### **Document Numbering in oracle ebs r12**

Document Sequence In  
Oracle AppsA document  
sequence uniquely  
numbers documents  
generated by an Oracle  
Applications product.  
Using Oracle Applications,  
you initiate a transaction

by entering data through  
a form and generating a  
document, for example,  
an invoice. A document  
sequence generates an  
audit trail that identifies  
the application that  
created the transaction,  
for example, Oracle  
Receivables, and the  
original document that  
was generated, for  
example, invoice number  
1234.What is a Document  
Sequence? - OracleA

document sequence  
uniquely numbers  
documents generated by  
an Oracle E-Business  
Suite product. Using  
Oracle E-Business Suite,  
you initiate a transaction  
by entering data through  
a form and generating a  
document, for example,  
an invoice. A document  
sequence generates an  
audit trail that identifies  
the  
application...Document

Sequences - OracleA document sequence generates an audit trail that identifies the application that created the transaction, for example, Oracle Receivables, and the original document that was generated, for example, invoice number 1234. Document sequences can provide proof of completeness. Setting Up Document Sequences - docs.oracle.com Defining a Document Sequence. A sequence can number documents stored in

database tables belonging to its owning application. Audit records for a sequence are stored in the application's audit table, titled Application Short Name \_DOC\_SEQUENCE\_AUDIT. For example, the audit table for a sequence owned by Oracle Payables is AP\_DOC\_SEQUENCE\_AUDIT. Defining a Document Sequence - Oracle document sequence, document sequence assignment, document sequence assignment for transaction types, oracle

apps document sequence assignments via backend, document sequence assignment API, oracle standard api for document sequence assignments, how to assign document sequence from backend, FND\_SEQNUM, FND\_SEQNUM with examples, document sequence assignment in oracle, oracle trx types ...
