 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues,

sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

The detrimental effects of imprisonment have been documented and accepted in most western countries. As a result, alternatives to incarceration have been sought in the effort to reform the penal system. Although during the last thirty years several Nordic official committees have recommended a reduction in the use of jail sentences and an increase in other forms of punishment (i.e. fines and probation) in the hope of

decreasing crime and rehabilitating criminals, incarceration rates have been going up in Sweden, Denmark, and Norway. Still, the interest in alternatives to imprisonment continues to grow, but few studies have actually been published that examine their effectiveness.
