Although physical travel between the stars is impossible because of the vast distances involved, communication is instantaneous. There are a couple of different ways to visit alien worlds: veering (using virtual reality to project images), and teeping (using telepresence to control robotic bodies on the other planet). It's even possible to engage in trade, licensing the rights to books, art, inventions, and other intellectual property. Deborah Rabinowitz is a literary broker. She veers to alien worlds and sells the publishing rights to Earth books. But when an alien is murdered right before her eyes, there's no way she can keep from being involved and solving the murder herself. Then, when an

old friend is accused of a murder on a different world, Deborah has to become a lawyer and defend her friend before a kangaroo court by solving that murder, too.

 Lt. Commander Heskan and Komandor Lombardi have only one thing in common - the will to survive. Bitter rivals for over a century, the Brevic Republic and the Hollaran Commonwealth are at war. Cultures that shared a common Terran ancestry have been isolated for decades. Now, Heskan's escort ships must protect

Lombardi's heavy cruisers as they are forced to run together into unexplored space from a devastating threat. Each commander faces dissension in the ranks, even as they try to unite their fleets and find some way to escape the fate of so many of their fallen comrades. For the duration of the tenuous truce, there is a singular objective... make it home. Yet there can be only one destination at the end of their journey, and only half of the fleet will be safe, if they reach the Republic or Commonwealth at all. If the warring governments cannot be trusted to secure safe passage of the allied crews, how can the two commanders trust each other? This is Book 3 in the This Corner of the Universe series, continuing the story of the original crew of BRS Anelace and her captain.

Have you ever felt there was something else out there? Have you ever felt you could do more for the world than what you thought was being done already? Have you ever felt like you weren't quite meeting your potential, but didn't know how to take that extra step towards greatness? Have you ever thought about what you might do if suddenly all those questions had answers? I hadn't. I also did not believe in love at first sight or soul mates. I just wanted to lead a quiet, inconspicuous, normal life. Until the day she walked through my classroom door and everything changed.

Captain Bruce L. Cathie is a Fokker Friendship captain flying for the National Airways Corporation of New Zealand. After he and a number of other flying enthusiasts spotted a UFO at Mangere, Auckland, Captain Cathie began to apply his professional knowledge of navigation theory to elucidate a magnetism-based "solution" to the UFO mystery. His discovery of the magnetic grid around Earth was proven in his first book, *Harmonic 33* (1968), which has become famous in UFO circles throughout the world. His research since its publication has led him to still more astonishing discoveries, which are detailed here in *Harmonic 695: The UFO and Antigravity*. Captain Cathie is married and lives with

his family in Te Atatu, Auckland, NZ. Peter Temm, M.A., has been a correspondent for newspapers like *The Washington Star* in the U.S., *The Sunday Times* in London, *The Melbourne Herald* in Australia, and *The Auckland Star* in New Zealand. He is now Consul of Information at the Australian Consulate-General in Osaka, Japan. Temm's interest in UFOs was sparked when he began studying the "sky myths" of the Ainu people of Japan. Of his association with Bruce Cathie, Temm writes: "He is the only independent researcher I know of who has come up with a theory, supported by numerous facts, which answers most of the questions surrounding UFOs."

I was thirteen years old when I originally thought of the story, and have written and rewritten it more times than I can count. But six years ago, I met my wife a Filipina from Manila, and there I discovered the wonderful and gracious people of the Philippines. After realizing I would have children of mixed racial birth. I decided I wanted to give them a hero to look up to from their own culture. I then re-did all nine books; this time the racial, religious and cultural differences gave the book a more defined nature, one of which I was proud. I had given up long ago on trying to get an agent or a publisher to take interest in my book, but that was never my goal. My goal was to give my children a hero of their own heritage, and to inspire them. Win or lose, they win. The Year is 2079 and the earth has recently been discovered by a ruthless alien race known as the T-Challa. Their plan is to enslave the population and to strip the earth of all its resources to maintain and expand their vast empire. However the earth is not without hope, another alien race called the X'ena's have sent a symbiotic probe to earth to help defend her from the T-Challa. The Probe which takes the name Paladin merges with a human named Caleb Ocode as well as an ancient battleship from a century ago and transforms both into a force to protect the earth. Caleb then man's his ship with the best the earth has to offer as they go out and defend the earth successfully defeating the small fleet sent by the T-Challa. Unfortunately the ship suffers damage and it affects Caleb wounding him, it is quickly discovered that Caleb is dying and with him the mighty ship named Paladin, the only defense of earth. After searching all possible answers to save himself and protect the earth, Caleb decides to find the X'ena to see if they can cure him before his death, but time is short and the single ship must

travel through the heart of the T-Challa Empire to find the X'ena and save Caleb. Will they succeed?

"A wondrous, sparkling fusion of wisdom and insight." - Patricia Santhuff What do the wonderful myths of ancient Greece, the beautiful stories in the Bible and Qur'an, and all the sacred stories from traditions around the world, have in common? They open our hearts to wonder, mystery, passion, and joy. I know, on the outside these stories seem very different, confusing, conflicting, and often violent and divisive. But when read symbolically and internally, they are all telling the same story. They show us the path of spiritual awakening and enlightenment. Sometimes the story is called "Returning to the Promised Land." Sometimes it's called "Seeking the Holy Grail." Sometimes it's called "Persephone's Return to Olympus." But whatever it's called, the inner meaning and purpose is always the same. The stories are all a call to awaken, to live passionately and consciously, and to enter the door that leads to enlightenment and communion with the divine. The door is always open. The light is always ready to receive us. But we have to learn how to tread the path! Fortunately, that's what all the sacred stories are really about. THE DOOR IS OPEN uncovers the 7 Universal Steps that are found within the symbols and allegories of all great mythology and scripture. Each chapter ends with a series of practical and enjoyable spiritual exercises and activities. You can do this work on your own, or together with a group. It could be a church or synagogue group, a book club, a classroom, or any group of friends who want to get together and expand their spiritual horizons. Are top scorers really the most valuable players? Are games decided in the final few minutes? Does the team with the best player usually win? Thinking Basketball challenges a number of common beliefs about the game by taking a deep dive into the patterns and history of the NBA. Explore how certain myths arose while using our own cognition as a window into the game's popular narratives. New basketball concepts are introduced, such as power plays, portability and why the best player shouldn't always shoot. Discover how the box score can be misleading, why "closers" are overrated and how the outcome of a game fundamentally alters our memory. Behavioral economics, traffic paradoxes and other metaphors highlight this thought-provoking insight into the NBA and our own thinking. A must-read for any basketball fan -- you'll never view the sport, and maybe the world, the same again.
