This classic textbook by Eberhard Sturm is the only up-to-date PL/I book currently available in the English language which shows the range of the new PL/I on the computer platforms OS/2, Windows, AIX and z/OS - the basis being the new PL/I compiler from IBM.

The language was extended by the package concept, abstract data types, attributes to communicate with C programs and more than a hundred BUILTIN functions. The book provides the basis for certification as an "IBM Certified PL/I Programmer/Developer".

Suitable for self-study, it introduces all areas of the language. It is a useful source of ideas and information for those programmers who already have a certain level of experience as well as those who only want to discover the variety of new language features. Hueber Verlag

This open access short reader looks into the dynamics which have reshaped rural development and human landscapes in European agriculture and the role of immigrant people. Within this framework it analyses contemporary rural migrations and the emergence of immigrants in relation to the incorporation of agrarian systems into global markets, the European agricultural governance (CAP), and the struggle of local territories as differentiated practices in constant stress between innovation and resilience. It specifically explores the case of immigrant shepherds to describe the reconfiguration of agriculture systems and rural landscapes in Europe following intense immigration and the related provision of skilled labour at a relatively low cost. Being written in a very accessible way, this reader is an interesting read to students, researchers, academics, policy makers, and practitioners.

The New PL/I MacMillan

In 1950 Atlanta, Officer Denny Rakestraw, Lucius Boggs and Tommy Smith have their hands full. Rake'straws brother-in-law launches a scheme to rally the Ku Klux Klan to "save" their neighborhood. Boggs and Smith try to shut down the supply of

white lightning and drugs into their territory. Battling corrupt cops and ex-cons, Nazi brown shirts and rogue Klansmen, the officers are drawn closer to the fires that threaten to consume the city once again.

What's missing from gender equality efforts? Men. Women are at a disadvantage in the workplace, where they deal with unequal pay, sexual harassment, lack of credit for their contributions, and more. And while organizations are looking to address these issues, too many gender-inclusion initiatives focus exclusively on how women should respond, leaving men out of the equation. Such efforts reinforce the perception that these are "women's issues" and that men--often the most powerful stakeholders in an organization--don't need to be involved. As gender-in-the-workplace experts David G. Smith and W. Brad Johnson show in this important book, men have a crucial opportunity to promote gender equality at work. Research shows that when men are deliberately engaged in gender-inclusion programs, 96 percent of women in those organizations perceive real progress in gender equality, compared with only 30 percent of women in organizations without strong male engagement. Good Guys is the first book to provide a practical, research-based guide for how to be a male ally to women in the workplace. Filled with firsthand accounts from both men and women, as well as tips for getting started, the book shows how men can partner with their female colleagues to advance women's leadership and equality by breaking ingrained gender stereotypes, overcoming unconscious biases, developing and supporting the talented women around them, and creating productive and respectful working relationships with women--especially in a post-#MeToo world.

Super Minds American English Level 6 Teacher's Book

Hueber Verlag

• Explains in detail how the demotion or proved nonexistence of a planet marks the beginning of a roughly 30-year period in which that planet's influence wanes • Explores Pluto's arc of influence on individual and collective life in depth, from its discovery in 1930 to the end of its influence in 2036 • Offers examples from other demoted planets, such as Ceres, whose fifty-year reign as a planet corresponds very closely to the Romantic Era of history Recent research in astrology has shown that the discovery of a new planet correlates with the emergence of a new set of influences in individual and collective life. As John Michael Greer reveals, the opposite is also true: the demotion of a planet correlates with the decline of a set of influences into the background. Although there are several instances of this over the last two centuries, Pluto, downgraded to minor planet status in 2006, is the most striking example. Exploring the waxing and waning of planetary influences in astrology, Pluto in particular, Greer explains in detail how the demotion or proved nonexistence of a planet marks the beginning of a roughly 30-year period in which that planet's influence fades out. He examines several examples of planet demotion, including Ceres, whose fifty-year reign as a planet corresponds closely to the Romantic Era of history. Ceres's influence began to take shape some 30 years before its discovery in 1801 and gradually faded over the three decades following its demotion in the 1850s. Examining Pluto's astrological influence in depth, from the beginning of the search for "Planet X" in 1900 to the end of its influence in 2036, the author shows how during the Plutonian era the concept of cosmos--from the ancient Greek meaning "that which is beautifully ordered"--was in eclipse. Pluto's influence led to the rejection of unity, beauty, and order, exemplified through the splitting of the atom by physicists, the splitting of the individual into conscious and subconscious halves by psychoanalysts, and the splitting of the world into warring camps by politicians. Offering an essential guide not only to the astrology of the future but to the twilight of the Plutonian era, Greer shows how as Pluto's influence fades out in the years ahead, a great many disruptive phenomena of the recent past will fade with it and the notion of cosmos--beautiful order--will regain its traditional role in our individual and collective worlds.

На основе аутентичных текстов и лексико-грамматических упражнений, созданных по ситуативно-коммуникативной методике, в учебнике представляется возможность освоить немецкий язык как средство общеевропейского и межкультурного общения по самым актуальным темам в форме устной и письменной речи. Упражнения на разграничение понятий и употребляемой в связи с этим лексики приучают адекватно реагировать и правильно подбирать лексические средства для выражения своих мыслей на немецком языке. Предлагаемые в книге тексты передают занимательные моменты из жизни известных личностей, содержат историческую информацию, расширяют лингвострановедческий кругозор. Именно эти материалы ярче всего демонстрируют неоспоримое достоинство учебника: он построен на отработке повседневных ситуаций из реальной жизни, которые близки обучающимся. Для лучшего усвоения навыков аудирования к учебнику прилагаются аудиоматериалы, расположенные в электронной библиотечной системе «Юрайт» ().

The life and times of Pieter Bruegel the Elder (c. 1526/30-1569) were marked by stark cultural conflict. He witnessed religious wars, the Duke of Alba's brutal rule as governor of the Netherlands, and the palpable effects of the Inquisition. To this day, the Flemish artist remains shrouded in mystery. We know neither where nor exactly when he was born. But while early scholarship emphasized the vernacular character of his painting and graphic work, modern research has attached greater importance to its humanistic content. Starting out as a print designer for publisher Hieronymus Cock, Bruegel produced numerous print series that were distributed throughout Europe. These depicted vices and virtues alongside jolly peasant festivals and sweeping landscape panoramas. He would eventually increasingly turn to painting, working for the cultural elite of Antwerp and Brussels. This monograph is a testament to Bruegel's evolution as an artist, one who bravely confronted the issues of his day all the while proposing new inventions and solutions. Rather than idealizing reality, he addressed the horrors of religious warfare and took a critical stand against the institution of the Church. To this end, he developed his own pictorial language of dissidence, lacing innocuous everyday scenes with subliminal statements in order to escape repercussions. To produce this XXL-sized collection, TASCHEN undertook a comprehensive photographic campaign, capturing all

the breadth and splendid detail of Bruegel's oeuvre like never before. The result gathers all 40 paintings, 65 drawings, and 89 engravings in pristine reproductions--each piece a unique witness to both the religious mores and the close-knit folk culture of Bruegel's time. Marking the 450th anniversary of his death and his first ever monographic exhibition at the Kunsthistorisches Museum in Vienna, this volume is the most immersive journey into Bruegel's unique visual universe.

In der Diskussion über den Einsatz von Animationen in der Grammatikvermittlung geht es größtenteils um Fragen, wie Grammatik medienadäquat vermittelt werden kann und unter welchen Voraussetzungen der Einsatz von Animationen einen didaktischen Mehrwert mit sich bringt. Die vorliegende Arbeit beleuchtet diese Fragen aus kognitionspsychologischer, fremdsprachendidaktischer und linguistischer Perspektive u.a. am Beispiel eigener empirischer Untersuchungen der animierten und statischen Grammatikvermittlung von Wechselpräpositionen. Wie die Ergebnisse zeigen, eröffnet der kognitiv-konzeptuelle Ansatz in Kombination mit Animationen qualitativ neue Wege in der Fremdsprachendidaktik.

German Quickly Hueber Verlag

German Quickly: A Grammar for Reading German is a thorough, straightforward textbook with a sense of fun. It teaches the fundamentals for reading German literary and scholarly texts of all levels and difficulty. It can be used as an introductory text for students with no background in German, or it can serve as a reference text for students wishing to review German. The grammar explanations are detailed and clear, and the accompanying reading selections, consisting partly of aphorisms and proverbs, are intriguing. There are also many informative appendices, including a summary of German grammar, a detailed description of German dictionaries currently available, and a vocabulary list of 3200 words that are commonly encountered in scholarly writings.

[Astrology and the Rise and Fall of Planetary Influences](#) Hueber Verlag

Arkady and Boris Strugatsky are widely known as the greatest Russian writers of science fiction, and their 1964 novel *Hard to Be a God* is considered one of the greatest of their works. It tells the story of Don Rumata, who is sent from Earth to the medieval kingdom of Arkanar with instructions to observe and to influence, but never to directly interfere. Masquerading as an arrogant nobleman, a dueler and a brawler, Don Rumata is never defeated but can never kill. With his doubt and compassion, and his deep love for a local girl named Kira, Rumata wants to save the kingdom from the machinations of Don Reba, the First Minister to the king. But given his orders, what role can he play? *Hard to Be a God* has inspired a computer role-playing game and two movies, including Aleksei German's long-awaited swan song. Yet until now the only English version (out of print for over thirty years) was based on a German translation, and was full of errors, infelicities, and misunderstandings. This new edition—translated by Olena Bormashenko, whose translation of the authors' *Roadside Picnic* has received widespread acclaim, and supplemented with a new foreword by Hari Kunzru and an afterword by Boris Strugatsky, both of which supply much-needed context—reintroduces one of the most profound Soviet-era novels to an eager audience.
