 Architectures, Protocols
 and Services eBook:
 Janevski ...The next-
 generation network is a
 body of key architectural
 changes in
 telecommunication core
 and access networks. The
 general idea behind the
 NGN is that one network
 transports all information
 and services by
 encapsulating these into
 IP packets, similar to
 those used on the
 Internet. NGNs are
 commonly built around
 the Internet Protocol, and
 therefore the term all IP is
 also sometimes used to
 describe the
 transformation of formerly
 telephone-centric
 networks toward NGN.
 NGN is a different
 conceptNext-generation
