*Or, The Mysteries of Manhattan* Simon & Schuster  
 A collection of some of the most distasteful material published in MAD Magazine.  
*They Called Me Mad* Harry N. Abrams  
 At twenty-three, William Simon Baekeland was well on his way to becoming the world's best traveled person. The "billionaire" heir to a great plastics fortune had already visited 163 countries, but his real passion was finding ways to visit the world's most challenging destinations—war torn cities, disputed territories, and remote or officially off-limits islands at the margins of the map. He earned rock-star status in the world of extreme travel by finding ingenious ways to bring the world's most widely traveled people to difficult-to-reach and forbidden places. But when his story began to unravel, an eccentric group of hyper-well-traveled country collectors were left wondering how they had allowed

their obsession to blind them to the warning signs that William Baekeland wasn't who they thought he was. *Mad Travelers: A Tale of Wanderlust, Greed and the Quest to Reach the Ends of the Earth* delves deep inside the subculture of country collecting, taking readers to danger zones like Mogadishu and geographical oddities like Norway's nearly impossible-to-reach Bouvet Island. Along the way, this raucous tale of adventure and international intrigue illuminates the perils and pleasures of wanderlust while examining a fundamental question: why are some people compelled to travel, while others are content to stay home? *Mad Travelers* is a perceptive and at times hilarious account of how the pursuit of everywhere put the world's greatest travelers at the mercy of a brilliant young con man. Soon to be an HBO documentary.

Journalist Rebecca Traister's New York Times bestselling exploration of the transformative power of female anger and its ability to transcend into a political movement is "a hopeful, maddening compendium of righteous feminine anger, and the good it can do when wielded efficiently—and collectively" (Vanity Fair). Long before Pantsuit Nation, before the Women's March, and before the #MeToo movement, women's anger was not only politically catalytic—but politically problematic. The story of female fury and its cultural significance demonstrates its crucial role in women's slow rise to political power in America, as well as the ways that anger is received when it comes from women as opposed to when it comes from men. "Urgent, enlightened...realistic and compelling...Traister eloquently highlights the challenge of blaming not just forces and systems, but individuals" (The Washington Post). In Good and Mad, Traister tracks the history of female anger as political fuel—from suffragettes marching on the White House to office workers vacating their buildings after Clarence Thomas was confirmed to the Supreme Court. Traister explores women's anger at both men and other women; anger between ideological allies and foes; the varied ways anger is received based on who's expressing it; and the way women's collective fury has become transformative political fuel. She deconstructs society's (and the media's) condemnation of female emotion (especially rage) and the impact of their resulting repercussions. Highlighting a double standard perpetuated against women by all sexes, and its disastrous, stultifying effect, Good and Mad is "perfectly timed and inspiring" (People, Book of the Week). This "admirably rousing narrative" (The Atlantic) offers a glimpse into the galvanizing force of women's collective anger, which, when harnessed, can change history.

A philosophy student's research draws him into the sexual underground of 1980s and early nineties New York John Marr is surprised he doesn't have AIDS. He has been having near-daily

sexual encounters with strange men since before the dawn of HIV, but he remains healthy. His initiation began in the bathroom of the Staten Island Ferry Terminal, and since then he has found himself at home in the darkest corners of Manhattan's culture of anonymous gay sex. During the day, it is a different story, as Marr works on his graduate thesis—an analysis of the work of a brilliant 1970s philosopher who died mysteriously in one of the gay bars of Hell's Kitchen. As his research and his sex life begin to converge, Marr senses that if AIDS doesn't get him, something darker will. The Mad Man, which the author dubbed a "pornotopic fantasy," is more than a powerful work of philosophical erotica; it is a snapshot of a vanished moment in New York City's gay history, when fear and lust commingled in a single powerful force. **Mad** New York Review of Books

This is THE book on anger, the first book to explain exactly why we get mad, what anger really is - and how to cope with and use it. Often confused with hostility and violence, anger is fundamentally different from these aggressive behaviours and in fact can be a healthy and powerful force in our lives. What is anger? Who is allowed to be angry? How can we manage our anger? How can we use it? It might seem like a day doesn't go by without some troubling explosion of anger, whether we're shouting at the kids, or the TV, or the driver ahead who's slowing us down. In this book, the first of its kind, Dr. Ryan Martin draws on 20 years plus of research, as well as his own childhood experience of an angry parent, to take an all-round view on this often-challenging emotion. It explains exactly what anger is, why we get angry, how our anger hurts us as well as those around us, and how we can manage our anger and even channel it into positive change. It also explores how race and gender shape society's perceptions of who is allowed to get angry. Dr. Martin offers questionnaires, emotion logs, control techniques and many other tools to help readers understand better what pushes their buttons and what to do with angry feelings when they arise. It shows how to differentiate good anger from bad anger, and reframe anger from being a necessarily problematic experience in our lives to being a fuel that energizes us to solve problems, release our creativity and confront injustice.

Soon to be a major film from Amazon Studios, the prizewinning French bestseller "In this darkly delightful Gothic treasure, Mas explores grief, trauma, and sisterhood behind the walls of Paris's infamous Salpêtrière hospital." —Paula Hawkins, #1 New York Times bestselling author of *The Girl on the Train* *The Salpetriere Asylum: Paris, 1885*. Dr. Charcot holds all of Paris in thrall with his displays of hypnotism on women who have been deemed mad and cast out from society. But the truth is much more complicated—these women are often simply inconvenient, unwanted wives, those who have lost something precious, wayward daughters, or girls born from adulterous relationships. For Parisian society, the highlight of the year is the Lenten ball—the Madwomen's Ball—when the great and good come to gawk at the patients of the Salpetriere dressed up in their finery for one night only. For the women themselves, it is a rare moment of hope. Genevieve is a senior nurse. After the childhood death of her sister Blandine, she shunned religion and placed her faith in both the celebrated psychiatrist Dr. Charcot and science. But everything begins to change when she meets Eugenie, the 19-year-old daughter of a bourgeois family that has locked her away in the asylum. Because Eugenie has a secret: she sees spirits. Inspired by the scandalous, banned work that all of Paris is talking about, *The Book of Spirits*, Eugenie is determined to escape from the asylum—and the bonds of her gender—and seek out those who will believe in her. And for that she will need Genevieve's help . . .

The ambiance of fin de siècle France imbues these eight gothic tales in the third volume in Lee's Secret Books of Paradys tetralogy, tracing the tortured lives once led by those buried in

the crypts and cemeteries of the mythical (or forgotten) city of Paradys. "The Weasel Bride" twists a folktale about a man who marries an enchanted weasel and dies of her bite into an account of a young husband who kills his beloved bride on their wedding night and takes her dreadful secret to the gallows. The artist in "The Glass Dagger," who normally saves her emotion for her art, is consumed by jealous rage and turns to supernatural revenge when a jaded aristocrat tries an old stratagem to win her love. In "The Moon Is a Mask" a drudge who creates a world of beauty in her garret room steals to buy a mask that turns her into a vampire owl. The miasma of corruption and death, combined with vivid and at times elegiac writing will engross readers who fancy this dark shade of fantasy writing.

Named one of the Ten Best Books About Food of 2018 by Smithsonian magazine *MAD Dispatches: Furthering Our Ideas About Food* Good food is the common ground shared by all of us, and immigration is fundamental to good food. In eighteen thoughtful and engaging essays and stories, *You and I Eat the Same* explores the ways in which cooking and eating connect us across cultural and political borders, making the case that we should think about cuisine as a collective human effort in which we all benefit from the movement of people, ingredients, and ideas. An awful lot of attention is paid to the differences and distinctions between us, especially when it comes to food. But the truth is that food is that rare thing that connects all people, slipping past real and imaginary barriers to unify humanity through deliciousness. Don't believe it? Read on to discover more about the subtle (and not so subtle) bonds created by the ways we eat. *Everybody Wraps Meat in Flatbread: From tacos to dosas to pancakes*, bundling meat in an edible wrapper is a global practice. *Much Depends on How You Hold Your Fork: A visit with cultural historian Margaret Visser* reveals that there are more similarities between cannibalism and haute cuisine than you might think. *Fried Chicken Is Common Ground: We all share the pleasure of eating crunchy fried birds. Shouldn't we share the implications as well?* *If It Does Well Here, It Belongs Here: Chef René Redzepi* champions the culinary value of leaving your comfort zone. *There Is No Such Thing as a Nonethnic Restaurant: Exploring the American fascination with "ethnic" restaurants (and whether a nonethnic cuisine even exists).* *Coffee Saves Lives: Arthur Karulewa* recounts the remarkable path he took from Rwanda to Seattle and back again.

*A History of the Comic Book and Magazine* Penguin

In this compulsively readable debut, set between London and Sicily over one blood-drenched week in the dead of summer, an identical twin reveals the crazy lies and twists she'll go through to not only steal her sister's perfect life, but to keep on living it. Alvie Knightly is a trainwreck: aimless, haphazard, and pretty much constantly drunk. Alvie's existence is made even more futile in contrast to that of her identical and perfect twin sister, Beth. Alvie lives on social media, eats kebabs for breakfast, and gets stopped at security when the sex toy in her carry-on starts buzzing. Beth is married to a hot, rich Italian, dotes on her beautiful baby boy, and has always been their mother's favorite. The twins' days of having anything in common besides their looks are long gone. When Beth sends Alvie a first-class plane ticket to visit her in Italy, Alvie is reluctant to go. But when she gets fired from the job she hates and her flatmates kick her out on the streets, a luxury villa in glitzy Taormina suddenly sounds more appealing. Beth asks Alvie to swap places with her for just a few hours so she can go out unnoticed by her husband. Alvie jumps at the chance to take over her sister's life--if only temporarily. But when the night ends with Beth dead at the bottom of the pool,

Alvie realizes that this is her chance to change her life. Alvie quickly discovers that living Beth's life is harder than she thought. What was her sister hiding from her husband? And why did Beth invite her to Italy at all? As Alvie digs deeper, she uncovers Mafia connections, secret lovers, attractive hitmen, and one extremely corrupt priest, all of whom are starting to catch on to her charade. Now Alvie has to rely on all the skills that made her unemployable--a turned-to-11 sex drive, a love of guns, lying to her mother--if she wants to keep her million-dollar prize. She is uncensored, unhinged, and unforgettable.
