Of all winter sports, none is so widely watched and commented upon by the media as figure skating, which is often considered the Winter Olympics' centerpiece. This critical text examines the ways in which media attention has gradually altered and affected the sport, from the early appearances of Sonja Henie, to skating's gradual audience growth via television, and to the ramifications of the scandals in the 1994 and 2002 Olympics. The topic is illuminated by more than 30 interviews with commentators, skaters, producers, directors and others. In addition to numerous photos, illustrations show the compulsory figures for which "figure skating" got its name, as well as a sample of the charted-out "camera blocking" for TV directors. Appendices include collected anecdotes from early broadcasting experiences; a profile of broadcaster Jim McKay; and commentary from Carol Heiss on her 1961 musical *Snow White and the Three Stooges*.

Ultimately, the two-time world champions earned the perfect, storybook ending to the sport they have adored since they laced up their first pairs of skates."--

Why Mahler? Why does his music affect us in the way it does? Norman Lebrecht, one of the world's most widely read cultural commentators, has been wrestling obsessively with Mahler for half his life. Following Mahler's every footstep from birthplace to grave, scrutinizing his manuscripts, talking to those who knew him, Lebrecht constructs a compelling new portrait of Mahler as a man who lived determinedly outside his own times. Mahler was—along with Picasso, Einstein, Freud, Kafka, and Joyce—a maker of our modern world. *Why Mahler?* is a book that shows how music can change our lives.

Canada is synonymous with success in figure skating. Taking the Ice tells us about some of the people who have been instrumental in creating the "Ice Dynasty" that we have come to enjoy as Canadians. It all begins with the love affair between Canadians and Barbara Ann Scott, the 1948 Olympic Champion, and the book takes us right up to the stories of the Canadian Champions at the Vancouver 2010 Olympic Games: Patrick Chan, Jessica Dubé and Bryce Davison, Olympic Bronze Medallist Joannie Rochette, and Olympic Champions Tessa Virtue and Scott Moir. Aside from skaters like Cranston, Stojko, Browning, Orser, Magnussen, Manley, Underhill and Martini, and Wilson and McCall, the book talks about the coaches who stood at the boards, including Burka, Galbraith, Leigh, and Perron. You will also get an inside look at choreographers Sandra Bezic, Lori Nichol, and David Wilson. As a PA announcer at the 2002 Olympic Games, Pj Kwong brings thirty seven first-hand personal accounts from people who were there behind the scenes during the judging scandal that rocked the figure skating world. Included are the stories from the athletes Jamie Salé and David Pelletier, coach Jan Ullmark, and NBC radio commentator Elizabeth Manley among many others. *How Tiger Does It* HarperCollins

Apolo Ohno shares his most valuable lessons for overcoming challenges with resilience, creativity, and purpose. In speed skating, a hard pivot is an aggressive shift of direction that requires courage, practice, and split-second timing. For Apolo Ohno, the most frightening hard pivot of his life didn't happen on the ice—but rather, when he had to hang up his skates for good. "After my final Olympics, I felt confused, vulnerable, and adrift without purpose," he says. "Yet that's when I realized my experiences had given me something much more valuable than medals and memories. I had tools I could use to shift my life in a new direction—and most importantly, these were tools anyone could benefit from." With *Hard Pivot*, Apolo combines practical guidance, personal stories, and deep insights from the psychology of success into a resource to help you through challenging times. Here he shares his most valuable lessons and tools, condensed into the Five Golden Principles: • Gratitude: A daily practice to help you maintain perspective, cultivate empathy, and alleviate stress • Giving: How to elevate your life's purpose by offering your time, attention, and resources to others • Grit: Exercises to build mental stamina, resilience, and

toughness to persevere through hard times • Gearing Up: Ways to prepare yourself to meet the unknown with flexibility and grace • Go: Develop the courage to take risks, learn from success and failure, and come back stronger When life drastically changes—whether by choice or circumstance—the hardest part is often letting go of what was familiar and stable. Yet in *Hard Pivot*, Apolo provides the tools and inspiration to create a new life filled with greater purpose, wisdom, and joy. "You can trust yourself," he writes. "You can lean into the curve, pick up momentum, and speed down the track to success. In that pivotal moment, you might even find that you're having the most fun you've ever had. You're in flow. You're enjoying your precious life. And you're winning."

*Skating on Air* Greystone Books Ltd

For fans of Emma Lord and Abbi Glines, Jennifer Iacopelli's swoony, romantic new novel follows elite ice dancer Adriana Russo as she finds herself drawn to both her old dance partner and her new one. Adriana Russo is figure skating royalty. With gold-medalist parents, and her older sister headed to the Olympics, all she wants is to live up to the family name and stand atop the ice dance podium at the Junior World Championships. But fame doesn't always mean fortune, and their legendary skating rink is struggling under the weight of her dad's lavish lifestyle. The only thing keeping it afloat is a deal to host the rest of the Junior Worlds team before they leave for France. That means training on the same ice as her first crush, Freddie, the partner she left when her growth spurt outpaced his. For the past two years, he's barely acknowledged her existence, and she can't even blame him for it. When the family's finances take another unexpected hit, losing the rink seems inevitable until her partner, Brayden, suggests they let the world believe what many have suspected: that their intense chemistry isn't contained to the ice. Fans and sponsors alike take the bait, but keeping up the charade is harder than she ever imagined. And training alongside Freddie makes it worse, especially when pretending with Brayden starts to feel very real. As the biggest competition of her life draws closer and her family's legacy hangs in the balance, Adriana is caught between her past and present, between the golden future she's worked so hard for, and the one she gave up long ago.

*The Never-Ending Present* Penguin

When Olympic figure skating judge Jean Senft blew the whistle on vote trading at the 1998 Nagano Winter Games, she opened the door to an entirely new way of judging. This system, which was developed and adopted following the 2002 Salt Lake City Olympics, is driving the sport in new directions. As skaters are pushed to explore ever-more difficult and dramatic ways of scoring points, they are changing the very nature of figure skating. In *Triumph on Ice*, Senft describes in detail how that new system has led to this new type of skating, which was so thrillingly on display at the 2010 Olympics. See.
