The state of global mass communication today can be identified through a discussion of key concepts at play. Those concepts are: globalization, media concentration or conglomeration, electronic colonialism, and consumerism. Many of these terms, such as globalization, struggle to have one widely accepted meaning. Global mass communication: pros, cons and what drives it For the sake of simplification in this essay, I shall only restrict myself to the term 'cultural imperialism'. Both these views broadly explain the theoretically cited reasons which advocate the relevance of 'cultural imperialism' in understanding globalisation of Western media firms. 5.2. No, it is not relevant. Understanding globalisation of Western media organisations ... "Cultural imperialism" has been an influential concept in the representation of the modern Christian missionary movement. This essay calls its usefulness into question and draws on recent work on the cultural dynamics of globalization to propose alternative ways of looking at the role of missions in modern history. Beyond Cultural Imperialism: Cultural Theory, Christian ... It first examines how the discourse of globalization has historically moved from cultural imperialism to cultural hybridity. It then attempts to intersect such evolution with issues of gender and race. This essay is theoretically grounded in the intersection of cultural hybridity and postcolonial feminism. It first examines how the discourse of globalization has historically moved from cultural imperialism to cultural hybridity. It then attempts to intersect such evolution with issues of gender and race.
