The day the blizzard started, no one knew that it was going to keep snowing for a week. That for those in its path, it would become not just a matter of keeping warm, but of staying alive. . . . Scotty and his friends Pete and Jason are among the last seven kids at their high school waiting to get picked up that day, and they soon realize that no one is coming for them. Still, it doesn't seem so bad to spend the night at school, especially when distractingly hot Krista and Julie are sleeping just down the hall.

But then the power goes out, then the heat. The pipes freeze, and the roof shudders. As the days add up, the snow piles higher, and the empty halls grow colder and darker, the mounting pressure forces a devastating decision. . . . Michael Northrop is the New York Times bestselling author of *TombQuest*, an epic book and game adventure series featuring the magic of ancient Egypt. He is also the author of *Trapped*, an Indie Next List Selection, and *Plunked*, a New York Public Library best book of the year and an NPR Backseat Book Club selection. An editor at *Sports Illustrated Kids* for many years, he now writes full-time from his home in New York City. Learn more at www.michaelnorthrop.net.

Independent on Sunday Born to an

unhappy marriage and into a deeply sexist society, Nance Russell worked hard for everything she had, and while the world changed around her, she went on to university, to opening businesses and raising a family. One Life is Nance's story - and many other women's too - beautifully captured by her daughter, the bestselling novelist Kate Grenville. Kate draws on the tales passed down to her to create an evocative portrait of life in twentieth-century rural Australia, and a deeply intimate and caring homage to a mother.

A New York Times Bestseller For Lady Gaga, kindness is the driving force behind everything she says and does. The quiet power of kindness can change the way we view one another, our communities, and even ourselves. She embodies this mission, and through her work, brings more kindness into our world every single day. Lady Gaga has always believed in the importance of

being yourself, being kind to yourself, and being kind to others, no matter who they are or where they come from. With that sentiment in mind, she and her mother, Cynthia Germanotta, founded Born This Way Foundation, a nonprofit organization dedicated to making the world a kinder and braver place. Through the years, they've collected stories of kindness, bravery and resilience from young people all over the world, proving that kindness truly is the universal language. And now, we invite you to read these stories and follow along as each and every young author finds their voice just as Lady Gaga has found hers. Within these pages, you'll meet young changemakers who found their inner strength, who prevailed in the face of bullies, who started their own social

movements, who decided to break through the mental health stigma and share how they felt, who created safe spaces for LGBTQ+ youth, and who have embraced kindness with every fiber of their being by helping others without the expectation of anything in return. In one story, you'll read about a young person with an autoimmune disease, who after being bullied at school, learned how to practice self-love and started an organization with the mission of educating others about the importance of self-love, too; and in another story, you'll meet a young person who decided to start a movement to help eliminate the stigma surrounding mental health and encouraged others to talk about their feelings openly and honestly, a reminder that kindness and mental

wellness go hand in hand. Not only were we moved by these individual acts of kindness, but we were also touched by the many stories of organizations, neighborhoods, and entire communities that fully dedicated themselves to helping those in need and found new, innovative ways to make our world a kinder and braver place. Individually and collectively, these stories prove that kindness not only saves lives but builds community. Kindness is inclusion, it is pride, it is empathy, it is compassion, it is self-respect and it is the guiding light to love. Kindness is always transformational, and its never-ending ripples result in even more kind acts that can change our lives, our communities, and our world.

Jenna Fischer's Hollywood journey began at the age of 22 when she moved to Los Angeles from her hometown of St. Louis. With a theater degree in hand, she was determined, she was confident, she was ready to work hard. So, what could go

wrong? Uh, basically everything. The path to being a professional actor was so much more vast and competitive than she'd imagined. It would be eight long years before she landed her iconic role on *The Office*, nearly a decade of frustration, struggle, rejection and doubt. If only she'd had a handbook for the aspiring actor. Or, better yet, someone to show her the way—an established actor who could educate her about the business, manage her expectations, and reassure her in those moments of despair. Jenna wants to be that person for you. With amusing candor and wit, Fischer spells out the nuts and bolts of getting established in the profession, based on her own memorable and hilarious experiences. She tells you how to get the right

headshot, what to look for in representation, and the importance of joining forces with other like-minded artists and creating your own work—invaluable advice personally acquired from her many years of struggle. She provides helpful hints on how to be gutsy and take risks, the tricks to good auditioning and callbacks, and how not to fall for certain scams (auditions in a guy's apartment are probably not legit—or at least not for the kind of part you're looking for!). Her inspiring, helpful guidance feels like a trusted friend who's made the journey, and has now returned to walk beside you, pointing out the pitfalls as you blaze your own path towards the life of a professional actor.
