His latest venture, the AP® Crash Course® series, helps students strategically and effectively prepare for their AP® exams.

Barron's AP Psychology Princeton Review

This unique book closes the gap between psychology books and the research that made them possible. Its journey through the "headline history" of psychology presents 40 of the most famous studies in the history of the science, and subsequent follow-up studies that expanded their findings and relevance. Readers are granted a valuable insider's look at the studies that continue to be cited most frequently, stirred up the most controversy when they were published, sparked the most subsequent related research, opened new fields of psychological exploration, and changed most dramatically our knowledge of human behavior. For individuals with an interest in an introduction to psychology. *AP Psychology 2021 and 2022 Test Prep* Macmillan Higher Education Organized for easy reference and crucial practice, coverage of all the essential topics presented as 500 AP-style questions with detailed answer
