mobo used in record-  
breaking DDR4-7200  
overclock** Msi

Motherboard S MSI's  
upcoming X570S chipset-  
based motherboard lineup  
has leaked according to a  
new report. The X570S is  
a new chipset for AMD's

Ryzen processors where  
the "S" allegedly stands  
for 'silent'. MSI's upcoming  
X570S motherboard  
lineup allegedly leaked,  
over half a dozen  
models MSI has introduced  
three gaming  
motherboards this week  
in the form of the new  
flagship Intel Z590 MEG  
Series motherboards, the  
MEG Z590 ACE GOLD  
EDITION, MEG Z590  
UNIFY, and MEG Z590

UNIFY-X. MSI MEG Z590  
ACE Gold Edition and  
Z590 Unify Series  
motherboards The gray is  
so dark as to look black in  
most PC-case environs,  
whereas the MEG Z490  
Ace's lighter shades of  
gray showed more  
contrast with the black  
parts of that  
motherboard. MSI  
compensates for ... MSI  
MEG Z590 Ace So no  
matter your budget, MSI

has a motherboard for you if you are looking to upgrade to the latest and greatest chipsets! The Z590 CARBON EK X, as the name would suggest, is MSI's board in ...MSI MPG Z590 CARBON EK X Motherboard ReviewThe regular Ace retails for £430 and is presented in traditional black livery.
