This book is the story of my journey down the rabbit hole to discover the truth behind the Secret Space Program, ETs, UFOs and conspiracies of all kinds. To research this book, I interviewed about 1000 individuals worldwide from high level military (both retired and current), intelligence agents from the United States and other countries, law enforcement, physicists, scientists of many kinds, former employees of NSA, NASA, CIA, NRO, and aerospace corporations, abductees, contactees, self-proclaimed super soldiers (enhanced physically and/or mentally and psychically), and the list goes on. Some have gone on the record and been filmed in person and via Youtube and others have stayed in deep black and are known as secret sources. This book is a distillation of the information provided in those interviews combined with my own experiences and investigations as an investigative journalist and interviewer. It is an exploration into the nature of consciousness and the future of humanity. *Rise of the Red Dragon* Springer Science & Business Media In 1977 in the quiet English countryside a film was aired. It was so shocking that for more than 30 years it's been discussed and analyzed. But what if Alternative Three was in fact real? Was it the blueprint for surviving the end of the world? How does it connect to the Secret Space Program, Nazi UFO's, SDI and even Chemtrails? Are there bases on the Moon? For the first time ever shocking details about the Secret Space Program and Alternative Three are exposed. The connections between some of the greatest Conspiracies of all time and a secret government program to move to Mars to survive the coming global apocalypse.

Insiders Reveal Secret Space Programs & Extraterrestrial Alliances Elena Danaan

More than fifty years since Roswell, UFOs have been making headlines once again. But the UFO community—those who had been thinking about, seeing, and analyzing supposed flying saucers (or triangles or chevrons)—has been surprisingly skeptical. The people most invested in UFO reality were filled with incredulity and doubt. As Scoles did her own digging, she ventured to dark, conspiracy-filled corners of the internet, to a former paranormal research center in Utah, and to the hallways of the Pentagon. Scoles meets the scrappy upstarts, the field

investigators, the rational people, and the unhinged kooks of this sprawling community. How do they interact with each other? How do they interact with “anomalous phenomena”? And how do they (as any group must) reflect the world around them? We will travel along the Extraterrestrial Highway (next to Area 51) and visit the Watchtower, where watching for lights in the sky is more of a spiritual quest than a “gotcha” one. We meet someone who believes they’ve been abducted. Where do these “encounters” stem from? What are the emotional effects on the experiencers? Funny and colorful, and told in a way that doesn’t require one to believe, Scoles brings humanity to an often derided and misunderstood community. After all, the truth is out there..

The Secret Space Age Independently Published Winner of the Emme Award for Astronautical Literature from the American Astronautical Society How does one go about organizing something as complicated as a strategic-missile or space-exploration program? Stephen B. Johnson here explores the answer—systems management—in a groundbreaking study that involves Air Force planners, scientists, technical specialists, and, eventually, bureaucrats. Taking a comparative approach, Johnson focuses on the theory, or intellectual history, of “systems engineering” as such, its origins in the Air Force's Cold War ICBM efforts, and its migration to not only NASA but the European Space Agency. Exploring the history and politics of aerospace development and weapons procurement, Johnson examines how scientists and engineers created the systems management process to coordinate large-scale technology development, and how managers and military officers gained control of that process. “Those funding the race demanded results,” Johnson explains. “In response, development organizations created what few expected and what even fewer wanted—a bureaucracy for innovation. To begin to understand this apparent contradiction in terms, we must first understand the exacting nature of space technologies and the concerns of those who create them.”

In this real life spy saga, James E. David reveals the extensive and largely hidden interactions between NASA and U.S. defense and intelligence departments. The story begins with the establishment of NASA in 1958 and follows the agency through its growth, not only in scope but also in complexity. In *Spies and Shuttles*, David digs through newly declassified documents to ultimately reveal how NASA became a strange bedfellow to the Department of Defense (DoD) and the Central Intelligence Agency (CIA). He tracks NASA’s early cooperation—supplying cover stories for covert missions, analyzing the Soviet space program, providing

weather and other scientific data from its satellites, and monitoring missile tests—that eventually devolved into NASA’s reliance on DoD for political and financial support for the Shuttle. David also examines the restrictions imposed on such activities as photographing the Earth from space and the intrusive review mechanisms to ensure compliance. The ties between NASA and the intelligence community have historically remained unexplored, and David’s riveting book is the first to investigate the twists and turns of this labyrinthine relationship.

The US Air Force is experiencing a profound shift! In order to aggregate the military's major space assets under one authority, they are being moved into a new branch under the purview of the Air Force. This new branch is to be called "Space Force". The true purpose of Space Force will be to publicly unveil the most well-guarded secrets in the Air Force's stunning arsenal of exotic spacecraft, unconventional weapons and mind-blowing technologies assembled over the more than seventy years since its official emergence in 1947. This book lays out the history of the Air Force Secret Space Program: Ushering in a new era with the recovery of several extraterrestrial craft in the 1940's. Secret agreements with a breakaway German colony in Antarctica (the Fourth Reich) & different extraterrestrial groups in the 1950's. Its complicity in the German infiltration of NASA & the Military-Industrial Complex in the 1960's. Development of stealth space stations beginning from the 1970's. Deployment of squadrons of disk, triangle and rectangular-shaped craft in the 1980's & 1990's. After its 2016 discovery that it had been deceived by the Deep State and their shadowy Fourth Reich allies, Air Force leaders made the momentous decision to shift alliances and realigned their covert space program with human-looking extraterrestrials. This has led to bold steps being taken by the Air Force to reveal the existence of its arsenal of spacecraft to the US public.

A voyage of exploration to the outer reaches of our inner lives. UFOs are a myth, says David J. Halperin—but myths are real. The power and fascination of the UFO has nothing to do with space travel or life on other planets. It's about us, our longings and terrors, and especially the greatest terror of all: the end of our existence. This is a book about UFOs that goes beyond believing in them or debunking them and to a fresh understanding of what they tell us about ourselves as individuals, as a culture, and as a species. In the 1960s, Halperin was a teenage UFOlogist, convinced that flying saucers were real and that it was his life's mission to solve their mystery. He would become a professor of

religious studies, with traditions of heavenly journeys his specialty. With *Intimate Alien*, he looks back to explore what UFOs once meant to him as a boy growing up in a home haunted by death and what they still mean for millions, believers and deniers alike. From the prehistoric Balkans to the deserts of New Mexico, from the biblical visions of Ezekiel to modern abduction encounters, *Intimate Alien* traces the hidden story of the UFO. It's a human story from beginning to end, no less mysterious and fantastic for its earthliness. A collective cultural dream, UFOs transport us to the outer limits of that most alien yet intimate frontier, our own inner space.

The Los Angeles Air Raid on February 24/25, 1942 opened an unprecedented chapter in the evolution of the U.S. Navy. In response to this incident, a covert research program to investigate the feasibility of exotic antigravity propulsion technologies was developed. In addition, Navy operatives were embedded in Nazi occupied Europe to learn about the Germans' advanced flying saucer programs, and they discovered the Nazis were receiving assistance from two extraterrestrial groups with very different agendas. The debriefing of the operatives took place at Naval Air Station, San Diego, led by Rear Admiral Rico Botta. He instructed a -Disseminator of Naval Research and Information-, William Tompkins, to take confidential briefing packets to select think tanks, corporations and university departments around the country. Later, Tompkins worked with a number of leading aerospace companies to design massive spacecraft for a secret U.S. Navy space program, and was fatefully assisted by extraterrestrial visitors described as -Nordics-. An extensive number of documents substantiate Tompkins' claims of the existence of a covert Navy program created to study, design and build deep space battle groups. They became operational in the 1980's. Now the Navy has a new goal to enact a plan to level the universal playing field, and the election of President Donald Trump may just be the wild card they needed to reveal ... everything!

The Other (Secret) Space Program presents compelling evidence in support of the existence of a covert space program, operating outside of the mainstream of government and NASA and funded through a black operations budget. It describes the types of anti-gravity spacecraft, weapons systems involved, along with operational details and activities. Eyewitness accounts and testimonials from some of the most credible sources in the aerospace industry, scientific, military and intelligence community, along with photographic evidence provide supporting proof. The Other (Secret) Space Program examines the global "shadow government" that is behind this "black world". You will be shocked to learn that members of this elite program have been traveling to the moon, Mars, and other planets in our Solar System since the early 1960s. Find out the reason for the establishment of this secret space program, how it has been able to operate without congressional oversight for more than 50 years, and its ultimate purpose.

This "compellingly hard-hitting" bestseller from a Pulitzer Prize finalist gives readers the complete untold story of the top-secret military base for the first time (New York Times). It is the most famous military installation in the world. And it doesn't exist. Located a mere seventy-five miles outside of Las Vegas in Nevada's desert, the base has never been acknowledged by the U.S. government — but Area 51 has captivated imaginations for decades. Myths and hypotheses about Area 51 have long abounded, thanks to the intense secrecy enveloping it. Some claim it is home to aliens, underground tunnel systems, and nuclear facilities. Others believe that the lunar landing itself was filmed there. The prevalence of these rumors stems from the fact that no credible insider has ever divulged the truth about his time inside the base. Until now. Annie Jacobsen had exclusive access to nineteen men who served the base proudly and secretly for decades and are now aged 75-92, and unprecedented access to fifty-five additional military and intelligence personnel, scientists, pilots, and engineers linked to the secret base, thirty-two of whom lived and worked there for extended periods. In Area 51, Jacobsen shows us what has really gone on in the Nevada desert, from testing nuclear weapons to building super-secret, supersonic jets to pursuing the War on Terror. This is the first book based on interviews with eye witnesses to Area 51 history, which makes it the seminal work on the subject. Filled with formerly classified information that has never been accurately decoded for the public, Area 51 weaves the mysterious activities of the top-secret base into a gripping narrative, showing that facts are often more fantastic than fiction, especially when the distinction is almost impossible to make.

The Space Age began just as the struggle for civil rights forced Americans to confront the long and bitter legacy of slavery, discrimination, and violence against African Americans. Presidents John F. Kennedy and Lyndon Johnson utilized the space program as an agent for social change, using federal equal employment opportunity laws to open workplaces at NASA and NASA contractors to African Americans while creating thousands of research and technology jobs in the Deep South to ameliorate poverty. *We Could Not Fail* tells the inspiring, largely unknown story of how shooting for the stars helped to overcome segregation on earth. Richard Paul and Steven Moss profile ten pioneer African American space workers whose stories illustrate the role NASA and the space program played in promoting civil rights. They recount how these technicians, mathematicians, engineers, and an astronaut candidate surmounted barriers to move, in some cases literally, from the cotton fields to the launching pad. The authors vividly describe what it was like to be the sole African American in a NASA work group and how these brave and determined men also helped to transform Southern society by integrating colleges, patenting new inventions, holding elective office, and reviving and governing defunct towns. Adding new names to the roster of civil rights heroes and a new chapter to the story of space exploration, *We Could Not Fail* demonstrates how African Americans broke the color barrier by competing successfully at the highest level of American intellectual and technological achievement.

Antarctica's Hidden History Elena Danaan

US Air Force combat pilot Colonel Steve Richardson suffers a severe head injury when his F-35 crashes in the mountains of northern Afghanistan. With help too far away, death appears imminent. When an unusual craft appears and rescues him, Richardson is convinced he's hallucinating. It conveys him to a massive spaceship in orbit, where he is treated for his wounds. Once he recovers from his injuries, Richardson is introduced to a covert space force called "Solar Warden." This secret space program utilizes futuristic technology to defend earth against a paranormal alien threat intent on destroying earth's inhabitants. When Richardson joins the program, he learns that his new comrades are losing the conflict. Can he learn to operate technology half a century ahead of what he has been trained for in time to be an asset? Or will he become just another casualty in an interstellar war?

IS A COVERT "BREAKAWAY CIVILIZATION" RESPONSIBLE FOR A SECRET "INVISIBLE" SPACE PROGRAM? DID THE NAZIS LAND ON THE MOON AND MARS DURING THE FINAL DAYS OF WORLD WAR II? HAVE ASTRONAUTS PLANTED THE MASONIC FLAG ON BOTH INTERPLANETARY BODIES? ARE THE BOOMERANG AND TRIANGULAR UFOS OBSERVED WORLDWIDE PART OF A GLOBAL SURVEILLANCE PROGRAM, OFFERING EVIDENCE THAT "SOMEONE ELSE" IS CAPABLE OF TAKING OVER OUR SKY? WAS THE LATE SUPER SCIENTIST NIKOLA TESLA INVOLVED IN THE EARLY DEVELOPMENT OF THIS SECRET SPACE PROGRAM? WHAT RED BLOC NATION HAD AN ASTRONAUT PROGRAM NEARLY TWENTY YEARS BEFORE NASA LANDED ON THE MOON? IS THE FACE ON MARS DIRECT EVIDENCE THAT AN UNKNOWN "EMPIRE" HAS BEATEN US TO THE PUNCH AND ALREADY ESTABLISHED A VANGUARD ON THE RED PLANET? The Secret Space Program is among the most clandestine efforts ever undertaken and the questions are many as to who is responsible for its adaptation. Did the aliens establish colonies on the Lunar and Martian surfaces that we have seen and photographed despite attempts by NASA to eradicate them from photographic prints? Yes, the answers are of utmost importance despite the fact that the American public is being kept in the dark about a subject so intriguing, so controversial, that its mere utterance creates a frustrating clash among skeptics and those in opposition who claim they have access to undeniable proof. Indeed, are scientists and others traveling back and forth between colonies already established in space? Have their memories been erased so they have only dream-like recollections of such "adventures?" Even Jules Verne - and other early science fiction pioneers - might have hinted that secret societies had developed "advanced" technologies that enabled them to venture beyond our atmosphere.

David Childress, popular author and star of the History Channel's show *Ancient Aliens*, brings us the incredible tale of Nazi submarines and secret weapons in Antarctica and elsewhere. He then examines Operation High-Jump with Admiral Richard Byrd in 1947 and the battle that he apparently had in Antarctica with flying saucers. He looks into the mysterious death of Admiral Byrd's son when invited to a conference in Antarctica in

Washington DC. Through "Operation Paperclip," the Nazis infiltrated aerospace companies, banking, media, and the US government, including NASA and the CIA after WWII. Childress discusses the secret technology involved, anti-gravity propulsion technology, electro-gravity and free-energy, teleportation technology (as in the Philadelphia Project), and secret bases on the Moon and Mars. Childress looks at the possible merger of Nazi assets in Antarctica with the Americans and the use of Antarctica as a space base for traffic to secret space stations in orbit and below the surface of the Moon. The author looks at military space programs such as Space Warden and Project Horizon. Does the US Navy have a secret space program that includes huge ships in orbit around the Earth and includes hundreds of astronauts as crew for these vehicles? Includes an 8-page color section.

David Childress, popular author and star of the History Channel show *Ancient Aliens*, brings us the incredible tale of Nazi submarines and secret weapons in Antarctica and elsewhere. He looks into the strange life and death of Rudolf Hess, as well as the mystery of James Forrestal and the secret group called MJ-12. He examines Operation Highjump led by Admiral Richard Byrd in 1947 and the battle that he apparently had in Antarctica with flying saucers. Through "Operation Paperclip," the Nazis infiltrated aerospace companies, banking, media, and the US government, including NASA and the CIA after WWII. He reveals that the Nazis had built secret bases in a variety of places during WWII, including Greenland, the Canary Islands, Tibet and Antarctica. Childress discusses the secret U-boat fleet that patrolled the Atlantic and Antarctic Oceans for decades after the war. He looks into the secret German space program and its flying disks and tubular aircraft; the secret technology involved, including anti-gravity propulsion technology; underground and under ice bases; strange things happening in South America; and secret bases on the Moon and Mars. Dark Mission Andrew Johnson

On September 5, 2019, a Space Futures conference was hosted by the US Air Force Space Command which analyzed evolving conditions in space up to 2060. Eight possible negative and positive futures were identified, the optimal being a "Star Trek Future" which would involve countries with space programs forming a multinational alliance collaborating in civil, military and commercial affairs in space. Today, the emergence of Space Force, signing of the Artemis Accords, and creation of NATO's Space Center promise to be the fulcrum for ushering in this Star Trek scenario. Such a future is not assured however due to the existence of uncooperative rival space programs of China and Russia. Could one or both launch a Space Pearl Harbor that could devastate the entire US GPS system, as predicted 20 years ago by a blue-ribbon Space Commission? Also, there is the wildcard of numerous secret space programs possessing reverse-engineered antigravity craft. Their existence is not officially acknowledged by major nations, but their space activities pose major challenges to a Star Trek future. Will Space Force be able to integrate the US based secret space programs or will these and their foreign counterparts be obstacles to its future operations? The ultimate question is how the existence of extraterrestrial life will factor into the activities of Space Force and its allies space forces. Will extraterrestrial visitors respond in a benign or a belligerent way to Space Force setting up a multinational space coalition to militarily project humanity's presence far into our solar system and beyond? How will a future "Starfleet" with Space Force and NATO at its core have to deal with rogue secret space programs and alien life operating throughout our solar system? The US Navy secret space program reportedly has space battle groups built with the assistance of friendly human looking 'Nordic' extraterrestrials. Under what conditions will the Navy surrender authority over them to combine with Space Force? Space Force Our Star Trek Future provides answers to these and many other critical questions about humanity's bold emergence as an interplanetary space power.

Secret Space Programs & Solar System Anomalies Peter Fuller

How did China undergo its meteoric rise from a technological backwater into a military superpower in outer space? This amazing transition began in top secret US Air Force programs over 75 years ago! While living in America, a brilliant Chinese scientist is chosen to work on the US military's most classified technologies for over a decade. Suddenly, he is outlandishly targeted by the FBI, traded in a prisoner exchange by President Eisenhower and must return to China. This episode ultimately led to China's development of a military-run secret space program (SSP) using exotic electromagnetic propulsion systems now challenging US military dominance on Earth and in outer space. By 2030, China's economy will outgrow the US, and China plans to

use its vast economic resources to project its presence deep into space in ways that will lead to increasing military confrontations with the newly created US Space Force. In this book, you will learn about: - The origins of China's SSP through the pioneering work of Dr. Tsien Hsue-shen who brought his advanced knowledge of SSPs in Nazi Germany and the US to China;- How ancient aviation technologies buried in China's mysterious pyramids are being secretly studied and reverse engineered;- Ancient artifacts from extraterrestrial contacts in remote regions of Tibet, the Gobi Desert, and the truth behind legends of Shamballa and Agartha;-

China's participation in a United Nations run SSP designed to foster greater international cooperation in responding to the existence of extraterrestrial life;- The space weapons and electromagnetically propelled spacecraft secretly being developed and deployed by China;- The threat posed by Communist China's plan to use Artificial Intelligence to become the dominant superpower on Earth and in Space.The Rise of the Red Dragon represents both a global crisis and opportunity presented by China. Are the US and China destined to violently clash in an inevitable cataclysmic space war or are they to become strategic partners in guiding humanity's peaceful

transition into a space faring galactic civilization?

The New York Times bestseller about the strange history of NASA and its cover-ups regarding its origins and extraterrestrial architecture found on the moon and Mars is even more interesting in its new edition. Authors Richard C. Hoagland and Mike Bara include a new chapter about the discoveries made by ex-Nazi scientist and NASA stalwart Wernher von Braun regarding what he termed "alternate gravitational solutions," or the rewriting of Newtonian physics into hyperdimensional spheres.
