Nancy Drew and the Clue

Crew #1: Small Volcanoes
The Mystery at Lilac Inn
Today, thanks to the work of a brilliant young doctor, blood banks and successful blood transfusions are commonplace. Dr. Charles Drew's pioneering research with blood plasma and storage made this possible. At a time of crippling racial segregation and prejudice, Drew proved that black doctors were equal to white doctors. During World War II, he created the first large-scale system for

preserving blood, shipping seventeen thousand pints overseas for soldiers in Great Britain. Since then, millions of men, women, and children worldwide owe their lives to his work. In this page-turning account, author Anne Schraff demystifies Drew's extraordinary research and dispels the false rumors around his tragic and untimely death.

the biggest lie of all. *The Book of Daniel Drew* Simon and Schuster Nancy and her friends, George and Bess, are returning from a country carnival when they witness the explosion and burning of a beautiful country mansion. Fearing its occupants may be trapped in the blazing building, they rush to the rescue - and unexpectedly fund themselves confronted with a mystery that seems to be insoluble. The first clue, an anonymous diary, includes not only

indecipherable handwriting, but puzzling technical drawings and chemical formulas as well. Who dropped the diary near the burning house? Was it the gaunt stranger Nancy glimpsed running away from the flaming structure? What was he doing there? And does he know the whereabouts of Felix Raybolt, an unscrupulous dealer in patents, who has not been seen since his home burned? Or did Raybolt die in the fire? When evidence mounts against Joe Swenson, who was

swindled by "Foxy Felix", our young detective makes the desperate effort to exonerate the inventor of the suspicion of arson because of his dear five-year-old daughter.

Set beneath a canopy of oaks in an area just west of Madison, New Jersey, Drew University proudly calls itself "the University in the Forest." Long

before the university was founded in 1867, townspeople affectionately knew the grounds as "the Forest" and held awe and respect for the sprawling woodland. This affectionate look at the university, written by graduates John T. Cunningham and Regina

Diverio, recounts the life and times of an institution that has had only ten presidents in its nearly 135-year-long history. It tells the story of the creation of a genuine university in 1928, when Leonard and Arthur Baldwin, East Orange brothers, provided \$1.5 million to found, build, and endow the Brothers

College of Liberal Arts. *Nancy Drew 02: The Hidden Staircase* Penguin The journals of Nancy Drew, Carolyn Keene's teenage girl sleuth, which include information about Nancy's favorite mysteries, the creators of Nancy Drew, and art from the seventy-seven-year history of the book series.
