Discover an eye-opening multilayered book based on the author's observations and experiences illuminating the Mississippi Delta's interwoven yet distinct culture, customs, and traditions. In his coming-of-age story, he simultaneously explores flags and symbols, and challenges learned beliefs to understand better the Delta's barriers and how they impacted him. He illustrates the most transformational period and its actors, legislation, and the consequences that follow. Likewise he: delves into the emancipated people and their descendants' pain, perseverance, and triumphs. He is then brightening the way with family, friends, neighbors, stories of faith, love, joy, and hope; explains the history of a controversial flag and its value; through self-discovery, discusses successes and failures, his ability to set and obtain goals; realizes that his generation may well be the last link in the chain connecting the past to the future through measured understanding. In Red Flags for Mississippi, A Native Son's

Journey, the author provides a roadmap with many adventurous twists and turns. He reminds us that we are forever linked to the past, and history is our cornerstone. With knowledge comes understanding and then wisdom. Everyone, especially Mississippians, should read Red Flags for Mississippi, A Native Son's Journey at least once in their lives.

How are we as Christians called to respond when cancer invades our lives, whether our own bodies or those of our friends and family? On the eve of his own cancer surgery, John Piper writes about cancer as an opportunity to glorify God. With pastoral sensitivity, compassion, and strength, Piper gently but firmly acknowledges that we can indeed waste our cancer when we don't see how it is God's good plan for us and a hope-filled path for making much of Jesus. Don't Waste Your Cancer is for anyone touched by a life-threatening illness. It first appeared as an appendix in *Suffering and the Sovereignty of God*. Repackaged and republished, it will serve as a hope-giving resource for

healthcare workers, pastors, counselors, and others caring for those with cancer and other serious illnesses. The booklets are also available in packs of ten.

A sweeping history of the electric light revolution and the birth of modern America The late nineteenth century was a period of explosive technological creativity, but more than any other invention, Thomas Edison's incandescent light bulb marked the arrival of modernity, transforming its inventor into a mythic figure and avatar of an era. In *The Age of Edison*, award-winning author and historian Ernest Freeberg weaves a narrative that reaches from Coney Island and Broadway to the tiniest towns of rural America, tracing the progress of electric light through the reactions of everyone who saw it and capturing the wonder Edison's invention inspired. It is a quintessentially American story of ingenuity, ambition, and possibility in which the greater forces of progress and change are made by one of our most humble and ubiquitous objects.

Princess Lu knows that the throne of the Empire of the First Flame rightfully belongs to her. After all, she is the late Emperor's firstborn and has trained for the role all her life. And she can't forget made a promise to shapeshifter Nok, the boy she came to love, to win justice for his now powerless people. But even with an army at her side, Lu will need to face down a major obstacle: the current sitting Empress, her once beloved younger sister, Min. Princess Min used to live in Lu's shadow. But now she can control a powerful, ancient magic, and she's determined to use it to forge her own path and a strong future for the Empire, even if that means making enemies in court. But Min's magic isn't entirely under her control, and she must learn how to tame it before it consumes her . . . and the entire realm. Lu and Min are set for a confrontation that can't be stopped. But the Empire

faces threats greater than their rivalry, and even if they choose to stand together, it could cost them both the throne-or their lives.

In an age when deleted scenes from Adam Sandler movies are saved, it's sobering to realize that some of the world's greatest prose and poetry has gone missing. This witty, wry, and unique new book rectifies that wrong. Part detective story, part history lesson, part exposé, *The Book of Lost Books* is the first guide to literature's what-ifs and never-weres. In compulsively readable fashion, Stuart Kelly reveals details about tantalizing vanished works by the famous, the acclaimed, and the influential, from the time of cave drawings to the late twentieth century. Here are the true stories behind stories, poems, and plays that now exist only in imagination: ·Aristophanes' Heracles, the Stage Manager was one of the playwright's several spoofs that disappeared. ·Love's Labours Won may have been a sequel to Shakespeare's Love's Labours Lost--or was it just an alternative title for *The Taming of the Shrew*? ·Jane Austen's incomplete novel Sanditon, was a critique of hypochondriacs and cures started when the author was fatally ill. ·Nikolai Gogol burned the second half of *Dead Souls* after a religious conversion convinced him that literature was paganism. ·Some of the thousand pages of William Burroughs's original *Naked Lunch* were stolen and sold on the street by Algerian street boys. ·Sylvia Plath's widower, Ted Hughes, claimed that the 130 pages of her second novel, perhaps based on their marriage, were lost after her death. Whether destroyed (Socrates' versions of Aesop's Fables), misplaced (Malcolm Lowry's *Ulamarine* was pinched from his publisher's car), interrupted by the author's death (Robert Louis Stevenson's *Weir of Hermiston*), or simply never begun (Vladimir Nabokov's *Speak, America*, a second volume of his memoirs), these missing links create a history of literature for a parallel world. Civilized and satirical, erudite yet accessible, *The Book of Lost Books* is itself a find.

This comprehensive narrative traces the history of the Navajos from their origins to the beginning of the twenty-first century. Based on extensive archival research, traditional accounts, interviews, historic and contemporary photographs, and firsthand observation, it provides a detailed, up-to-date portrait of the Diné past and present that will be essential for scholars, students, and interested general readers, both Navajo and non-Navajo. As Iverson points out, Navajo identity is rooted in the land bordered by the four sacred mountains. At the same time, the Navajos have always incorporated new elements, new peoples, and new ways of doing things. The author explains how the Diné remember past promises, recall past sacrifices, and continue to build upon past achievements to construct and sustain North America's largest native community. Provided is a concise and provocative analysis of Navajo origins and their relations with the Spanish, with other Indian communities, and with the first Anglo-Americans in the Southwest. Following an insightful account of the traumatic Long Walk era and of key developments following the return from exile at Fort Sumner, the author considers the major themes and events of the twentieth century, including political leadership, livestock reduction, the Code Talkers, schools, health care, government, economic development, the arts, and athletics. Monty Roessel (Navajo), an outstanding photographer, is Executive Director of the Rough Rock Community School. He has written and provided photographs for award-winning books for young people.

More than 25 musicians who first came to prominence during the 1950s are the subject of this collection of interviews. The author's purpose has been to help preserve the oral history of a great American artform, and this book reveals that jazz musicians who can 'tell a story' with their horn when improvising can be just as articulate in conversation.

Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she

didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.
