 Masters of the Harmonica: 30 Master Harmonica Players Share Their Craft contains revealing interviews with Kim Wilson, Charlie McCoy, Paul Oscher, Delbert McClinton, Charlie Musselwhite, Jason Ricci, Magic Dick, Rick Estrin, Howard Levy, and nearly two dozen other consummate performers. "There have been books written about how to play harmonica, books on the history of the harmonica, techniques, and resources, but never before has there been a book in which thirty harmonica masters share their knowledge of the instrument. 'Masters of the Harmonica' is a must-have for harmonica players of every level." -Gerald Mueller, Product Manager, Hohner Harmonicas

Robert Herjavec has lived the classic "rags to riches" story, from having \$20 in his pocket to starting up technology companies worth hundreds of millions of dollars. Now the star of television's *Dragons' Den* and *Shark Tank*, this son of Croatian immigrants earned his incredible wealth by overcoming the odds with hard work and determination. On television, Herjavec bankrolls the best inventions and shoots down the best of intentions. Now, he's sharing his hard-won wisdom in one of the most inspirational business books of recent times. In *Driven*, Herjavec shares the secrets that took him from his job waiting tables to growing his nascent technology company into a world-class conglomerate, The Herjavec Group. Herjavec's principles are as valuable in the living room as they are in the boardroom. Anyone can succeed, on their own terms, by following his sage but simple advice—if they're willing to take chances, to take control of their own future and to stay true to their own visions.

Despite what you may believe, owning a private plane is not a privilege reserved exclusively for celebrities, world leaders, and the uber-rich. If you're an entrepreneur or business person who flies regularly on commercial or charter airlines, private plane ownership may not only be possible, but preferable. This remarkable guide provides all the tools and information you will need to finally enjoy the exhilarating and surprisingly cost-effective freedom of unrestricted flight. Owning your own plane gives you unlimited access to a new world of commercial and networking possibilities. Nik Tarascio, the CEO of a successful aviation company, provides strategies for determining your ideal

aviation lifestyle, whether it's a luxury twelve-seat global jet or a practical four-seater. He offers tips for assembling the expert team that will make it happen and debunks the myths promoted by a commercial airline industry looking to retain its monopoly. It's all here in *Own Your Own Plane*, whether you'd prefer to employ a pilot or put yourself behind the controls. With Nik's expert guidance on choosing, financing, and maintaining the proper aircraft, the freedom of the sky can finally be yours. Best of all, it can be more affordable than you ever imagined.

"At the outset, Dennis Newton reminds readers that *Severe Weather Flying* is not about flying in severe weather, but about how to detect and therefore avoid it, with advice on how to escape it if you become caught in it accidentally. The author is a meteorologist, weather research pilot, ATP, and flight instructor and more. He speaks pilot to pilot in this valuable guide on how not to fly in severe weather. He believes that given the knowledge, pilots can truly lessen their chances of being caught in thunderstorms and other extreme weather conditions. This book was written with that goal in mind: to impart enough meteorological information in a way pilots can best grasp and use it. Newton believes that, "Pilots as a group are more than conservative enough to keep themselves safe if they are only given the facts." Meteorology can be a tough "language" and not always clear to the lay person. Newton translates and brings across the most crucial principles pilots can use to fly more wisely in weather. Covering weather fundamentals, the atmosphere, and the stability of the air, he then digs deeper into the individual aspects of severe weather situations. In print for more than 30 years, this Fourth Edition blends in good coverage of detection equipment for the cockpit, and the weather briefing information available to the pilot for decision-making in flight planning, and even the enroute phase. Details on aircraft icing certification, critical aircraft icing information, and high altitude ice crystals is included. Valuable for seasoned veterans as for relative newcomers, applicable to VFR, IFR, piston, turbine, low- and high-altitude operations"--Provided by publisher.

The Battle of Britain Story Simon and Schuster

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *The Wall Street Journal* • NPR • New York Public Library • LitHub • Mental Floss "Influenced by the likes of Jane Austen and Rick and Morty, Smith tackles timely issues while leaving room for some delicious reality TV references."—*Entertainment Weekly* In the burned-out, futuristic city of Empire Island, three young people navigate a crumbling metropolis constantly under threat from a pair of dragons that circle the skies. When violence

strikes, reality star Duncan Humphrey Ripple V, the spoiled scion of the metropolis' last dynasty; Baroness Swan Lenore Dahlberg, his tempestuous, death-obsessed betrothed; and Abby, a feral beauty he discovered tossed out with the trash, are forced to flee everything they've ever known. As they wander toward the scalded heart of the city, they face fire, conspiracy, mayhem, unholy drugs, dragon-worshippers, and the monsters lurking inside themselves. In this bombshell of a novel, Chandler Klang Smith has imagined an unimaginable world: scathingly clever and gorgeously strange, *The Sky Is Yours* is at once faraway and disturbingly familiar, its singular chaos grounded in the universal realities of love, family, and the deeply human desire to survive at all costs. Praise for *The Sky Is Yours* "It's a mesmeric world, comic in the way teenage voyages of self-discovery inevitably are, but with an undertone of menace, horror, even hints of allegory. Satire, too . . . Smith's imagination is inexhaustible. *The Sky Is Yours* is a great and disturbing debut, which colonizes a new realm of the magic city."—*The Wall Street Journal* "Smith's gifts of imagination are staggering. . . . Much like Lev Grossman's *The Magicians* and Charlie Jane Anders's *All the Birds in the Sky* before it, *The Sky Is Yours* filters youth through a warped yet poignantly canny speculative fiction lens. At the same time, it's funny as hell, full of madcap detail, firecracker dialogue, and a healthy dose of absurdism in the face of darkness."—NPR "Readers who love ambitious literary genre fiction should be on the lookout for Smith's first novel, a vibrantly uncanny dystopia set on an island metropolis, in the shadow of dragons that swoop overhead, where income inequality and mass incarceration have spun out of control."—HuffPost "An unmissable masterpiece."—PopSugar [The Berlin Candy Bomber](#) Titan Books (US, CA)

Is secularism a positive force in the modern world? Or does it lead to fragmentation and disintegration? In *Saving Leonardo*, best-selling award-winning author Nancy Pearcey (Total Truth, coauthor *How Now Shall We Live?*) makes a compelling case that secularism is destructive and dehumanizing. Pearcey depicts the revolutionary thinkers and artists, the ideas and events, leading step by step to the unleashing of secular worldviews that undermine human dignity and liberty. She crafts a fresh approach that exposes the real-world impact of ideas in philosophy, science, art, literature, and film—voices that surround us in the classroom, in the movie theater, and in our living rooms. A former agnostic, Pearcey offers a persuasive case for historic Christianity as a holistic and humane alternative. She equips readers to counter the life-denying worldviews that are radically restructuring society and pervading our daily lives. Whether you are a devoted Christian, determined secularist, or don't know quite where you stand, reading *Saving Leonardo* will unsettle established views and topple ideological idols. Includes more than 100 art reproductions and illustrations that bring the book's themes to life. Praise for *Saving Leonardo*: "A feast for the mind and for the eye. Nancy Pearcey not only is a trustworthy guide for a nuanced discussion on the relationship between culture and the gospel, but she is a gifted teacher as well . . . *Saving Leonardo* is a rare, precious gift to the churches and universities alike." Makoto Fujimura, artist and author of *Refractions: A Journey of Faith, Art, and Culture* "Nancy Pearcey has done it again and better than ever. She has taken the complex sophistication of the best cultural analysis and laid it out for any person to grasp, enjoy and use to live out their daily lives honoring Christ. An astounding accomplishment!" James W. Sire, author of *The Universe Next Door* "G. K. Chesterton said 'the danger when Men stop believing in God is not that they'll believe in nothing; but that they will believe in anything.' Nancy Pearcey understands where believing in anything leads and in this book she reveals where a secular philosophy is taking us. A balanced, fair, and impacting work!" Cal Thomas, syndicated and USA Today columnist "Nancy Pearcey helps a new generation of evangelicals to understand the worldview challenges we now face and to develop an intelligent and articulate Christian understanding . . . *Saving Leonardo* should be put in the hands of all those who should always be ready to give an answer--and that means all of us." R. Albert Mohler, Jr., president, The Southern Baptist Theological Seminary "Nancy Pearcey is an intellectual prophet in our day and one of Evangelicalism's foremost cultural observers. *Saving Leonardo* is a tour de force. In it, Pearcey provides a penetrating analysis of the nature of contemporary secularism, a helpful exposition of how we got to the present situation, and a well-crafted strategy for changing the situation. This is her best effort yet . . . a must read." J. P. Moreland, distinguished professor of Philosophy, Biola University and author of *The God Question* "Nancy Pearcey is unsurpassed in the current generation of Christian thinkers . . . The magic continues with this book. Pearcey's virtues as a writer and thinker are once again fully evident in the range of material that she has mastered, the encyclopedic collection of data that she presents, and the analytic rigor with which she separates truth from error in worldviews. She is a prophetic voice for contemporary Christians." Leland Ryken, Clyde S. Kilby professor of English, Wheaton College "Brilliant . . . The book brings complex, abstract ideas down-to-earth -- or rather, down-to-life. . . . *Saving Leonardo* bridges the gaps between the arts and the sciences, the theoretical and the practical. The book not only argues for the unity of Christian truth but exemplifies that unity and shows it in action." Gene Edward Veith, provost, Patrick Henry College

Bob Honey Who Just Do Stuff Horizon Publishers & Distributors

"An incredibly interesting work." —Jane Smiley "A straight up masterwork." —Sarah Silverman "Blisteringly funny." —Corey Seymour "A transcendent apocalyptic satire." —Michael Silverblatt "Crackling with life." —Paul Theroux "Great fun." —Salman Rushdie "A provocative debut." —Kirkus Reviews From legendary actor and activist Sean Penn comes a scorching, "charmingly weird" (Booklist, starred review) novel about Bob Honey—a modern American man, entrepreneur, and part-time assassin. Bob Honey has a hard time connecting with other people, especially since his divorce. He's tired of being marketed to every moment, sick of a world where even an orgasm isn't real until it is turned into a tweet. A paragon of old-fashioned American entrepreneurship, Bob sells septic tanks to Jehovah's Witnesses and arranges pyrotechnic displays for foreign dictators. He's also a contract killer for an off-the-books program run by a branch of United States intelligence that targets the elderly, the infirm, and others who drain society of its resources. When a nosy journalist starts asking questions, Bob can't decide if it's a chance to form some sort of new friendship or the beginning of the end for him. With treason on everyone's lips, terrorism in everyone's sights, and American political life sinking to ever-lower standards, Bob decides it's time to make a change—if he doesn't get killed by his mysterious controllers or exposed in the rapacious media first. A thunderbolt of startling images and painted "with a broadly satirical, Vonnegut-ian brush" (Kirkus Reviews), *Bob Honey Who Just Do Stuff* is one of the year's most controversial and talked about literary works.

The summer of 1940 witnessed the greatest air battle in history, as the men Winston Churchill dubbed 'The Few' fought over the skies of Britain to prevent the Luftwaffe from gaining air superiority, which would have paved the way for Hitler to invade our island. Graham Pitchfork charts the development of the epic battle fought by Fighter Command as it reacted to the changes in the Luftwaffe's strategy, reaching a climax on 15 September before finally coming to a conclusion in October 1940. In addition to the exploits of the pilots in the air, the contribution of the many ground organisations that played such a crucial role is also highlighted in this lavishly illustrated book. Air Commodore Graham Pitchfork is a well-known aviation author whose previous books include *The RAF Day by Day* and *The RAF's First Jet Squadron: 616* (South Yorkshire).
