In the latest novel from the New York Times bestselling author of *Agony of the Leaves*,

Indigo Tea Shop owner Theodosia Browning may always be a bridesmaid, never a bride, but this groom is never going to make it to the altar...

Theodosia Browning's dear friend Delaine Dish has asked her to be a bridesmaid for her wedding. But when the big day arrives, everything seems to be going wrong. First, a massive storm is brewing over Charleston. A bad omen? Second, Delaine's sister is late for the ceremony. And finally, the groom not only has cold feet—his whole body is cold. A murderer has crashed the wedding. As Theodosia comforts a devastated Delaine, she needs to sort out the suspects on the groom's side from the suspects on the bride's

side. One thing soon becomes apparent—revenge won't be the only dish served cold at this wedding. And if Theodosia doesn't watch her step, a cold-blooded killer may have a rude reception in store for her...

Teach Yourself

An illuminating collection of work by members of the Religious Society of Friends. Covering nearly three centuries of religious development, this comprehensive anthology brings together writings from prominent Friends that illustrate the development of Quakerism, show the nature of Quaker spiritual life, discuss Quaker contributions to European and American civilization, and introduce the diverse community of Friends, some of whom are little remembered even among Quakers today. It gives a balanced overview of Quaker history,

spanning the globe from its origins to missionary work, and explores daily life, beliefs, perspectives, movements within the community, and activism throughout the world. It is an exceptional contribution to contemporary understanding of religious thought. Radge Publishing  
This is one of the most  
significant military  
books of the twentieth

century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly

as he had forecast.

This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

 The Weekend Trend  
 Trader is a trading  
 strategy designed for  
 people who want a  
 simple to follow trading  
 plan that trades just  
 once a week. An ideal  
 investment strategy for  
 people who work full  
 time but are actively  
 planning for their  
 retirement. Weekend  
 Trend Trader is  
 designed for and  
 tested on the US stock  
 Market. The Weekend  
 Trend Trader strategy  
 is a turnkey strategy  
 that uses no discretion.  
 In other words the  
 strategy has a set of  
 rules and users should  
 understand why they  
 entered a trade and  
 when and how they will  
 exit. Because the rules  
 are strictly and  
 mathematically defined

we are able to back  
 test the strategy on  
 historical data. This  
 enables us to  
 understand the  
 strategy's nuances and  
 therefore better  
 understand how the  
 journey to success will  
 be travelled. The  
 strategy is a  
 combination of several  
 tools that: \* ensures  
 you will always be  
 aligned with the trend  
 of the broader market  
 \* enters positions at  
 specific points and with  
 reasonable  
 confirmation \*  
 manages existing  
 positions with a trailing  
 stop loss \* defends  
 existing positions if the  
 trend of the broader  
 market reverses \*  
 outlines how much to  
 invest in each position.  
 We will fully step  
 through each of these  
 points in detail and  
 slowly build the system

from the ground up.
