New Cars & Trucks Buyer's Guide Edmunds.com New Car & Trucks Buyers Guide 2005 Annual Enigmatic American Don Nichols, D-Day paratrooper, Army counter-intelligence officer and controversial entrepreneur, went on to create a racing marque that seems as cloaked as the man himself. Shadow was the only US-based team to win a Can-Am championship, and one of only three to score a victory in Formula 1. Yet history lavishly celebrates his nominal rivals Dan Gurney and Roger Penske, while Nichols has long remained, yes, a shadowy figure -- despite staying the difficult international course far longer, for 11 racing seasons, 1970 to 1980. But at last Pete Lyons, who was there in the day, lifts the veil from this secretive man and the innovative, extraordinary, magnificent racing cars and world-class team he created.

A behind-the-scenes look at Lexus's surprising twenty-year success story—in a revised new edition In the 1980s, German brands BMW and Mercedes-Benz dominated the luxury car market and had little reason to fear competition from Japan. But in 1989, Toyota entered the market with the Lexus LS 400, a car that could compete with the Germans in every category but price—it was US\$30,000 cheaper. Within two years, Lexus had

overtaken Mercedes-Benz in the United States and made a stunning success of Toyota's brave foray into the global luxury market. *Lexus: The Relentless Pursuit* reveals why Toyota decided to take on the German automakers and how the new brand won praise and success for its unparalleled quality, unforgettable advertising, and unprecedented customer service. From the first boardroom planning session to Lexus's entry into the mega-luxury supercar market, this is the complete and compelling story of one of the world's most admired brands. Includes a new Foreword by legendary designer Erwin Lui, an Afterword with updates since the first edition, and a new Coda by leading Japanese automotive journalist Hisao Inoue Covers the racetrack triumph—and tragedy—behind the new US\$375,000 Lexus LFA supercar Offers important business lessons for brand managers and executives For car enthusiasts, business leaders, and anyone interested in branding and marketing, *Lexus: The Relentless Pursuit* offers an amazing story of excellence and innovation in the automotive industry.

Globalization has created an interconnected world, but has not

diminished violence and militarism. The Economics of Killing describes how the power of global elites, entrenched under globalization, has created a deadly cycle of violence. In this groundbreaking work, Vijay Mehta shows how attempts at peaceful national development are routinely blocked by Western powers. He centers the 2008 financial crisis in US attempts to block China's model of development. He shows how Europe and the US conspire with regional dictators to prevent countries from developing advanced industries, and how this system has fed terrorism. Mehata argues that a different world is possible, based on policies of disarmament, demilitarization, and sustainable development. This original and thought-provoking book will be of great interest to anyone concerned about the consequences of endless war fueled by the West.
