In *Maternal Ethics and Other Slave Moralities* which includes the first extended philosophical discussion of the works of Frederick Douglass, Cynthia Willett puts forward a novel theory of ethical subjectivity that is aimed to counter prevailing pathologies of sexist, racist Eurocentric culture. Weaving together accounts of the self drawn from African-American and European philosophies, psychoanalysis, slave narratives and sociology, Willett interrogates what Hegel locates as the core of the self: the desire for *The Taboo Feminisation Collection 2* Cambridge Scholars Publishing

An exploration of the moral theory examines the characteristics of the ethics of care, discussing the feminist roots of this moral approach, what is meant by "care," and the potential of the ethics of

care for dealing with social issues.

The Lived Experience of Gender, Race, and Sexual Violence Duke University Press

Now in its third edition, this fascinating book illustrates how a philosophical approach to sexuality can shed light on various sexual phenomena, such as pornography, prostitution, sadomasochism, homosexuality, masturbation, sexual perversion, and adultery. A definitive work on a provocative topic.

The Better Angels of Our Nature Routledge

Ornamentalism offers one of the first sustained and original theories of Asiatic femininity. Examining ornamentality, in lieu of Orientalism, as a way to understand the representation, circulation, and ontology of Asiatic femininity, this study extends our vocabulary about the woman of color beyond the usual platitudes about objectification. By offering us a conceptual frame through which to focus on race without being solely beholden to flesh or skin, this study alters the foundational terms of

feminism and places Asian femininity at the center of an entire epistemology of race. By tracing a direct link between the making of artificial Asiatic femininity and a seemingly much more technological history of synthetic personhood in the West from the nineteenth to the twenty-first century, *Ornamentalism* shows how the construction of modern personhood in the multiple realms of law, culture, and art has been surprisingly indebted to this very marginal figure. Drawing from and speaking to the multiple fields of feminism, critical race theory, visual culture, performance studies, legal studies, Modernism, Orientalism, Object Studies and New Materialism, *Ornamentalism* will leave reader with a greater understanding of what it is to be in Americanculture.

Feminist Perspectives on Identity and Image

Harvard University Press

"Judith Butler is the most creative and courageous social theorist writing today." - Cornel West

"Judith Butler is quite

simply one of the most probing, challenging, and influential thinkers of our time.” – J. M. Bernstein
 Judith Butler’s new book shows how an ethic of nonviolence must be connected to a broader political struggle for social equality. Further, it argues that nonviolence is often misunderstood as a passive practice that emanates from a calm region of the soul, or as an individualist ethical relation to existing forms of power. But, in fact, nonviolence is an ethical position found in the midst of the political field. An aggressive form of nonviolence accepts that hostility is part of our psychic constitution, but values ambivalence as a way of checking the conversion of aggression into violence. One contemporary challenge to a politics of nonviolence points out that there is a difference of opinion on what counts as violence and nonviolence. The distinction between them can be mobilized in the service of ratifying the state’s monopoly on violence. Considering nonviolence as an ethical problem within a political philosophy requires a critique of individualism as well as an

understanding of the psychosocial dimensions of violence. Butler draws upon Foucault, Fanon, Freud, and Benjamin to consider how the interdiction against violence fails to include lives regarded as ungrievable. By considering how “racial phantasms” inform justifications of state and administrative violence, Butler tracks how violence is often attributed to those who are most severely exposed to its lethal effects. The struggle for nonviolence is found in movements for social transformation that reframe the grievability of lives in light of social equality and whose ethical claims follow from an insight into the interdependency of life as the basis of social and political equality.

Maternal Ethics and Other Slave Moralities

Strength in Numbers
 Population, Reproduction, and Power in Eighteenth-Century France
 This edited collection examines pornography as a material practice that eroticises gender inequality and sexual violence towards women. It addresses the complex relationship between pornography and

medicine (in particular, sexology and psychotherapy) whereby medicine has historically, and currently, afforded pornography considerable legitimacy and even authority. Pornography naturalises women’s submission and men’s dominance as if gendered power is rooted in biology not politics. In contrast to the populist view that medicine is objective and rational, the contributors here demonstrate that medicine has been complicit with the construction of gender difference, and in that construction the relationship with pornography is not incidental but fundamental. A range of theoretical approaches critically engages with this topic in the light, firstly, of radical feminist ideas about patriarchy and the politics of gender, and, secondly, of the rapidly changing conditions of global capitalism and digital-technologies. In its broad approach, the book also engages with the ideas of Michel Foucault, particularly his refutation of the liberal hypothesis that sexuality is a deep biological and psychological human property which is

repressed by traditional, patriarchal discourses and which can be freed from authoritarianism, for example by producing and consuming pornography. In taking pornography as a cultural and social phenomenon, the concepts brought to bear by the contributors critically scrutinise not only pornography and medicine, but also current media scholarship. The 21st century has witnessed a growth in (neo-)liberal academic literature which is pro-pornography. This book provides a critical counterpoint to this current academic trend, and demonstrates its lack of engagement with the politics of the multi-billion dollar pornography industry which creates the desire for the product it sells, the individualism of its arguments which analyse pornography as personal fantasy, and the paucity of theoretical analysis. In contrast, this book re-opens the feminist debate about pornography for a new generation of critical thinkers in the 21st century. Pornography matters politically and ethically. It matters in the real world as well as in fantasy; it matters to performers as well as to

consumers; it matters to adults as well as to children; and it matters to men as well as to women. *Me and White Supremacy* Oxford University Press on Demand
The New York Times and USA Today bestseller!
This eye-opening book challenges you to do the essential work of unpacking your biases, and helps white people take action and dismantle the privilege within themselves so that you can stop (often unconsciously) inflicting damage on people of color, and in turn, help other white people do better, too. "Layla Saad is one of the most important and valuable teachers we have right now on the subject of white supremacy and racial injustice."—New York Times bestselling author Elizabeth Gilbert
Based on the viral Instagram challenge that captivated participants worldwide, *Me and White Supremacy* takes readers on a 28-day journey, complete with journal prompts, to do the necessary and vital work that can ultimately lead to improving race relations. Updated and expanded from the original workbook (downloaded by nearly 100,000 people), this critical text helps you

take the work deeper by adding more historical and cultural contexts, sharing moving stories and anecdotes, and including expanded definitions, examples, and further resources, giving you the language to understand racism, and to dismantle your own biases, whether you are using the book on your own, with a book club, or looking to start family activism in your own home. This book will walk you step-by-step through the work of examining: Examining your own white privilege What allyship really means Anti-blackness, racial stereotypes, and cultural appropriation Changing the way that you view and respond to race How to continue the work to create social change Awareness leads to action, and action leads to change. For readers of *White Fragility*, *White Rage*, *So You Want To Talk About Race*, *The New Jim Crow*, *How to Be an Anti-Racist* and more who are ready to closely examine their own beliefs and biases and do the work it will take to create social change. "Layla Saad moves her readers from their heads into their hearts, and ultimately, into their practice. We

won't end white supremacy through an intellectual understanding alone; we must put that understanding into action."—Robin DiAngelo, author of New York Times bestseller *White Fragility*
Arktos Little, Brown
 A treatment of Montesquieu's Persian Letters, which argues that the novel is a philosophic critique of despotism in all its forms: domestic, political and religious. It shows that Montesquieu believed that the Enlightenment failed as a philosophy by not recognising man as an erotic being.
Personal, Political, and Global Cambridge University Press
 The Problem with Work develops a Marxist feminist critique of the structures and ethics of work, as well as a perspective for imagining a life no longer subordinated to them.
Jahrbuch zur Liberalismus-Forschung U of Minnesota Press
 Released for the first time in paperback, this landmark social and political volume on feminism is credited with being responsible for raising awareness, liberating both sexes, and triggering major advances in the feminist movement.

Reprint.
From Margin to Center Routledge
 Feminist and Queer Legal Theory: Intimate Encounters, Uncomfortable Conversations is a groundbreaking collection that brings together leading scholars in contemporary legal theory. The volume explores, at times contentiously, convergences and departures among a variety of feminist and queer political projects. These explorations - foregrounded by legal issues such as marriage equality, sexual harassment, workers' rights, and privacy - re-draw and re-imagine the alliances and antagonisms constituting feminist and queer theory. The essays cross a spectrum of disciplinary matrixes, including jurisprudence, political philosophy, literary theory, critical race theory, women's studies, and gay and lesbian studies. The authors occupy a variety of political positions vis-à-vis questions of identity, rights, the state, cultural normalization, and economic liberalism. The richness and vitality of feminist and queer theory, as well as their relevance

to matters central to the law and politics of our time, are on full display in this volume.
Woman's Embodied Self Univ of California Press
 Presents a controversial history of violence which argues that today's world is the most peaceful time in human existence, drawing on psychological insights into intrinsic values that are causing people to condemn violence as an acceptable measure.
Oliver Wendell Holmes and the Culture of Conversation JHU Press
 Six more sexually explicit books of transgender erotica all in one volume. A hot and steamy collection of taboo stories which includes three sequels to number one bestsellers, where boys are being transformed into sexy young girls by their own families. Your deepest genderbending fantasies will come to life once more in this adults only bundle of erotic stories. Stories in this collection: *Feminised by Mommy* 2 *In My Sister's Panties* 2 *Becoming Daddy's Girl* 2 *In My Sister's Shoes* In *Mommy's Shoes* Turned into the *Girl of the House* These are sexually explicit tales designed strictly for adults only.

Human Capital and the Making of Millennials

Oxford University Press, USA

In response to the needs of lecturers, the acclaimed Handbook of

Organization Studies has been made available as two major paperback textbooks. In this, the first of a two-volume paperback edition of the landmark Handbook of Organization Studies, editors Stewart Clegg and Cynthia Hardy survey the field of organization studies. Studying Organization is an ideal textbook around which to build courses on organization theory and research methodology. Central to the enterprise has been a concern to reflect and honour the manifest diversity of the field, including recognition of the extent to which the very notion of a single field of organization studies is debated. Part One locates the study of organization by reviewing some of the most significant theoretical paradigms to have shaped our understanding. The second part reflects on the relationships between theory and research in organization studies. [Pornography, Homosexuality, and Other Fantasies in Interwar France](#) MDPI In The Sonic Episteme Robin James examines how twenty-first-century conceptions of sound as acoustic resonance shape

notions of the social world, personhood, and materiality in ways that support white supremacist capitalist patriarchy. Drawing on fields ranging from philosophy and sound studies to black feminist studies and musicology, James shows how what she calls the sonic episteme—a set of sound-based rules that qualitatively structure social practices in much the same way that neoliberalism uses statistics—employs a politics of exception to maintain hegemonic neoliberal and biopolitical projects. Where James sees the normcore averageness of Taylor Swift and Spandau Ballet as contributing to the sonic episteme's marginalization of nonnormative conceptions of gender, race, and personhood, the black feminist political ontologies she identifies in Beyoncé's and Rihanna's music challenge such marginalization. In using sound to theorize political ontology, subjectivity, and power, James argues for the further articulation of sonic practices that avoid contributing to the systemic relations of domination that biopolitical neoliberalism

creates and polices.
Toward a Feminist Theory of the State Saint Philip Street Press
 This book presents MacKinnon's powerful analysis of politics, sexuality, and the law from the perspective of women. Using the debate over Marxism and feminism as a point of departure, MacKinnon develops a theory of gender centered on sexual subordination and applies it to the state.
Camus's Ethic of Rebellion and Feminist Thought Polity
 The classic manifesto of the liberated woman, this book explores every facet of a woman's life.
Gender and Politics Verso Books
 The Voice of Pleasure makes a persuasive and fascinating argument that the romantic couple of Western representation is not heterosexual. Nor is it homosexual. With insightful new readings of landmarks of Western culture from Tristan and Yseut to Seinfeld ,

Callahan demonstrates that the illusion of heterosexuality is created by a male artist's assumption of a feminine voice to express desire. Named the 'troubadour effect' for the first time here, this tradition of male femininity in romantic writing results in a cultural model of desire best described as 'heterosexuality without women.' The most compelling aspect of the book is its attention to the effect of this paradox on women writers. Illuminating her argument with striking examples from the 'troubairitz' to Toni Morrison, the author shows how women writers inscribe their 'vagabondage,' a term she coins to name the consequences of the 'troubadour effect' for women's agency, as both writers and lovers.
The Polar Myth in Science, Symbolism, and Nazi Survival Routledge
 Modernism is still widely acknowledged as perhaps the most important and

influential artistic and cultural phenomenon of the 20th century. Written by expert scholars from around the world and covering hundreds of different topics in a clear, incisive, and critical manner, this reference maps the complex field of modernism in a fresh and original way. The principal focus of the book is on English-language literary modernism and the period 1890-1939, yet many entries extend beyond those parameters to include important precursors and successors of the movement. The book also covers the crucial European and interdisciplinary dimensions of modernism and provides complementary comparative perspectives from countries and regions not usually included in traditional accounts of the subject. Entries cite works for further reading, and the volume closes with a selected, general bibliography.
