represent a third foundational pillar for Islam outside of Quran and hadith. The Covenants Initiative within the book represents a movement by Muslims, both prominent and unknown, in support of Christians under attack. These treaties desperately need to be better known among Christians, Muslims, and the general public. For scholars, this book provides much difficult-to-obtain

material: facsimiles of primary sources in Arabic and Persian; corrected versions in modern Arabic typescript; and alternate translations. They now have all they need to study the covenants in depth. freedom."--

peaceful coexistence among Jews, Christians, and Muslims."-

Emilia, a pensioner in northern Romania, is forced to confront the nostalgic illusions she nurtures as a reaction to the grim post-communist present when her daughter, now living in Canada, telephones

urging her not to vote for the former communists in upcoming elections. Determined to discover in her own mind why 'things were better back then,' she explores her memories of growing up in an impoverished village and of her life as a factory worker in the town. But ironic tension grows as the reader glimpses between the lines how nothing was what it seemed in Ceaușescu's Romania.

Interspersed among Emilia's memories are fantastical, hilarious anecdotes about the dictator, told by a factory foreman who will turn out to have been a secret police informer. *I'm a Commie!* is a subtle and humane novel about self-deception, but also about the ways in which a totalitarian state twisted ordinary lives. *Spas* JHU Press Pamela Gillilan was born in London in 1918, married in 1948 and

moved to Cornwall in 1951. When she sat down to write her poem *Come Away* after the death of her husband David, she had written no poems for a quarter of a century. Then came a sequence of incredibly moving elegies. Other poems followed, and two years after starting to write again, she won the Cheltenham Festival poetry competition. Her first collection *That Winter* (*Bloodaxe*,

1986) was shortlisted for the Commonwealth Poetry Prize. Springer Over the past two decades the study of social movements, revolution, democratization and other forms of nonroutine, or "contentious politics," has flourished as never before. And yet theory and research on the topic remain highly fragmented. The first of these divisions reflects the long-standing view that various forms of contention

are indeed distinct and should be studied independent of others. A second traditional approach to the study of political contention denies the possibility of general theory, in deference to a thorough grounding in the temporal and spatial particulars of any given episode of contention. Finally, overlaid on these two divisions are stylized theoretical traditions--

structuralist, culturalist, and rationalist-- that have developed largely in isolation from one another.

Based on extensive new research and a bold interpretation of the man and his texts, *The Passion of Michel Foucault* is a startling look at one of this century's most influential philosophers. It chronicles every stage of Foucault's personal and

novel set in India during World War II and the present day about a son's quest to uncover the truth about his mother. In my childhood, I was known as the boy whose mother had run off with an Englishman. The man was in fact German, but in small-town India in those days, all white foreigners were largely thought of as British. So begins the "gracefully wrought" (Kirkus Reviews) story of Myshkin

and his mother, Gayatri, who rebels against tradition to follow her artist's instinct for freedom. Freedom of a different kind is in the air across India. The fight against British rule is reaching a critical turn. The Nazis have come to power in Germany. At this point of crisis, two strangers arrive in Gayatri's town, opening up to her the vision of other possible lives. What took Myshkin's

mother from India and Dutch-held Bali in the 1930s, ripping a knife through his comfortingly familiar universe? Excavating the roots of the world in which he was abandoned, Myshkin comes to understand the connections between the anguish at home and a war-torn universe overtaken by patriotism. Evocative and moving, "this mesmerizing exploration of the darker

consequences of freedom, love, and loyalty is an astonishing display of Roy's literary prowess" (Publishers Weekly).

Routledge  
The first European edition of Francis DK Ching's classic visual guide to the basics of building construction. For nearly four decades, the US publication Building Construction Illustrated has offered an outstanding introduction to the principles of building

construction. This new European edition focuses on the construction methods most commonly used in Europe, referring largely to UK Building Regulations overlaid with British and European, while applying Francis DK Ching's clear graphic signature style. It provides a coherent and essential primer, presenting all of the basic concepts underlying building construction and equipping readers with useful guidelines for approaching any new materials or techniques they may encounter. European Building Construction Illustrated provides a comprehensive and lucid presentation of everything from foundations and floor systems to finish work. Laying out the material and structural choices available, it provides a full understanding of how these choices affect a building's form and dimensions. Complete with more than 1000 illustrations, the book moves through each of the key stages of the design process, from site selection to building components, mechanical systems and finishes. Illustrated throughout with clear and accurate drawings that effectively communicate construction processes and materials

Provides an overview of the mainstream construction methods used in Europe. Based around the UK regulatory framework, the book refers to European level regulations where appropriate. References leading environmental assessment methods of BREEAM and LEED, while outlining the Passive House Standard. Includes emerging construction methods

driven by the sustainability agenda, such as structural insulated panels and insulating concrete formwork. In *Neoliberalism from Below*—first published in Argentina in 2014—Verónica Gago examines how Latin American neoliberalism is propelled not just from above by international finance,

corporations, and government, but also by the activities of migrant workers, vendors, sweatshop workers, and other marginalized groups. Using the massive illegal market La Salada in Buenos Aires as a point of departure, Gago shows how alternative economic practices, such as the sale of counterfeit goods produced in illegal textile factories, resist

neoliberalism while simultaneously succumbing to its models of exploitative labor and production. Gago demonstrates how La Salada's economic dynamics mirror those found throughout urban Latin America. In so doing, she provides a new theory of neoliberalism and a nuanced view of the tense mix of calculation and freedom, obedience and resistance, individualism and

community, and legality and illegality that fuels the increasingly powerful popular economies of the global South's large cities. *I Miss Crying of Happiness* Sint o babă comunistă! : roman Sint o baba comunista! This book is about

language and the city. Pennycook and Otsuji introduce the notion of 'metrolingualism', showing how language and the city are deeply involved in a perpetual exchange between people, history, migration, architecture, urban landscapes and linguistic resources. Cities and languages are in constant change, as new speakers with new repertoires come into contact as a

result of globalization and the increased mobility of people and languages. Metrolingualism sheds light on the ordinariness of linguistic diversity as people go about their daily lives, getting things done, eating and drinking, buying and selling, talking and joking, drawing on whatever linguistic resources are available. Engaging with current debates about multilingualism, and

developing a new way of thinking about language, the authors explore language within a number of contemporary urban situations, including cafés, restaurants, shops, streets, construction sites and other places of work, in two diverse cities, Sydney and Tokyo. This is an invaluable look at how people of different backgrounds get by linguistically. Metrolinguistics: Language

in the city will be of special interest to advanced undergraduate/postgraduate students and researchers of sociolinguistics and applied linguistics. The Navy of the Nuclear Age, 1947-2007 Springer Soccer has turned into a multi-billion-dollar industry. Professionalism and commercialization dominate its global image. Yet the game retains a rebellious side, maybe more so than

any other sport co-opted by money makers and corrupt politicians. From its roots in working-class England to political protests by players and fans, and a current radical soccer underground, the notion of football as the "people's game" has been kept alive by numerous individuals, teams, and communities. This book not only traces this history, but also reflects on common

criticisms: soccer ferments nationalism, serves right-wing powers, and fosters competitiveness. Acknowledging these concerns, alternative perspectives on the game are explored, down to practical examples of egalitarian DIY soccer! Soccer vs. the State serves both as an orientation for the politically conscious football supporter and as an inspiration for those who try

to pursue the love of the game away from televisions and big stadiums, bringing it to back alleys and muddy pastures. This second edition has been expanded to cover events of recent years, including the involvement of soccer fans in the Middle Eastern uprisings of 2011-2013, the FIFA scandal of 2015, and the 2017 strike by the Danish women's team. *Midwinter*

*Turns to Spring* New Africa Books This book is a comprehensive and authoritative source on nontuberculous mycobacterial (NTM) pathogens and diseases and their appropriate management, with a focus on lung disease. NTM diseases, especially lung diseases, are increasing in prevalence in the U.S. and internationally with concomitant growing interest in a broad section

of the medical community. Often merely included in coverage of tuberculosis, many aspects of NTM organisms and diseases are actually very different than TB. These differences are not intuitive or trivial and frequently result in

suboptimal management of NTM patients. This book addresses these gaps in the literature with chapters on microbiology, pathophysiology, epidemiology, the various diseases that can stem from NTM, and their

particular management. There is also coverage on prevention and NTM as a public health problem. For pulmonologists and infectious disease physicians, this is the definitive resource on nontuberculous mycobacteria.
