These lessons, which total about one hour, are designed to give you practice reading English. A Reading Booklet to be used with the audio lessons is also included in PDF format. The Pimsleur Method We make no secret of what makes this powerful method work so well. Paul Pimsleur spent his career researching and perfecting the precise elements anyone can use to learn a language quickly and easily. Here are a few of his "secrets": The Principle of Anticipation In the nanosecond between a cue and your response, your brain has to work to come up with the right

word. Having to do this boosts retention, and cements the word in your mind. Core Vocabulary Words, phrases, and sentences are selected for their usefulness in everyday conversation. We don't overwhelm you with too much, but steadily increase your ability with every lesson. Graduated Interval Recall Reminders of new words and structures come up at the exact interval for maximum retention and storage into your long-term memory. Organic Learning You work on multiple aspects of the language simultaneously. We integrate grammar, vocabulary, rhythm, melody, and intonation into every lesson, which allows you to experience the language as a living, expressive form of human culture. Learning in Context Research has shown that learning new words in context dramatically accelerates your ability to remember. Every scene in every Pimsleur lesson is set inside a conversation between two people. There are no drills, and no memorization necessary for success. Active Participation The Pimsleur Method + active learner participation = success. This method works with every language and every learner who follows it. You gain the power to recall and use what you know, and to add new words easily, exactly as you do in Spanish. The English Language Approximately 375 million people speak English around the world and there are more than 50 countries where English is the primary language spoken, including in Australia, Canada, the Commonwealth Caribbean, Ireland, New Zealand, the United Kingdom, and the United States. This course teaches Standard American English as spoken in the US. Instruction is in Spanish. Tech Talk - CDs are formatted for playing in all CD players, including car players, and users can copy files for use in iTunes or Windows Media Player.

Speak Spanish with Dora & Diego: ¡Vámonos! Let's Go! Simon and Schuster

Dr. Pimsleur draws on his own language learning trials and tribulations offering practical advice for overcoming the obstacles so many of us face. Originally published in 1980, *How to Learn a Foreign Language* is now available on the 50th anniversary of Dr. Pimsleur's publication of the first of his first audio courses that embodied the concepts and methods found here. It's a fascinating glimpse into the inner workings of the mind of this amazing pioneer of language learning.

The Way of The Linguist, A language learning odyssey. It is now a cliché that the world is a smaller place. We think nothing of jumping on a plane to travel to another country or continent. The most exotic locations are now destinations for mass tourism. Small business people are dealing across frontiers and language barriers like never before. The Internet brings different languages and cultures to our finger-tips. English, the hybrid language of an island at the western extremity of Europe seems to have an unrivalled position as an international medium of communication. But

historically periods of cultural and economic domination have never lasted forever. Do we not lose something by relying on the wide spread use of English rather than discovering other languages and cultures? As citizens of this shrunken world, would we not be better off if we were able to speak a few languages other than our own? The answer is obviously yes. Certainly Steve Kaufmann thinks so, and in his busy life as a diplomat and businessman he managed to learn to speak nine languages fluently and observe first hand some of the dominant cultures of Europe and Asia. Why do not more people do the same? In his book *The Way of The Linguist*, A language learning odyssey, Steve offers some answers. Steve feels anyone can learn a language if they want to. He points out some of the obstacles that hold people back. Drawing on his adventures in Europe and Asia, as a student and businessman, he describes the rewards that come from knowing languages. He relates his evolution as a language learner, abroad and back in his native Canada and explains the kind of attitude that will enable others to achieve second language fluency. Many people have taken on the challenge of language learning but have been frustrated by their lack of success. This book offers detailed advice on the kind of study practices that will achieve language breakthroughs. Steve has developed a language learning system available online at: www.thelinguist.com.

The Pimsleur® Method teaches speaking and understanding right from the start For almost 50 years, in over 50 languages, the Pimsleur® Method has been recognized by experts worldwide as one of the fastest and most effective ways to learn to speak another language. With Pimsleur you will learn Spanish in the same way you learned your first language as a child, acquiring the vocabulary of the new language, along with the melody, rhythm, and intonation of Spanish as used in everyday conversation. *The Science of Memory* Dr. Paul Pimsleur's research on memory was one of his most significant achievements: he discovered that if reminded of new words and information at gradually increasing intervals of time, the learners would remember the words or information for increasingly longer periods. Dr. Pimsleur documented that the acquisitions would actually move from short-term into long-term, or permanent, memory. The Reading Program Pimsleur Language Programs use the same revolutionary learning Method to teach you to read, as well as to speak. You will start by sounding out Spanish, learning to associate the new sound system to the English alphabet you know. Gradually you will learn to look at the words and see them with "Spanish eyes." And you will learn to read Spanish without an English accent. Learn on the Go! goSpanish makes it easier than ever to use the Pimsleur programs by including the spoken lessons in two audio formats. About Castilian Spanish In the United States, the term Castilian or Castilian Spanish usually refers to the dialect that is the official language of Spain, where it is used in television and radio broadcasts. It is understood throughout the country, although there are marked regional differences. The difference between Castilian Spanish as spoken in Spain and Spanish as spoken in the Americas (now called Latin American Spanish) is due to the diminishing contact between Spain and the Americas over the centuries and to the influence of local languages in the Americas. These two main variants of Spanish are mutually intelligible; the difference between them is comparable to that between British English and American English. Pimsleur's Castilian Spanish teaches the official dialect as spoken by the majority of Spanish-speakers in Spain. Spanish is the official language of twenty-one countries and is one of the six official languages of the United Nations. Spanish is the first language of more than 350 million people, more than any other language except Mandarin Chinese. Furthermore, Spanish is a common second language --- the most studied after English, and the third most commonly used on the Internet after English and Mandarin.
