"The story of the immense financial and corporate expansion which took place in the United States between the depression of the eighteen-nineties and the crisis of the nineteen-thirties."-- Preface. **The Red City** Springer Forbidden NationSt. Martin's Griffin Epicenter Press 15 year old Hana has a crush on her 20 year old cousin Farook. However, he leaves to study medicine in

Scotland. Her parents force her to marry another cousin, twice her age, a fat abusive chauvinistic brute. Ten years later, she has no children, and sinks into depression. Farook returns to Sanaa to set up an eye clinic next door. She attempts suicide with sleeping pills, but Farook rushes over with his Indian nurse, with a gastric pump and rescues her. During follow up visits, the embers of her

teenage love are reignited, and she declares her love to Farook, who learns about Gihad's brutality. She also confides stories about the involvement of her husband, and his brother Hamed, in arms sales, gang rapes and murder for organ harvesting from female medical students. Farook is asked to inspect the body of one such student at the university

hospital morgue, and has to testify at the trial of the suspected Kenyan morgue attendant, who had escaped from Nairobi accused of armed robbery there. Farook detects a scar below the lowest rib of Faten, typically seen after nephrectomy. He is warned to keep his nose out of the case by police captain Tahhan, as well as by Gihad and Hamed. He has to choose between

heeding their advice and his medical conscience. Farook also suspects that the gang rapes are committed against girls who are first made addicts of cocaine snorting, by some very prominent untouchables from the national security apparatus, and the ruling family. His suspicions are strengthened when the courageous defense lawyer of the Kenyan morgue technician is

murdered, together with his wife and three children on a dirt road. Farook's loses his nurse who has to seek an abortion in her native India because Gihad bullies her into sex and gets her pregnant. As Farook begins to respond to Hana's solitude, and her advances, and begins to fall in love with her, obese hypertensive Gihad is hospitalised in the intensive care unit with massive brain hemorrhage. Hana and

Farook indulge in forbidden love. But because Gihad's millions are stashed in foreign banks, Hana realizes that she is in mortal danger from Hamed, who feels entitled to the millions of his partner, Gihad, and who stands to inherit all, but only if Hana is dead. She needs to escape from the Land of Sheba before Gihad's impending but unpredictable death. In that patriarchal society, she can only hope

to do so with help from a man like Farook, who is beginning to get to know many people who might help the woman he now wants to marry, to fulfill her teenage fantasies. Mystic Michigan Merrell Pub Limited Claws of the Panda tells the story of Canada's failure to construct a workable policy towards the People's Republic of China. In particular the book tells of Ottawa's

failure to recognize and confront the efforts by the Chinese Communist Party to infiltrate and influence Canadian politics, academia, and media, and to exert control over Canadians of Chinese heritage. Claws of the Panda gives a detailed description of the CCP's campaign to embed agents of influence in Canadian business, politics, media and academia. The party's aims are to be

able to turn Canadian public policy to China's advantage, to acquire useful technology and intellectual property, to influence Canada's international diplomacy, and, most important, to be able to monitor and intimidate Chinese Canadians and others it considers dissidents. The book traces the evolution of the Canada-China relationship over nearly 150 years. It

shows how Canadian leaders have constantly misjudged the reality and potential of the relationship while the CCP and its agents have benefited from Canadian naivete.

**Forbidden Nation** John Wiley & Sons Imagine what it would be like to go back in time to the 15th century Venice. And imagine what it would be like to meet your lifelong hero, Michelangelo. And imagine what it would

be like if, on first meeting, you spill a tray of pasta and wine on that very same hero. Well, that's what happens to serious young artist Mark Breen. As the result of a drunken bet, Mark knocks out a painting of a toilet bowl. Much to his amazement, he sells it. In short order he's hailed as the new Andy Warhol and becomes an overnight sensation-and a very wealthy man. Soon, images of his toilet bowls

are on more t-shirts, mugs, and calendars than Edvard Munch's The Scream. His friend and mentor, Hugh Connelly, afraid that Mark is in danger of losing his "artistic soul," advises him to go back to Italy and reacquaint himself with the "old masters." In Venice, Mark falls in love with Alexandra, a beautiful art restorer, but it's a one-sided affair. One night, hoping to win her over, he

climbs up on a roof to find out who painted her favorite fresco. He falls off the roof and wakes up in 15th century Venice where he meets an innkeeper named Francesca, who looks exactly like Alexandra. And it gets curiouser and curiouser from there. During his stay-which is sometimes zany and sometimes frightening-he meet his hero, Michelangelo, who teaches him the true meaning of

art.

Forbidden Nation

This is true story about real people is set in Edinburgh City and Dundee, where a petite Scottish Lassie called Rosie Gilmour, mother to Finlay Sinclair, receives news of the death of her son - who tragically has taken his own life by hanging. Rosie pretends her son is still alive by talking to him, for that takes away the unbearable pain of her

loss. But once she begins to face up to the fact that Finlay is not coming back, her conversations become more of a challenge than she can handle. When memories of her past are triggered by everyday life events, they take her mind back and forth in time - back to her own childhood days in 1960, when she flirted with the fairground boys, and to the day she gave birth to Finlay - "ME LADDIE". Rosie's

Scottish accent becomes more apparent whenever her emotions are heightened and she begins to recite poetry. She goes on to reveal doubts about her own self-worth and and how she re-unites her role as mother - a role she had denied herself for seven years prior to Finlay's death. Rosie learns how to forgive herself and how to accept her loss with using practical coping strategies that

sometimes  
but not always  
work for her.  
Many voices  
of different  
natures and  
walks of life  
appear in

The great thing about being Canadian is simply this: we don't take ourselves too seriously, which works out pretty well because no one else on the planet takes us seriously, either. If

you're reading this book, there's a good chance you're a Canadian. But what does that mean? There are the stereotypical nods, such as politeness and apologizing, but there's so much more! To be honest, you've probably taken part in (or at least talked about) hockey, poutine, curling, canoes, health care, snowshoes, parkas, camping, beer, road work, Canadian Tire, Slurpees,

moose, maple syrup, and Tim Hortons in the last 24 hours. "A Hoser's Guide to Canadian History" is your ticket to even more things "Canadian" that you may have missed during your water-cooler discussions, online chats, or your seventeen-hour wait in the local emergency room. As you read this book, you'll discover new and exciting facts about Canada that simply weren't taught in

school. As a History teacher, I found the need to spread the unvarnished truth of this great nation's past. People like Sir John "Eh" MacDonald, Tommy Douglas, and Pierre Trudeau all had a distinct impact on this great country of ours, and part of their stories are included in these pages. Even less-famous folks who helped to shape Canada got a mention: John Humphrey, Laura Secord,

and Egerton Ryerson. (Yes, "Egerton" is a real name.) Canada has an exciting past, full of events that have brought us to where we are now. Like all countries, we have some things we'd like to forget, but most of those unpleasant moments happened because we had morons in Parliament, something that doesn't happen anymore. Canadians have no need to apologize for being nice,

honest, and caring people. So, please enjoy this book, and if you don't, well, I'm sorry. Li Ang's Visionary Challenges to Gender, Sex, and Politics  
Cormorant Books  
"How many Arabs did you kill Daddy?" Eight-year-old Rimi--a forward thinking tomboy asks her father upon his return from the Israeli army. Taught to fear Arabs, she then falls in love with one. Rimi's passion to

understand life, leads her to orchestrate unusual adventures that at times demand a high price. Her dream of putting joy into everything around her becomes a daunting task when dealing with a depressed mother who goes on mysterious journey and an explosive father she adores. This is an intimate and compelling story of not quite ordinary people caught up in an

extraordinary time and place. Passion! Conflicts! Political intrigues! Young and forbidden love! Fertile imaginings and meaningful lessons! The strange and wonderful nuances of living in a farming village and the gut wrenching loss of a one-true-love. These and much much more (all based on a true story) can be found within. This first book by the emerging writer Ruti

Yudovich is an experience to be embraced.

W. Norton Li Ang's Visionary Challenges to Gender, Sex, and Politics is the first collection of critical essays in English on Li Ang, the famous and controversial feminist writer from Taiwan, and some of her most celebrated works. The examination of Li Ang's taboo-breaking, trail-blazing discourse on gender, sex, national

politics, and identity by historians and literary scholars will be of interest to scholars in the fields of modern Taiwanese and Chinese literature, feminist studies, Taiwan studies, and comparative literature.

For over 400 years, Taiwan has suffered at the hands of multiple colonial powers, but it has now entered the decade when its independence will be won or lost. At the heart of Taiwan's story is the curse of geography that placed the island on the strategic cusp between the Far East and Southeast Asia and made it the guardian of some of the world's most lucrative trade routes. It is the story of

the dogged determination of a courageous people to overcome every obstacle thrown in their path. Forbidden Nation tells the dramatic story of the island, its people, and what brought them to this moment when their future will be decided.

**Encyclopedia of Chinese History**

Penguin Offering an unprecedented insight into one of the most glittering courts in history, this

sumptuous book brings together some of China's priceless national treasures, housed in Beijing's royal palace complex, the Forbidden City, and collected by Emperor Qianlong during his sixty-year reign from 1736 to 1795.

Maritime Taiwan St. Martin's Griffin On October 25, 1947, the United States government helped the Chinese Nationalist Party, Kuomintang

(KMT) President Chiang Kai-Shek flee the overwhelming communist forces. President Chiang established the new democratic government known as the Republic of China on an island later to be known as Taiwan, previously a major trading center called the "the beautiful isle" or Formosa. Parallel to the formation of the Republic of China on Taiwan, Israel was being established

from Palestine as a result of creating a nation for Jewish refugees and displaced people following the Holocaust during the Second World War. While there have been a lot known about the conflicts between the Palestinians and Israelites over land and discussions on the plights that the people faced, little is known about the natives of Taiwan who were forced to give up their land and

under constant occupation from the Dutch to the Japanese to the Chinese. **Claws of the Panda** North Atlantic Books “This global affairs veteran has carved out a solid, mature path, including for ‘flawed democracies’ like the U.S. We’d all be wise to follow.” — Vancouver Sun From the author of the *Globe and Mail* bestseller, *Claws of the Panda*, comes a book quite literally for our

times. Restoring Democracy in an Age of Populists and Pestilence is a thoughtful account of how we can save democracies from the despots and populists who provide easy answers to complicated situations, dumbing political discourse down to sandbox antics. Manthorpe argues that democracy is more resilient than it appears, and is capable of overcoming

the attacks from within and without that have sapped its vigour since the end of the Cold War. He begins with a description of the events of 1989, one of the seminal years in modern history. This saw the end of the Cold War, and the apparent conclusive victory of democracy and its civic values. But the view of these changes as a triumph of democracy — as summed up in Francis Fukuyama's

essay "The End of History" — was short-lived. Russia, shorn of its Soviet empire, and the Chinese Communist Party, re-examining its survival after the Tiananmen Square Massacre, began devising ways to counter-attack the West's triumphalism and these met with considerable success. Internal pressures and contradictions — wealth disparity

being chief among them — threaten the survival of many democratic systems. Abandoned industrial workers turn to the repeated platitudes designed to appeal to those left behind without actually offering them the ways and means to catch up. Immigrants, refugees, and the reformist fixations of isolated liberal elites have provided ammunition for would-be

despots. Adding to the pressures building on the political norms of our democracies, the COVID-19 pandemic has brought economic and social standstill for which no country is prepared.

China has become accessible to the west in the last twenty years in a way that was not possible in the previous thirty. The

number of westerners travelling to China to study, for business or for tourism has increased dramatically and there has been a corresponding increase in interest in Chinese culture, society and economy and increasing coverage of contemporary China in the media. Our understanding of China's history has also been evolving. The study of history in the People's Republic of China during the Mao Zedong period was strictly regulated and primary sources were rarely available to westerners or even to most Chinese historians. Now that the Chinese archives are open to researchers, there is a growing body of academic expertise on history in China that is open to western analysis and historical methods. This has in many ways changed the way that Chinese history, particularly the modern period, is viewed. The Encyclopedia of Chinese History covers the entire span of Chinese history from the period known primarily through archaeology to the present day. Treating Chinese history in the broadest sense, the Encyclopedia includes coverage of the frontier regions of Manchuria, Mongolia, Xinjiang and

Tibet that have played such an important role in the history of China Proper and will also include material on Taiwan, and on the Chinese diaspora. In A-Z format with entries written by experts in the field of Chinese Studies, the Encyclopedia will be an invaluable resource for students of Chinese history, politics and culture.
