WHEELER CARLA

Italy at the Millennium Rowman & Littlefield Publishers
 This volume brings together specialists from a variety of disciplines to develop a deeper understanding of the social, political, and cultural history of women in Italy in the years 1946-1960. Despite being a time when women and the family were at the center of national debates, and when society changed considerably, the fifteen years following the Second World War have tended to be overlooked or subsumed into discussions of other periods. By focusing on the experience of women and by broadening the frame of reference to include subjects and sources often ignored, or only alluded to, by traditional analyses, the essays in this volume break new ground and provide a corrective to previous interpretive models.

 Double Lives: Film Composers in the Concert Hall is a collection of fifteen essays dealing with 'iconic' film composers who, perhaps to the surprise of many fans of film music, nevertheless

maintained lifelong careers as composers for the concert hall. Featured composers include Erich Wolfgang Korngold, Franz Waxman, Miklós Rózsa, Bernard Herrmann, Nino Rota, Leonard Rosenman, and Ennio Morricone. Progressing in chronological order, the chapters offer accounts of the various composers' concert-hall careers and descriptions of their concert-hall styles. Each chapter compares the composer's music for films with his or her music for the concert hall, and speculates as to how music in one arena might have affected music in the other. For each composer discussed in the book, complete filmographies and complete works lists are included as appendices. Double Lives: Film Composers in the Concert Hall is accessible for scholars, researchers, and general readers with an interest in film music and concert music.

Reflections on the Music of Ennio Morricone Multilingual Matters

This volume reintroduces critics, film musicologists, cinemagoers, and fans of Francis Ford Coppola's cinema and Nino Rota's music to the events that led to the realization of the three films that make up *The Godfather Trilogy*, commenting on their significance both musically and culturally. Released in 1972, 1974, and 1990 respectively, Coppola's three-part saga is one of the greatest artistic accomplishments (and financial successes) in the history of Hollywood cinema.

Francesco Rosi is one of the great realist artists of post-war Italian, indeed post-war world cinema. In this book, author Gaetana Marrone explores the rich visual language in which the Neapolitan filmmaker expresses the cultural icons that constitute his style and images. Over the years, Rosi has offered us films that trace an intricate path between the real and the fictive, the factual and the imagined. His films show an extraordinarily consistent formal balance while representing historical events as social emblems that examine, shape, and reflect the national self. They rely on a labyrinthine narrative structure, in which the sense of an enigma replaces the unidirectional path leading ineluctably to a designated end and solution. Rosi's logical investigations are conducted by an omniscient eye and translated into a cinematic approach that embraces the details of material reality with the panoramic perspective of a dispassionate observer. This book offers intertextual analyses within such fields as history, politics, literature, and photography, along with production information gleaned from Rosi's personal archives and interviews. It examines Rosi's creative use of film as document, and as spectacle). It is also a study of the specific cinematic techniques that characterize Rosi's work and that visually, compositionally, express his vision of history and the elusive "truth" of past and present social and political realities.

"The central importance of the actor-author is a distinctive feature of Italian theatrical life, in all its eclectic range of regional cultures and artistic traditions. The fascination of the figure is that he or she stands on both sides of one of theatre's most important power relationships: between the exhilarating freedom of performance and the austere restriction of authorship and the written text. This broad-ranging volume brings together critical essays on the role of the actor-author, spanning the period from the Renaissance to the present. Starting with Castiglione, Ruzante and the commedia dell'arte, and surveying the works of Dario Fo, De Filippo and Bene, among others, the contributors cast light on a tradition which continues into Neapolitan and Sicilian theatre today, and in Italy's currently fashionable 'narrative theatre', where the actor-author is centre stage in a solo performance."

In a world that tends to homologate, thus becoming, in every aspect of our lives, grey, flat and uniform, so creating the world of universal similarity (including language), does it still make sense today to talk about vernacular theatre? Tackling such a question implies uncovering the reasons for the disappearance of the many regional theatres that were present in Italy in the nineteenth century. There is no doubt that first the unification of the country in 1861, and then the language policies of fascism in the '30s were the final nails in the coffin for local theatres. It is also true, however, that what really determined their downsizing was the progressive loss of connection with their own environment. If we give an essentially superficial interpretation to the adjective "vernacular", and in a play we see a canovaccio (plot) that the local star uses as a vehicle to show his talent through a series of modest mannerisms, then "vernacular" implies the death certificate of this type of theatre (once the star dies, his alleged dramaturgy dies with him and his mannerisms). On the contrary, if we identify in this adjective the theatre's healthy attempt to develop a local, social and cultural analysis of its environment, it opens a whole new meaning and acquires a perspective that a national theatre can never aspire to. This is the case of Neapolitan theatre. It managed to survive and thrive, producing plays that were capable of critically describing modern and contemporary reality. Neapolitan playwrights forcefully proclaimed their roots as a primary source for their work. The city, in fact, became a direct expression of that cultural microcosm which provided them with the living flesh of their plots.

The Tradition of the Actor-author in Italian Theatre University of Toronto Press

Theater Neapolitan Style introduces five one act plays by Eduardo De Filippo to English speaking readers and audiences for the first time. Both individually and collectively, these works bring into clear focus the atmosphere and environment of pre- and post-World War II Naples. At the same time they offer the reader/spectator glimpses into unforgettable lives and situations - glimpses that record De Filippo's favorite emblems with marvelous clarity: a Neapolitan setting; a Neapolitan family; a Neapolitan commedia figure. We witness the playwright's uncanny ability to mix comic and tragic elements simultaneously as romantic courtship prevails despite poverty and infirmity in *Philosophically Speaking*: a tired marriage and the temptation of youthful flirtation oppose each other in *Gennareniello*: a government clerk happens upon the demolition of his childhood home in *So Long, Fifth Floor*; an old actor fantasizes about performing a major role once again in *The Part of Hamlet*: and a tired salesman learns that his room has been used for the laying out of his deceased landlord in *Dead People Aren't Scary*.
