Beneath the sewer grates and manholes of the city lies a strange and secret world called the Downside. Every Downsider knows that it's forbidden to go Topside, and most fear a collision of the two worlds. But fourteen-year-old Talon is curious about what goes on above ground, and one day he ventures out in search of medicine for his ailing sister. There he meets Lindsay, who is as curious about Talon's world as he is about hers. When Lindsay visits the Downside for the first time, she marvels at the spirit of the Downsiders, and the way they create works of art from topside "trash," like old subway tokens and forgotten earrings. As awed as she is by the Downside, however, she also questions its origins, and when she finds out that this fantastic world is not all it appears to be, she is determined to tell Talon the truth. Then a construction accident threatens to crush Talon's world, and his loyalty is put to the test. Can the

truth save the Downside, or will it destroy an entire civilization? Neal Shusterman takes readers on an amazing journey into a place that's only a few steps away, yet beyond their wildest dreams.

De Bello Gallico, Book 4
Focus

The Church offers, in every age, in her Saints, Apostles, and Martyrs, brilliant examples of virtue, zeal, and heroic courage. While all are holy, there are still some, whose lives present features, at once so touching and sublime, that time can detract nothing from the interest which attaches to their names in every Catholic heart. Pre-eminent among these, is St. Cecilia, the gentle queen of Sacred Song, distinguished alike for her attachment to holy Virginity, her apostolic zeal, and the unfaltering courage by which she won the martyr's crown. The author has followed with fidelity, the ancient Acts of St. Cecilia, the authenticity of which the reader will find satisfactorily defended in his pages. For less important details, he has claimed the right generally accorded to historians, of receiving probable evidence, where

certain proofs cannot be obtained. On such authority, he has, for example, assumed with the learned Bosio and others, that the virtues of our Saint formed the crowning glory of the illustrious family of Cecilia Metella. The recital does not terminate with the death of Cecilia. The discoveries of her tomb, in the ninth and sixteenth centuries, form not the least interesting portion of the work. The description of the church which was once her dwelling, and the witness of her sufferings and triumphs, brings those scenes so vividly before us, that Cecilia seems to belong, as all the Saints of God most truly do, as much to our own day, as to the period when she still combated on earth. We will not speak of the pleasure and instruction the author has afforded by his faithful pictures of the celebrated Ways of Ancient Rome, and the sacred cities of the dead, concealed in the holy shades beneath. For this, and much other interesting information, we refer the reader to the following pages, content, if, by our own humble labors, we have contributed to the edification of our Catholic brethren, and to the glory

of Him who is admirable in His Saints.

Before Religion Prentice Hall

From Homeric poems to contemporary works, this book traces the words that express the various notions of freedom in Classical Greek, Latin, and medieval and modern European idioms.

Examining writers from Plato and Aristotle to Nietzsche and Foucault, this theoretical mapping shows old and new boundaries of the horizon of freedom.

The Letters of The Younger Pliny

Intersections
A concise history of the Roman Empire published in the fourth century, from the creation of Rome through Valens' accession. The book, translated by John Selby Watson, tells the story of Rome's early monarchy and republic till the time of Constantine and his successors to the death of Jovian (364 AD). Flavius Eutropius was a Roman historian who lived during the second part of the fourth century. He served as the city's secretary (magister memoriae), traveled with Emperor Julian (361-363) on his operations against Persia, and continued to live until the reign of Valens

(364-378), to whom he dedicated the *Breviarium historiae Romanae* (the *Breviarium of Roman History*), which is also the point at which the history of that work comes to an end.

In Exsilium is a unique travelogue in the form of poems that arose from over twenty years of voluntary exile. At a very young age, the author had been addicted to travelling, playing the saxophone and writing. He combined these passions in life in this fascinating book that provides insight into his life's adventures. His poetry is very visual and varies from being euphoric to being frightening. His symbolic use of color is like a 'red thread' that connects everything. One section of *In Exsilium* gives a different twist to his work and contributes to the international appeal of this restless poet. Gerard was born in Cornieje's Heerenberg in the year 1962. To his parents' despair, he began traveling at the age of fourteen by hitchhiking from England to France. It was also at that time that he started writing poems.

After many years of wandering as a saxophonist, he currently lives in Spain with his wife Claire and sons, Max and Moritz. He is a presenter for The Learning Partnership and continues to travel around the world for his work.

The First Oration Against C Verres is a classic work of Roman oratory by the famous statesman and philosopher Marcus Tullius Cicero. The speech was delivered in 70 BCE in defense of the Sicilian people against the corrupt practices of the governor Verres. The speech is a masterpiece of rhetorical persuasion and a scathing indictment of Verres' crimes. The book provides a fascinating glimpse into the politics, law, and culture of ancient Rome. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. The Letters of Pliny the Younger, also known as the Epistles of Pliny the Younger, have been studied for centuries, as they offer a unique and intimate glimpse into the daily life of Romans in the 1st century AD. Through his letters, the Roman writer and lawyer Pliny the Younger (whose full name was Gaius Plinius Caecilius Secundus) discusses philosophical and moral issues; but he also talks about everyday matters and topics related

to his administrative duties. One of these letters, Letter 16 from Book VI, addressed to Tacitus, holds unparalleled historical value. In it, Pliny describes the eruption of Mount Vesuvius in AD 79, which destroyed the city of Pompeii. Many scholars claim that with his letters, Pliny invented a new literary genre: the letter written not only to establish pleasant communication with peers but also to publish it later. Pliny compiled copies of every letter he wrote throughout his life and published those he considered the best in twelve books. This edition presents selected letters chosen for their various characteristics and covering several books, focusing mainly on Books I, II, and III. The work is part of the famous collection: 501 Books You Must Read.

Like other languages, Latin contained certain words its speakers considered obscene as well as a rich stock of sexual euphemism and metaphor. Our sources for this information range

from surviving graffiti to literary works with a marked sexual content. Yet despite its manifest literary and linguistic interest, the sexual vocabulary of Latin has remained uninvestigated by scholars. J. A. Adams's pioneering and unique reference work collects for the first time evidence of Latin obscenities and sexual euphemisms drawn from both literary and nonliterary sources from the early Republic to about the fourth century A.D. Separate chapters treat each of the sexual parts of the body and the terminology used to describe sexual acts. General topics include the influence of Greek language on Latin, changes in the Latin vocabulary over time (including the evolution of sexual words into general terms of abuse), and lexical differences among various literary genres.

Scholarship between Europe and the Levant is a collection of essays in honour of Professor Alastair Hamilton. His pioneering research into the history of European Oriental studies has deeply enhanced our understanding of the dynamics and processes

of cultural and religious exchange between Christian Europe and the Islamic world. Written by students, friends and colleagues, the contributions in this volume pay tribute to Alastair Hamilton's work and legacy. They discuss and celebrate intellectual, artistic and religious encounters between Europe and the cultural area stretching from Northern Africa to the Arabian Peninsula, and spanning the period from the sixteenth to the late nineteenth century.

Farewell to Freedom JHU Press

In 1638, a small book of no more than 92 pages in octavo was published "appresso Gioanne Calleoni" under the title "Discourse on the State of the Jews and in particular those dwelling in the illustrious city of Venice."

It was dedicated to the Doge of Venice and his counsellors, who are labelled "lovers of Truth." The author of the book was a certain Simone (Simḥa) Luzzatto, a native of Venice, where he lived and died, serving as rabbi for over fifty years during the course of the seventeenth century. Luzzatto's political thesis is simple and, at the same time, temerarious, if not revolutionary: Venice can put an end to its political decline, he argues, by offering the Jews a monopoly on overseas commercial activity. This plan is highly recommendable because the Jews are "wellsuited for trade," much more so than others (such as "foreigners," for example). The rabbi opens his argument by recalling that trade and usury are the only occupations permitted to Jews. Within the confines of their historical situation, the Venetian Jews became particularly skilled at trade with partners from the Eastern Mediterranean countries. Luzzatto's argument is that this talent could be put at the service of the Venetian government in order to maintain – or, more accurately, recover – its political importance

as an intermediary between East and West. He was the first to define the role of the Jews on the basis of their economic and social functions, disregarding the classic categorisation of Judaism's alleged privileged religious status in world history. Nonetheless, going beyond the socio-economic arguments of the book, it is essential to point out Luzzatto's resort to sceptical strategies in order to plead in defence of the Venetian Jews. It is precisely his philosophical and political scepticism that makes Luzzatto's texts so unique. This edition aims to grant access to his works and thought to English-speaking readers and scholars. By approaching his texts from this point of view, the editors hope to open a new path in research into Jewish culture and philosophy that will enable other scholars to develop new directions and new perspectives, stressing the interpenetration between Jews and the surrounding Christian and secular cultures.
