The Brahmaputra is one of the world's great rivers.

Beginning as a tiny glacial stream in Western Tibet it flows through India and Bangladesh before gushing out into the Bay of Bengal. Unable to reach the northern part of the river due to Chinese intransigence, Mark Shand nonetheless set out to attempt what no foreigner had ever done: complete the huge journey from the unexplored jungles of the Indo-Tibet border to the largest river delta in the world. RIVER DOG is a chronicle of that journey, a remarkable story encompassing sublime landscapes - in Assam where the River begins to broaden into its full majesty - and rather odd encounters - including a bizarre group of identical-looking monks in Majuli (the largest river island in the world). But it is also a celebration -- of a river that flows with mystery and legend, the men who have set out to discover it and a rather charming canine travelling companion called Bhaiti.

Out of sight, out of mind. That's the general reaction to the crucial movement of oil around the world's oceans. Yet this vital supply chain that allows the world to function is constantly under enormous, largely unreported pressure. The uninterrupted flow of oil is essential to globalisation, and increasingly so as manufacturing and markets move Eastwards to Asia. However, it is threatened by conflicts between nation states, pirates and global warming. All too often the movement of oil by ocean is something taken for granted by the majority of the world yet it is fraught with difficulty, and could haemorrhage global growth if issues covered

in this book are not resolved or allowed to escalate. From reporting onboard giant tankers to looking at the geopolitical shift in oil consumption, *Oil on Water* is holistic, all encompassing and engrossing look at the way oil is moved and consumed; mixing reportage, examples and hard-hitting facts. *Beginner's Guide to Fantasy Drawing* Hachette UK
