MALAKI ISABEL

Little Kids First Big Book of Pets

National Geographic Children's Books
Provides answers to commonly asked questions such as "Why does my skin wrinkle in the tub?" and "Why do we see a rainbow?"

First Big Book of Space National

Geographic Children's Books
Offers thousands of animal facts and records that identify animals in such categories as fastest, oldest, and biggest, as well as smelliest, loudest, and deadliest.

Little Kids First Big Book Collector's Set National Geographic Children's Books

Answers questions about technology in the home, the outdoors, food, transportation, and animals.

Everything Money National Geographic Books

Featuring more than two hundred photos, this interactive introduction to the Earth's rocks, minerals, gemstones, fossils, and shells is filled with fascinating facts as well as breathtaking natural sites.

Little Kids First Big Book Collector's Set National Geographic Books

Introduces basic concepts about outer space, from the sun and the moon to the planets and space exploration.

Get Outside Guide National Geographic Books

In this level 2 reader, young readers will

explore the underwater world of lovable manatees. Follow these gentle giants, sometimes called "sea cows," through their marshy habitats, learn how manatees raise their young, and discover the threats to their environment. Beautiful photos and carefully leveled text make this book perfect for reading aloud or for independent reading. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.

Wild and Crazy National Geographic Books

Playful puppies! Cuddly kittens! Beautiful birds! In the next book in the hit Little Kids First Big Book series, readers learn all about pets with fur, feathers, fins, scales, and shells--and how to find and care for the perfect pet for their family. From cats to dogs to guinea pigs to birds to fish to snakes and more, this adorable reference book introduces kids to a wide variety of family-friendly pets. Readers learn which kinds of animals make good pets and which ones are better off staying in the wild, along with how each type of pet eats, sleeps, and plays. Packed with more than 200 colorful photos, the book also provides information on animal breeds, characteristics, and behavior and includes tips for training pets. Filled with fun facts and designed for interactive learning, this book will quickly become a favorite at storytime, bedtime, and any time.

little bee books

Colorful birds! Jaguars! Tree frogs!

National Geographic presents a delightful, age-appropriate introduction to tropical rain forest creatures big and small in this new title in the popular Little Kids First Big Book series. This adorable animal book about all things jungle features favorite animals found in tropical rain forests. Readers meet jaguars prowling the forest floor, snakes slithering through the understory, red-eyed tree frogs leaping through the canopy, butterflies flitting through the tallest treetops, and many other creatures that inhabit all the different layers. More than 200 charming animal photos illustrate the profiles, with facts about the creatures' sizes, diets, homes, and more. A map of tropical rain forests around the world shows where the animals in the book are found, and the book also introduces readers to plant life. This book will quickly become a favorite at storytime, bedtime, and any time.

National Geographic Little Kids First Big Book of Science HarperCollins UK

Profiles several different animals from around the world that live in different habitats.

My First Big Book of Dinosaurs National Geographic Society

Introduces basic concepts about outer space, from the sun and the moon to the planets and space exploration.

Little Kids First Big Book of Reptiles and Amphibians National Geographic Society

This lively introduction to the fascinating world of science explores the different kinds of science, what scientists do, and the amazing things that scientists study: animals and plants; oceans and space; earthquakes and volcanoes; sound and light; inventions and more! Make sure kids' first experience of the wonders of science is a thrilling eye-opener with this fun reference book. Fun activities,

games, and simple experiments encourage interactive learning, showing kids that anyone can use scientific observation and experimentation to be a scientist and discover new things. With bright images and age-appropriate text, this book inspires kids to be curious, ask questions, and explore the world around them and maybe even grow up to be a scientist one day, too! Topics include astronomy, botany, paleontology, malacology (that's the science of clams, snails, and other animals with shells!), zoology, and more.

National Geographic Kids Look and Learn: Match! National Geographic Books

Preschoolers are full of "Where?" questions, and this next book in the best-selling Little Kids First Big Book series is full of fascinating and often surprising answers for them. This charming reference book zeroes in on location, location, location. More than 200 colourful photos are paired with age-appropriate text featuring answers to questions like "Where does the sky end?", "Where is the highest mountain?", and "Where was ice cream invented?" Containing several kid-friendly maps designed to expand the learning experience, this book inspires kids to be curious, ask questions, and explore the world around them.

National Geographic Little Kids First Big Book of Where National

Geographic Children's Books

Following the bestseller "Little Kids First Big Book of Why," this second entry features even more of the endless "Why?" questions preschoolers love to ask! This charming reference answers some of kids' most burning "Why?" questions and includes more than 200 colorful photos.

National Geographic Readers: Manatees

National Geographic Society

True stories of animals and the people who love them.

National Geographic Little Kids First Big Book of Science National

Geographic Kids

This addition to the hit Little Kids First Big Book series explores the fascinating world of reptiles and amphibians, from slithering snakes and scaly lizards to bumpy frogs and spotty salamanders. Get ready to meet a variety of awesome animals, from frilled lizards to giant tortoises to goliath frogs. This reference book for the younger set answers questions that range from "What is the biggest reptile in the world?" to "How can a boa constrictor fit a deer into its mouth?" Readers explore what makes an animal a reptile or an amphibian and learn about more than 45 different creatures. Packed with more than 250 stunning color photos, the book also provides information on animal habitats, characteristics, and behavior. Filled with fun facts and designed for interactive learning, it is sure to become a favorite with budding herpetologists and their parents.

First Big Book of Dinosaurs National Geographic Children's Books

Introduces several of the ocean's species, provides profiles of creatures, from dolphins and sharks to sea otters and penguins, while sharing facts about their characteristics, diets, and habitats.

Big Book of Bugs HarperCollins

From a spectacular giant dump truck to a speedy little race go-cart, *The Big Book of Things That Go* is a visual and informative look at a subject that fascinates kids. Full of detailed artwork and photographs of real-life vehicles, *The Big Book of Things That Go* is an enticing collection of trucks, cars, motorcycles, and more that will excite

every child. This visual guide features simple but informative text and interactive questions that encourage young children to make their own discoveries about the vehicles around them and how and why machines are useful. Broken into two-page-spread themes, young readers can learn about various vehicles including fire trucks, tractors, cranes, and much more. With striking images and informative text, *The Big Book of Things That Go* is the perfect guide for young readers who want to learn more about different machines used around the world.

National Geographic Kids Everything Volcanoes and Earthquakes National Geographic Books

This charming reference introduces young readers to the wider world by exploring languages, landscapes, weather, animals, capital cities, mountains, deserts, and other landscapes and landforms, and more. It encourages kids to get play with activities such as creating a mini-rainforest in a bottle and singing a simple song in Spanish. More than 100 colorful photos are paired with kid-friendly and age-appropriate maps along with basic facts about each continent. This book will quickly become a favorite at storytime, bedtime, or any other time.

Animal Records - National Geographic Kids National Geographic Books

National Geographic spins off its best-selling Little Kids First Big Book series into engaging new board books to introduce even the littlest kids to high-quality nonfiction. These sturdy pages explore the basics of the solar system with amazing photographs, super-simple facts, and lively, age-appropriate language to keep babies and toddlers--and their grown-ups--fascinated by every

colorful page. With stunning photos of the Earth and other planets, this beautiful book introduces the very youngest explorers to the wonders of the space, beginning right here on Earth and expanding into the universe beyond. Designed to be the stepping stone to the Little Kids First Big Book series, the National Geographic Little Kids First Board Books take similar subjects and drill them down to the simplest nonfiction concepts for the youngest audience. Not only will readers learn about planets and our solar system, they can also find recurring shapes and patterns in the design; occasional callouts will add humor for adults, and sidebar text offers additional learning for older siblings or those ready for more

complex information. With their square shape, bright and playful design, awesome photography, clear text, and cues to encourage interactive learning, the Little Kids First Board Books mirror the beloved First Big Books while taking a fresh new approach to excite a baby's sense of wonder and make learning about nature and science fun.

National Geographic Little Kids First Big Book of Space National Geographic Books

Combines facts with photographs of volcanoes and earthquake-affected regions to introduce readers to such topics as underwater volcanoes and plate tectonics while offering insight into the world-changing power of natural disasters.
