Immunization: Childhood and Travel Health provides an all-encompassing reference for all those working in primary care, secondary care paediatric wards, immunization centres and travel clinics, as well as medical students and candidates working for higher examinations. The Fourth Edition has been comprehensively updated and the travel section completely revised. The book gives a thorough introduction to the history of immunization, vaccine technology and immunology, and compares international schedules of routine immunizations. Each vaccine is then presented separately, including contraindications, local and general side and adverse effects, administration advice,

special precautions and notes, vaccine availability, storage, and well-referenced comments on issues surrounding each vaccine, including controversies. A description of the infection caused by the relevant microorganisms follows, together with data on disease notifications and immunization coverage. A considerable number of maps illustrate endemicity of diseases. One section is dedicated to issues relevant to primary care such as immunization fees and targets, audit, electronic recall systems, patient group directions and issues surrounding the immunization work of the practice nurse. The Fourth Edition includes an extensive section on travel health, which includes the latest travel statistics, travel clinics, detailed advice to travellers and legal issues that may arise. A considerable amount of information is included on air travel, contraindications to

travel, and high altitude sickness. Specific information is given on advising travellers at risk because of pre-existing conditions, and how to best deal with the returned traveller. Advice is provided for each disease, including malaria, which is covered in detail. The last section contains information on notifiable diseases, reciprocal healthcare agreements, contact numbers for Embassies and High Commissions in London, a world travel advice checklist, and an extensive list of sources of travel information with contact address.

Immigration Law is a straightforward, up-to-date and practical introduction to this changing area of law. After a short, practical introduction in Chapter 1 (which includes a list of useful websites), the book deals with British

nationality and the right of abode in the United Kingdom in Chapter 2. This is followed by a detailed analysis of immigration controls in Chapter 3. The pre-Brexit immigration status of EU and EEA nationals and their family members is considered in Chapter 4, along with how a family member of a British citizen who has engaged Treaty rights might currently use EU rather than domestic law to enter the UK. Details of the EU Settlement Scheme in Appendix EU of the Immigration Rules are included. The next four chapters address the key immigration categories of entry to the UK, including chapters on visitors, students under Tier 4 of the points-based system and employment under Tier 2. Asylum seekers and refugees are considered in Chapter 9. Enforcement of immigration law, the appeals system and judicial review applications are dealt with in the last three chapters. The appendices contain key resource documents such as the Immigration Rules, the Immigration (EEA) Regulations 2016 and materials on the points-based system. This new edition includes

developments in registration and naturalisation, electronic passport gates; extensions and refusal of leave; the Windrush Scheme; Immigration Health Surcharge; evidential flexibility for the points-based system; EU Settlement Scheme; the new Appendix W Start-Up and Innovator categories; Appendix FM; asylum claims, deportation, removal and appeals. New cases in this edition include: R (on the application of Islam) v Secretary of State for the Home Department [2019] (deprivation of citizenship); Hameed v Secretary of State for the Home Department [2019] and Secretary of State for the Home Department v Balajigari [2019] (refusal of entry clearance); R (Ahmed) v Secretary of State for the Home Department [2019] (long residence); Tarola v Minister for Social Protection [2019] (EU worker); KV (Sri Lanka) v Secretary of State for the Home Department [2019] and AS (Afghanistan) v Secretary of State for the Home Department [2019] (asylum); Secretary of State for the Home Department v PF (Nigeria) [2019] (ECHR Article 3); The Senior President in

Comparing Access to Welfare Entitlements
BRILL

The story of West Indian immigrants to the United States is generally considered to be a great success. Mary Waters, however, tells a very different story. She finds that the values that gain first-generation immigrants initial success--a willingness to work hard, a lack of attention to racism, a desire for education, an incentive to save--are undermined by the realities of life and race relations in the United States. Contrary to long-held beliefs, Waters finds, those who resist Americanization are most likely to succeed economically, especially in the second generation.

This first open access book in a series of three volumes provides an in-depth analysis of social protection policies that EU Member States make accessible to resident nationals, non-resident nationals and non-national residents. In doing so, it discusses different scenarios in which the interplay between nationality and residence could lead to inequalities of access to welfare. Each chapter maps the eligibility conditions for accessing social benefits, by paying

particular attention to the social entitlements that migrants can claim in host countries and/or export from home countries. The book also identifies and compares recent trends of access to welfare entitlements across five policy areas: health care, unemployment, family benefits, pensions, and guaranteed minimum resources. As such this book is a valuable read to researchers, policy makers, government employees and NGO's.

It is precisely 3:00 a.m. Detective Toni Rome's cell chirps, waking her from a recurring nightmare. "I've been bad again, Detective," the voice on the other end tells her. It is the voice of the Rosary Reaper, christened so by Toronto's media and members of the force. At each crime scene, a black rosary is found around the throats of his victims. It is the fourth call she has received in the past month, and as always, a brutalized body waits to be discovered. No trace and no clues other than the early hour whispers and the bloody taunts Catch me, carved into the victim's torsos. With a grandmother deep in the clutches of dementia to care for and a reawakened passion for the man who has just moved in next door, Toni and her partner Detective Sid Tillman find themselves pitted against a ruthless killer. A mind gone wrong. A vendetta long overdue. * You, my

darlings, are my confidants, my audience, spying while I exact my vengeance. Together we will wait in the woods, scheming, planning. Our hands are treacherous, glorious, guilty weapons. And so the vine ripens. Each of its sacrosanct thorns exacting another prick of blood owed. I am a master of disguise. I am wealthy beyond your imagination. I am thirty-four and will not celebrate my thirty-fifth birthday. My name is Nathan. I am a killer.

There is a highly significant and under-considered intersection and interaction between migration law and labour law. Labour lawyers have tended to regard migration law as generally speaking outside their purview, and migration lawyers have somewhat similarly tended to neglect labour law. Examining and clarifying the interactions between migration, migration law and labour law, the book particularly focuses on

how migration status has a bearing on labour relations and the world of work. Contributors to the volume identify the many ways that migration law, as currently designed, divides the objectives of labour law, privileging employer concerns over the supply of labour over worker-protective concerns. In addition, migration law creates a particular form of status, which affects labour relations, thereby dividing the subjects of labour law. Written by leading scholars of labour law, migration law, and migration studies, this book provides a diverse and multidisciplinary approach to this field of legal interaction, of interest to academics, policymakers, legal practitioners, trade unions, and migrants' groups alike.

In the forthcoming years, citizens of many countries will be provided with electronic identity cards. eID solutions may not only be used for passports, but also for communication with government authorities or local administrations, as well as for secure personal identification and access

control in e-business. Further eID applications will be implemented in the healthcare sector. For some of these solutions we will not need a physical data carrier at all. The Handbook of eID Security is the first source presenting a comprehensive overview of this strongly discussed topic. It provides profound information on the following questions: - Which are the latest concepts, technical approaches, applications and trends in the field of eID? - Which areas of application are covered by the different eID concepts? - Which security mechanisms are used, for what reasons, and how can their reliability be ensured? - How will the security of personal data be guaranteed? This book is a perfect source of information for all persons working in industry, banking, healthcare, research institutes, administrations and public authorities: - who are involved in the development of eID application concepts, technical solutions, and of devices used for transfer and read out data to and from eIDs, - who have or will have to do with eID applications in their daily

work, and - who participate in informing and discussing about the security and transparency of eID solutions.

Derived from the renowned multi-volume International Encyclopaedia of Laws, this monograph on the rules on immigration and right of residence of non-nationals in Slovenia examines the legal and administrative conditions for persons not having the citizenship of a State to enter the country and to stay and reside there. It provides a survey of the subject that is both usefully brief and sufficiently detailed to answer most questions likely to arise in any pertinent legal setting. It follows the common structure of all monographs appearing in the International

Encyclopaedia for Migration Law, thus allowing easy comparison between the country studies. As migration and economic activities are often interlinked, the analysis pays particular attention to labour market access and regulation of self-employed activities for non-nationals. The book describes the status of such specific categories of persons as students, researchers, temporary workers, and asylum seekers, as well as the position of family members, detailing applicable legislation and providing practical information on administrative procedures, sanctions, and legal remedies and

guarantees. The impact of international human rights law and various bilateral and multilateral agreements is considered, along with the broader application of national and local law to non-citizens in such areas as family relations, labour, social security, and education. Lawyers, scholars, practitioners, policymakers, government administrations, and non-governmental organizations involved in the development, practice and study of migration law will find this book indispensable. It will be welcomed by lawyers representing parties with interests in Slovenia and immigration specialists in both public and private

organizations. Academics and researchers also will appreciate its value in the study of comparative trends and harmonization initiatives affecting migrants.
