This monumental book, first published in 1992, represents a major contribution to Sephardic and Hispanic studies as well as to comparative folklore scholarship in

a worldwide perspective. After many years of fieldwork and extensive archival investigations in Spain, Israel and the United States, the author has brought together and analysed a massive body of primary sources. This is the first collection of Sephardic narratives offered to the English-speaking reader, and constitutes an important addition to the understanding of Sephardic cultural tradition.
