In the mid 1700s, around the age of eleven, Olaudah Equiano and his sister were kidnapped from their village in equatorial Africa and sold to slavers.

Within a year he was aboard a European slave ship on his way to the Caribbean. The Interesting Narrative of the Life of Olaudah Equiano, or Gustavus Vassa, the African was published by the author in 1789 and is part adventure story, part treatise on the corrupting power of slavery, and part tract about the transformative powers of Christianity. Equiano's story takes him from Africa to the Americas, back across the Atlantic to England, into the Mediterranean, and even north to the ice packs, on a mission to discover the North-East passage. He fights the French in the Seven Year's War, is a mate and merchant in the West Indies, and eventually becomes a freedman based in London. The Interesting Narrative of the Life of Olaudah Equiano was one of the first popular slave narratives and was reprinted eight times in the author's lifetime. While modern scholars value this account as an important source on the life of the eighteenth-century slave and the transition from slavery to freedom, it remains an important literary work in its own right. As a valuable part of the African and African-American canons, it is still frequently taught in both English and History university courses. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

"The feeling was electric-energy humming through my body. I felt like blood was pouring into areas of my tissues that it had not been able to reach for some time. It was relieving and healing, subtler than the feeling from getting off on drugs, but it was detectable and lovely, and of course, there was no hangover, just a feeling of more ease than I could remember. I felt a warmth come over me similar to what I felt when I had done heroin, but far from the darkness of that insanity, this was pure light-a way through." - Tommy Rosen, on his first yoga experience Most of us deal with addiction in some form. Seventeen-year-old Jane had found the horse of her dreams-or so she thought. Windsong had the breeding, training, and the flashy good looks to win medals at national competitions, but conservative, shy Jane wasn't sure she was up to the challenge of riding the temperamental beast. He may have been an imported Swedish Warmblood, and he may have had Grand Prix dressage training, but he was wild. When her spirited, new horse races out of control, help comes unexpectedly-and unwelcomed-from a loathsome cowboy, a horribly mean-spirited, condescendingly brusque gorgeous black-haired, azure-eyed reining champion, who is positive Jane is most definitely not up to the challenge. As these two from opposite ends of the horse world are forced to work together, tempers blaze and horseshoes fly, but something else begins to spark. Can Jane overcome her fear and preconceptions to win her goal of competing in the National Junior Rider Championships...and not lose her heart at the same time? This story about a teen dressage competitor is the first of a series of three books following her developing career in national competition. This book is not just for horse-crazy teens though, it will captivate women and young adults who love outdoor sports and romance. If you have experience with horses or other outdoor sports, you already know that horse showing or sport competition is an adventure; and, let me tell you, horse showing in national competition is equestrian adventure at its most exhilarating. Are you up to the challenge?

Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
