This ethnography asks the question, what does learning to teach mean to student teachers and to those around them in an exam-driven rural school in China? The author writes of the process of using the assessment as a tool for teacher learning, understanding disadvantaged students in the community of practice, and of beginning teachers seeking their identities. She offers a perspective of learning to teach with assessment instead of for assessment, and examines how it shapes the learn-to-teach experiences.

It features audio and visual learning material and works best on tablets and smartphones. Addictive learning Mike Laoshi (Teacher Mike) will astound you with his unparalleled ability to make learning Mandarin Chinese fun and easy. Be warned, his teaching style is highly addictive, so if you have a family, career or social life, you may want to put those on hold for a little while. Why Chinese with Mike? Chinese with Mike is 100% new and breaks with traditional Chinese curricula. Mike's humour, mixed with his logical, step-by-step approach shields learners from the unnecessary complexities of Mandarin Chinese. Through a blend of short and highly addictive video lessons, you'll acquire essential Chinese with confidence. More importantly, you get a little one-on-one time with

Mike, as he makes learning Chinese ridiculously easy-and fun! What will I learn? This is a solid foundation course that teaches you how to speak Chinese and also understand how the language fits together. Season 1 Covers pinyin, the four tones and writing system using Simplified Chinese characters, common words, phrases and typical conversations. In no time you'll be able to talk about yourself, your family, your friends, your job, your home, your dogs and cats. Season 2 If Season 2 wasn't included, you wouldn't be able to tell people you can speak Chinese, you like to play basketball, or you want to eat beef fried rice. More importantly, you wouldn't even know how to ask permission to use the bathroom! Without Season 2 you wouldn't get very far in life. Why will learning Chinese be a breeze? · Mike builds confidence through his logical step-by-step design of the course · Mike explains pronunciation with clear, familiar examples · Mike

adds interesting facts about the intricacies of language · Mike includes lots of cultural tidbits · Mike recognizes and explains thoroughly troublesome areas · Mike uses native speakers to help you with listening and speaking Chinese with Mike is suitable for classroom, self-study or home schooling. Praise for Mike The coolest Chinese teacher out there. Totally rad!! confusedlaowai.com Like a rock star teacher. Excellent for beginners. Entertaining too! socialmandarin.com As an instructor, I have found Prof. Hainzinger's teaching material was very practical; it was very easy to be inserted into our classroom activities because of its fragmented structural style, and its accompanying video files. In addition, the students really appreciated the lively style of the text, as well the vivid video contributions. The approaches to teaching Mandarin Chinese in this series reflect the authors' rich knowledge of Chinese grammar and their vast experience in teaching the language... A truly innovative and delightful addition to the Chinese teaching field." --- Cecilia Chang, Williams College, USA "This is one of the few textbooks on the market that delays the introduction of Chinese characters. This insightful approach allows learners to gain a foundation in the spoken language before being inundated with characters... a refreshing approach to learning Chinese that is lacking in the vast majority of

learning materials." --- Matthew Christensen, Brigham Young University, USA "An excellent introductory course from a dedicated team... a practical guide with the language knowledge and cultural tips you need for daily communication with the Chinese people." --- Wei Jin, The School of Oriental and African Studies, University of London, UK "One of the very few accessible and clearly-structured textbooks for the complete beginner ... Absolutely designed with the non-native Chinese speaker in mind." --- Frances Weightman, The University of Leeds, UK The Routledge Course in Mandarin Chinese is a two-year undergraduate course for students with no prior background in Chinese study. Designed to build a strong foundation in both spoken and written forms of the language, it develops all the basic skills such as pronunciation, character writing, word use and structures, while placing strong emphasis on the development of communicative skills. The complete course consists of Textbook Level 1, Workbook Level 1, Textbook Level 2, and Workbook Level 2 - with

both workbooks including free CDs. All books are available in separate simplified and traditional character versions, and aim to take the students from complete beginner to post-intermediate level. For more information about the course and additional resources, please visit the companion website. Textbook Level 1 provides a paced introduction to the language by teaching from pinyin in its first five lessons. Characters are introduced from the sixth lesson, and this is combined with the staged removal of pinyin. Each lesson consists of a dialogue, vocabulary lists, in-class dialogue practice, jargon-free explanations of structures, language FAQs, and notes on pronunciation, pinyin, and Chinese culture. The focus is on the long-term retention of vocabulary, characters, and structures by reiterating these throughout, allowing the students to consolidate their knowledge. *Easy Learning Chinese Characters* Learning Chinese teaches basic conversational and literary skills in Mandarin. As China and Chinese language learning moves centre stage economically and politically, questions of interculturality assume even greater significance. In this book interculturality draws attention to the processes involved in people engaging and exchanging with each other across languages, nationalities and ethnicities. The study, which adopts an ecological perspective, critically examines a range of issues and uses a variety of sources to

conduct a multifaceted investigation. Data gathered from interviews with students of Mandarin sit alongside a critical discussion of a wide range of sources. Interculturality in Learning Mandarin Chinese in British Universities will be of interest to students and academics studying and researching Chinese language education, and academics working in the fields of language and intercultural communication, intercultural education and language education in general.

The Complete Course for Beginners Legoo Mandarin

"Easy Learning: Chinese Characters" is designed for English speakers or anyone who has a good command of the English language. Unlike Chinese speakers, English speakers are used to a phonetic writing system,

that is—"what they read is what they hear". When they see an English word, they expect its letters to tell them the pronunciation and recognize its meaning. Thus English speakers find Chinese characters to be too complicated and confusing because they cannot pronounce them easily. Without a phonetic system, they have to find the pronunciations through pinyin and then find the meaning. Therefore, English speakers think they need extra time to learn to connect the graphic shapes of Chinese characters with their pronunciation. So learning the Chinese language can seem like learning two different languages: one for listening and speaking, and the other for reading and writing. However, if you can master the methods of learning Chinese characters in this book, you will get twice the results with half the effort! "Easy Learning: Chinese Characters" can make your Chinese character learning process easy and fun! It is intended to be an intensive course book for English speakers who have just started to learn Chinese writing. Anyone who has pinyin as a

foundation can study this book by themselves. This book has 86 lessons in total with detailed explanations of 550 basic Chinese characters and over 2400 Chinese words and phrases. This gives learners the foundation from which they can expand to read the 4000 basic Chinese characters. With basic knowledge of the evolutionary history of Chinese characters, learners will gain a brand new perspective and profound understanding during the learning process. Over 90% of the characters in "Easy Learning: Chinese Characters" are accompanied with pictures showing how the character evolved from its original shape to its current simplified form. Only less than 1% of the characters in this book may need to be memorized mechanically but even they are provided with vivid pictures to help remember them. All of the characters, words and phrases are provided with detailed pronunciation in pinyin. So all the lessons taught in this book should be easily mastered by new learners. All languages are connected. Chinese is similar to English in numerous

ways. Pictophonetic characters make up over 90% of all Chinese characters. By mastering the rules of pictophonetic characters, one can read most of the characters. Chinese radicals (the part of a Chinese character which represents its meaning) are like English monograms. Monograms represent the meaning of words, for example, words containing "astro" are mostly related to stars. "Easy Learning: Chinese Characters" focuses on teaching you to master basic character forms including pictographic characters, self-explanatory characters and ideographic characters. These make up the foundation of all characters. This book references several Chinese language sources in order to provide precise and detailed explanations of each character. These sources include: The Contemporary Chinese Dictionary, Advanced Chinese Characters Dictionary, Kangxi Dictionary and Shuowen Jiezi-Explaining Simple and Analyzing Compound Characters. With the help of "Easy Learning: Chinese Characters", learners will have the confidence to master Chinese reading and

writing in a relatively short period of time.

Nicholas Pang Bilingual and bicultural scholar Yeng-Seng Goh offers the first in-depth English language analysis of global Chinese, exploring the spread of Chinese beyond China and its emergence as a global language. Approaching the topic from a Singapore perspective, Goh uses this fascinating language ecosystem, with its unique bilingual language policy, as a case study for Chinese language learning. Offering clear insights into the pedagogy of teaching Chinese as an international language (TCIL), this book covers a range of important topics, such as the use of English in the teaching of Chinese, the teaching of Chinese by non-native teachers, information and communications technology in L2 learning and teaching, and the progressive testing of receptive skills. In doing so, it presents a new, integrative approach to the compilation of Chinese learner's dictionaries, an innovative bilingual hybrid model for training TCIL teachers, and a solid theoretical

framework for Masters of Arts programmes in TCIL. **Easy Chinese Yct Level 1 Vocabulary Flash Cards for Kids: New 2019 Standard Course with Full Basic Mandarin Chinese Flashcards for Children Or Beginne** Teach Yourself
