Century Monthly Magazine Entangled:

Crush

We sold 347 eBooks in January of 2011. In just six months, by July 2011, we were selling 65,000 eBooks a month. From that modest beginning, by 2011's end, we had sold over 400,000 eBooks. This book will give you the details on how we did that and built a seven-figure indie publishing house in just two years. Whether you have been published by a New York publisher, an independent press, an ePublisher, self-published or considering all of your options, this book contains all the information you need to make an informed decision about your career as an author in today's fast moving digital world. We start out with content and theory, giving you a feel for where the industry has been and where it is going. We cover the various types of publishing, goal setting and help you find where you fit in the 3 P's (Product, Platform and

Promotion). From there we go into the digital process and the nuts and bolts of covers, editing and uploading. Finally we cover pre and post publication strategies. Everything from creating your own unique branding plan, social media and marketing, pricing, understanding the market, metadata and discoverability. All of which is your roadmap to being a successful author regardless of your path to publication. Its a great time to be an author. Lead, follow or get the hell out of the way!
The Geek Way Simon and Schuster
In this extraordinary new collection, award-winning writer Iain Baird brings to life characters as real as we are to ourselves. It is with powerful, graceful, and precise language that Baird shows us how wonderfully perilous ordinary lives can be. The Guy in the Box, a short emotional literary fiction, captures the audience with sheer rawness that comes from the first stage of denial and having a loved one with dementia. In other selections, whether a damaged veteran reinventing

himself in the alleys of the French Quarter, a Halloween prank turning tragically awry, or an aging couple making one final grasp at independence, Baird shows us what it is to be fully human. These flawed, yet majestic, unforgettable characters bring the stories to life with suspense, humor, and discovery.

Vols. 1-64 include extracts from correspondence.

The Guy in the Box Cool Gus Publishing

I've been nothing but a failure to my parents my entire life. I know I'll never live up to their level of perfection, but it doesn't matter. Especially, when I'm about to fail the same class twice. It seems like I'm doomed until my professor tells me he knows the perfect guy to tutor me-if he'll agree. Cree Madison is the star player on the hockey team, bound for NHL superstardom, and my last hope. I'm willing to do almost anything for his help. When I meet up with him, his eyes light up and he says, "I've been looking for you." Only I

don't know him, and I've never met him before now. I'm willing to pretend to be whoever he wants me to be if it means I pass this class. But lies have a way of getting out of hand and neither one of us is prepared for the fallout when everything comes to light.

Magazine MIT Press
Stan, handsome, six feet two inches tall, with dark-brown hair and piercing blue eyes, and neighbor Pete, six feet, 180 pounds, met in scouting at twelve and became brothers in spirit. Their intertwined lives and adventures carry them through college and beyond. Their high school friend Butch leads them astray, but they are redeemed when they meet again at Quantico CIA training and SEAL training facilities. They are paired in CIA mission assignments. They are EMT noncombatants in Iraq and Iran. Their last assignment is in Afghanistan at which time they are separated. Butch is assigned to Damascus and Stan in Kabul. They are in reality espionage agents (spies). Stan sacrifices everything to fulfill his most dangerous secret assignment to infiltrate the highest level

of opposition. In the process, physical requirement to ingratiate himself turns into emotional commitment, and he is caught in the trap of his own making. The subject of his surveillance is Prince Mohammed, whose illegitimate brother, Sayed, frees him from Taliban imprisonment. And there begins the beginning of the end. *The Golden Bough: pt. VII pt.1-2. Balder the Beautiful; the fire festivals of Europe and the doctrine of the external soul. 1913* CJ Duggan

Independently Published
I was in the middle of my divorce when Adam messaged me. I believe his exact words were, "Hi. I think you're my dad's brother. Would you like to get to know me?" My brother and I had never been close, so I'd only met his adopted son a few times when he was very young. Instinct told me to ignore the message, and I did. For a few days. It took an exhausting fight with my soon-to-be ex-wife and half a bottle of whiskey for me to change

my mind. Adam first became "sort of my nephew." Next, he became the guy who helped me find an apartment in the building next to his. He was a sweet, cheerful young man doing his best to raise his four-year-old daughter, which led to him becoming the guy who wanted to help me patch up my relationship with my own daughter. Then one night as I got ready for bed, I looked across the alleyway to the next building, where I saw him getting ready for bed too. I couldn't look away to save my life. It was the night he also became the guy in the window. [Bulletin](#) AuthorHouse
Take a peak behind the curtain of some of the biggest publishing moments in the past several decades with forty-year industry veteran John Sargent. *Turning Pages: The Adventures and Misadventures of a Publisher* is the well-told story of forty years in the publishing business. For twenty-four of those years, John Sargent ran one of America's largest publishing companies. Rather than a straight chronological narrative, Sargent uses the best stories of those years to

give us an intimate look inside book publishing. In weaving these stories together, he brings the reader with him through triumph and despair, and a very interesting daily life. The reader will meet his odd publishing family, his interesting authors, and the celebrities with whom he worked. Sargent tells the tale of publishing Monica Lewinsky and recounts what it was like to have an author meeting in Buckingham Palace. He takes the reader with him into the Macmillan battles with Amazon, the Department of Justice, and President Donald Trump. In *Turning Pages*, the reader will share his occasional pain and seemingly endless joy, from a one room schoolhouse in Wyoming to the Nelson Mandela Foundation in South Africa. Full of humor and grace, this is a book for those who enjoy a good story about a fascinating life. This behind-the-scenes look at some of the biggest moments in publishing over the last several decades is a must-read for every person who loves books and has always wondered about the industry surrounding them.

One of the Guys

Southern Yellow Pine

(Syp) Publishing LLC
 "The Boys of 1812 and Other Naval Heroes" by James Russell Soley is a historical text aimed for anyone who has ever fallen in love with naval history, American naval history in particular. As a naval historian, Soley recounts feats of bravery in a way that could only be described as cinematic to modern readers. While there may be some liberties taken in the book, it is, by all accounts, a very accurate portrayal of being a young man in the army, with all its adventures and turmoils that will grip readers until the very end.

Scribner's Monthly, an Illustrated Magazine for the People Independently Published

Rylee Everett has spent her entire life as a tomboy. One of the guys to the rest of the world. With that comes constant fights with her mom when it comes to wearing dresses and makeup. To her, it's a waste of time. Time she would rather use at the skate park and hanging out with her best friend Spencer. Well, that was her outlook until she bumps into her longtime crush at a wedding. Now she's made it her mission to get him to notice her before he graduates and

moves out of state. No matter the cost. Even if it comes with

dresses. Spencer

Hendricks has spent the better part of his teenage years trying to ignore the growing crush on his best friend, Rylee. He can't go there--won't jeopardize their friendship.

Everything seems to be going according to plan until his parents drop the bombshell of a divorce and Rylee asks him to help score the attention of one of the most popular seniors at school. Now he's faced with the possibility of moving to another state mid-year and his best friend ditching him all at the same time. With their lives seemingly headed in different directions, will they lose what they have always known, or find something neither of them expected?

The Farmer's Magazine

Philadelphia : The Union Press

In 1972, six fraternity brothers met a girl at a tavern, took her to a nearby apartment, and each had sex with her. In 1999, 27 years later, the child conceived that night comes looking for his father and justice for his mother. In the meantime, the men have gone about building their lives with wives and careers. They

all have repressed or forgotten that night in the apartment. *6 Guys, 1 Girl, 1 Night* explores some of the unforeseen consequences of the casual choices we make in the moment.

Createspace Independent Publishing Platform
The Economist's Best Books of 2023 Forbes Top 10 Business Books of 2023 Financial Times' Monthly Best Business Books to Read Pick In this "handbook for disruptors" (Eric Schmidt), *The Geek Way* reveals a new way to get big things done. It will change the way you think about work, teams, projects, and culture, and give you the insight and tools you need to harness our human superpowers of learning and cooperation. What is "being geeky?" It's being a perennially curious person, one who's not afraid to tackle hard problems and embrace unconventional solutions. McAfee shows how the geeks have created a new culture based around four norms: science,

ownership, speed, and openness. The geek way seems odd at first. It's not deferential to experts, fond of planning and process, afraid of mistakes, or obsessed with "winning." But it explains everything from why Montessori babies turn out to be creative tinkerers to how newcomers are disrupting industry after industry (and still just getting started). When all four norms are in place, a culture emerges that is freewheeling, fast-moving, egalitarian, evidence-driven, argumentative, and autonomous. Why does the geek way work so much better? McAfee provides an original answer: because it taps into humanity's superpower, which is our ability to cooperate intensely and learn rapidly. By providing insights from the young discipline of cultural evolution, McAfee shows that when we come together under the right conditions, we quickly figure out how to build reusable spaceships and self-correcting organizations. Under the wrong conditions, though, we create bureaucracy, chronic delays, cultures of silence, and the other

classic dysfunctions of the Industrial Era. Mixing cutting-edge science, history, analysis, and stories that show the geek way in action, McAfee offers a new way to see the world and empowering tools for seizing the big opportunities of today and tomorrow.

Little, Brown

How the Amish have adopted certain digital tools in ways that allow them to work and live according to their own value system. The Amish are famous for their disconnection from the modern world and all its devices. But, as Lindsay Ems shows in *Virtually Amish, Old Order Amish* today are selectively engaging with digital technology. The Amish need digital tools to participate in the economy—websites for ecommerce, for example, and cell phones for communication on the road—but they have developed strategies for making limited use of these tools while still living and working according to the values of their community. The way they do this, Ems suggests, holds lessons for all of us about resisting the negative

forces of what has been called “high-tech capitalism.” Ems shows how the Amish do not allow technology to drive their behavior; instead, they actively configure their sociotechnical world to align with their values and protect their community’s autonomy. Drawing on extensive ethnographic fieldwork conducted in two Old Order Amish settlements in Indiana, Ems explores explicit rules and implicit norms as innovations for resisting negative impacts of digital technology. She describes the ingenious contraptions the Amish devise—including “the black-box phone,” a landline phone attached to a device that connects to a cellular network when plugged into a car’s cigarette lighter—and considers the value of human-centered approaches to communication. Non-Amish technology users would do well to take note of Amish methods of adopting digital technologies in ways that empower people and acknowledge their shared humanity.

When the Past Comes Calling XinXii

It seemed only natural to nickname them the ‘Onslow Boys’. Every time

they swaggered in the front door of the Onslow Hotel after a hard week’s work, their laughter was loud and genuine as they settled onto their bar stools. I peeked through the restaurant partition, a flimsy divider between my world and theirs. I couldn’t help but smile whenever I saw them, saw him... Toby Morrison. Quiet seventeen-year-old Tess doesn’t relish the thought of a summertime job. She wants nothing more than to forget the past haunts of high school and have fun with her best friends before the dreaded Year Twelve begins. To Tess, summer is when everything happens: riding bikes down to the lake, watching the fireworks at the Onslow Show and water bomb fights at the sweltering Sunday markets. How did she let her friends talk her into working? After first-shift disasters, rude, wealthy tourists and a taunting ex-boyfriend, Tess is convinced nothing good can come of working her summer away. However, Tess finds unlikely allies in a group of locals dubbed ‘The Onslow Boys’, who are old enough to drive cars, drink beer and not worry about curfews. Tess’s summer of working

expands her world with a series of first times with new friends, forbidden love and heartbreaking chaos. All with the one boy she has never been able to forget. It will be a summer she will always remember. Warning: sexual references, and occasional coarse language. The Summer Series: Book 1: The Boys of Summer Book 1.5: Stan (Novella) Book 2: An Endless Summer Book 2.5: Max (Novella) Book 3: That One Summer Book 3.5: Ringer (Novella) Book 4: Forever Summer Authors Note: While each title can be read as a stand-alone story, you will likely enjoy taking the journey with these characters from the beginning.

Good Guys Don't Lie

Do you feel that there are no great single guys around? Do you never meet anyone worth dating? Do you worry that you'll never find Mr. Right? Don't worry, you're not alone in this. Most single women complain they have problems meeting men. But the trouble is most women are simply not aware of the best ways to meet guys. They go to the same old places Friday and Saturday nights with their friends. They look great.

They have a good time but they never get the guy - the one that makes their heart beat faster, not just for the evening, but for a lifetime. The fact is the best places to meet men are not always the obvious ones. This book "182 Best Places To Meet Men - Get The Guy You Want" on the other hand, has so many different places where you can meet single guys that you'll never worry about how to meet men again. Guy Why wait? The best time to start finding someone special is now, so scroll up and download the book right away so you can get started on your action plan without wasting any more of your life.

The New Citizenship

It's not easy being royal. Sixteen-year-old Evangeline wears her crown proudly, but between her duties and her overprotective big brother, the idea of romance is just a dream. But a chance encounter in Chicago changes all that.... Sure, seventeen-year-old Tyler Evans loves playing hockey, but he's more concerned about providing for his dad and little sister. Then he meets Eva--and falls head-over-heels in love—and he has two more problems. One, she's his best friend's little sister. Two, she wears a crown. But then Eva accidentally mistakes Tyler for a visiting prince, and for the first time, Tyler doesn't feel like a nobody. He knows he has to tell her the truth...but not yet. His plan? To keep up the royal charade as long as it takes to convince Eva he's the guy for her. Even if he's lying to everyone...including himself. Disclaimer: May

cause disillusionment. Those girls looking to find their Prince Charming might consider scouting out hockey rinks. Each book in the Chicago Falcons series is STANDALONE: * Just One of the Boys * Just One of the Royals * Just Pretending
