Excerpt from Codex Bezae: A Study of the
So-Called Western Text of the New
Testament Western in cause or effect, or

both in cause and effect, is still unknown.
Now, in order to make the investigation a
little easier, I propose to attack the
question just at the hardest point: to make
a new examination of the Western text in
its leading monument, the great
Cambridge manuscript, known as Codex

Bezae, and to challenge it once again to tell its history. About the Publisher

Five Faces of Modernity is a series of semantic and cultural biographies of words that have taken on special significance in the last century and a half or so: modernity, avant-garde, decadence, kitsch, and postmodernism. The concept of modernity--the notion that we, the living, are different and somehow superior to our predecessors and that our civilization is likely to be succeeded by one even superior to ours--is a relatively recent Western invention and one whose time may already have passed, if we believe its postmodern challengers. Calinescu documents the rise of cultural modernity and, in tracing the shifting senses of the five terms under scrutiny, illustrates the intricate value judgments, conflicting orientations, and intellectual paradoxes to which it has given rise. Five Faces of Modernity attempts to do for the foundations of the modernist critical lexicon what earlier terminological studies have done for such complex categories as classicism, baroque, romanticism, realism, or symbolism and thereby fill a gap in literary scholarship. On another, more ambitious level, Calinescu deals at length with the larger issues, dilemmas, ideological tensions, and perplexities brought about by the assertion of modernity.

Combining the best features of traditional and modern methods, Athenaze: An Introduction to Ancient Greek, 2/e, provides a unique course of instruction that allows students to read connected Greek narrative right from the beginning and guides them to the point where they can begin reading complete classical texts. Carefully designed to hold students' interest, the course begins in Book I with a fictional narrative about an Attic farmer's family placed in a precise historical

context (432-431 B.C.). This narrative, interwoven with tales from mythology and the Persian Wars, gradually gives way in Book II to adapted passages from Thucydides, Plato, and Herodotus and ultimately to excerpts of the original Greek of Bacchylides, Thucydides, and Aristophanes' Acharnians. Essays on relevant aspects of ancient Greek culture and history are also provided. New to the Second Edition: * Short passages from Classical and New Testament Greek in virtually every chapter * The opening lines of the Iliad and the Odyssey toward the end of Book II * New vocabulary and more complete explanations of grammar, including material on accents * Many new exercises and additional opportunities for students to practice completing charts of verb forms and paradigms of nouns and adjectives * Updated Teacher's Handbooks for Books I and II containing translations of all stories, readings, and exercises; detailed suggestions for classroom presentation; abundant English derivatives; and additional linguistic information * Offered for the first time, Student Workbooks for Books I and II that include self-correcting exercises, cumulative vocabulary lists, periodic grammatical reviews, and additional readings

This Handbook presents current research on children and youth in ethnic minority families. It reflects the development currently taking place in the field of social sciences research to highlight the positive adaptation of minority children and youth. It offers a succinct synthesis of where the

field is and where it needs to go. It brings together an international group of leading researchers, and, in view of globalization and increased migration and immigration, it addresses what aspects of children and youth growing in ethnic minority families are universal across contexts and what aspects are more context-specific. The Handbook examines the individual, family, peers, and neighborhood/policy factors that protect children and promote positive adaptation. It examines the factors that support children's social integration, psychosocial adaptation, and external functioning. Finally, it looks at the mechanisms that explain why social adaptation occurs.

This work is a comparative study of nineteenth-century English-Canadian and French Canadian novel prefaces, a previously unexplored literary topic. As a study in Comparative Literature - with the application of a specific literary framework and methodology - the study conforms to theoretical and methodological postulates formulated in and prescribed by this framework when applied. This a priori postulate necessitates that the research on and the presentation of the Canadian novel preface be carried out in a specific manner, as follows. First, the study will establish the hypothesis that the preface to nineteenth-century English-Canadian and French-Canadian novels is a genre in its own right. This hypothesis will rest on the following: 1) a taxonomical survey of related terms meaning "preface"; 2) a survey of secondary literature of works dealing with the preface; 3) a discussion of the theoretical framework and methodology of the Empirical Theory of Literature and its appropriateness for the study of the preface; and 4) a discussion of the process of the compilation of the corpus of nineteenth-century Canadian novel prefaces (Chapter one). In a second step, the theoretical postulate outlined in the hypothesis will be put into practice by the development and production of a preface typology (Chapter two). In a third step, further tenets of the Empirical Theory of Literature will be tested on the corpus of the prefaces (Chapter three). In a fourth step, the prefaces will be analysed following the tenets formulated in and prescribed by the systemic framework applied (Chapter four).
