Fundamentals of Management

SAGE

This book addresses key
features of the
methodology involved in
business and
management academic
writing. Characterizing
academic writing as part
of research, science and
the knowledge generation
process, it focuses on its
three main aspects:
understanding existing
research, documenting
and sharing the results of
the acquired knowledge,
and acknowledging the
use of other people's
ideas and works in the
documentation. Written in
lucid language, the
authors use various
examples of good as well
as defective writing to
help students understand
the concepts.

 'The language is highly accessible and this makes it particularly suitable for undergraduate and international students at all levels. The combination of extended case material, shorter

cases and illustrations of management in practice makes for a varied and stimulating approach. The activities will encourage and enable students to work independently to develop both their knowledge and skills.' Abby Cathcart, Sunderland Business School, University of Sunderland 'I like the activities that explicitly ask for critical reflection and am sure that my students will benefit from the development of their critical thinking skills. The cases and examples in the book are helpful both because they come from a wide variety of national backgrounds and because companies like Ryanair and Nokia are familiar names!' Ad van Iterson, Organization and Strategy Department, Faculty of Economics and Business Administration, Maastricht University 'All the case studies are both relevant and appropriate: there is a wide spread of international examples and a striking variety of organisations throughout the chapters, which will undoubtedly enhance the students' learning process.' Paschal McNeill, Department of Business Administration, Quinn School of Business, University College Dublin
