This collection considers how embodiment, mothering, and curriculum theory are related to practices in education that silence, conceal, and limit gendered, raced, and sexual maternal bodies. Advancing a new understanding of the maternal body, it argues for a 'bodied curriculum' – a practice that attends to the relational, social, and ethical implications of 'being-with' other bodies differently, and to the different knowledges such bodily encounters produce. Contributors argue that the prevailing silence about the maternal body in educational scholarship reinforces the binary split between domestic and public spaces, family life and work, one's own children and others' children, and women's roles as 'mothers' or 'others.' Providing an interdisciplinary perspective in which postmodern ideas about the body interact with those of learning and teaching, *Mothering a Bodied Curriculum* brings theory and practice together into an ever-evolving conversation.

Path of Destruction, Rule of Two, Dynasty of Evil Random House Digital, Inc.

Speculative science fiction, with its underlying socio-political dialogue, represents an important intersection of popular culture and public discourse. As a pop culture text, the animated series *Star Wars: The Clone Wars* offers critical commentary on contemporary issues, marking a moment of interplay whereby author and audience come together in what Russian philosopher Mikhail Bakhtin called collaborative meaning making. This book critically examines the series as a voice in the political dialogues concerning human cloning, torture, just war theory, peace and drone warfare.

NEW YORK TIMES BESTSELLER THE GALAXY STANDS LEADERLESS. CAN THE JEDI SAVE IT—OR WILL THEIR ENEMIES ENSLAVE IT? The toppling of ruthless Natasi Daala has left a political vacuum on Coruscant and ignited a power struggle between opposing factions racing to claim control of the Galactic Alliance. Mothering a Bodied Curriculum Del Rey

As the Clone Wars rage, victory or defeat lies in the hands of elite squads that take on the toughest assignments in the galaxy—stone-cold soldiers who go where no one else would, to do what no one else could. . . . On a mission to sabotage a chemical weapon research facility on a Separatist-held planet, four clone troopers operate under the very noses of their enemies. The commandos are outnumbered and outgunned, deep behind enemy lines with no backup—and working with strangers instead of trusted teammates. Matters don't improve when Darman, the squad's demolitions expert, gets separated from the others during planetfall. Even Darman's apparent good luck in meeting an inexperienced Padawan vanishes once Etain admits to her woeful inexperience. For the separated clone commandos and stranded Jedi, a long, dangerous journey lies ahead, through hostile territory brimming with Trandoshan slavers, Separatists, and suspicious natives. A single misstep could mean discovery . . . and death. It's a virtual suicide mission for anyone—anyone except Republic Commandos. Features a bonus section following the novel that includes a primer on the Star Wars expanded universe, and over half a dozen excerpts from some of the most popular Star Wars books of the last thirty years!
