This version includes an audio book: listen to the story as you read. Written for Learners of English by Jennifer Bassett. In EDI (the European Department of Intelligence in Brussels) there are some very secret files - the Omega Files. There are strange, surprising, and sometimes horrible stories in these files, but not many people know about them. You never read about them in the newspapers. Hawker and Jude know all about the Omega Files, because they work for EDI. They think fast, they move fast, and they learn some very strange things. They go all over the world, asking difficult questions in dangerous places, but they don't always find the answers . . .
