The Earth Child's Handbook - Book 1

Destiny Books

Uplifting and inspiring, it explores eight Celtic festivals, how they were celebrated and understood in the past, the underlying changing energy of the Earth, and the ways we may use this energy to create meaningful celebrations for today to deepen our connection to the Earth and our fellow human beings.

Placing Native American spirituality in the

context of the world's great religions, Sacred Earth contrasts contemporary society's arrogant belief in its own power with native traditions of reverence for the earth. This eye-opening journey through the terrain of Native American spirituality is an urgent call to rediscover and become firmly grounded on the sacred earth again. Adults have a wide array of books to help explore earth-based spirituality. But what if they want to include their children? Here is a handbook to help parents, caregivers, teachers, and counselors create meaningful spiritual experiences that will inspire children of all ages. The ideas, suggestions, and activities collected here show how to bring children into rituals that celebrate seasonal cycles and help reclaim the spiritual roots of today's modern holidays. With surprisingly little effort, earth-centered activities and rituals can be incorporated into simple daily routines. Part 1, "Handbook for Earth-Connected Parenting," gives techniques for developing a child's inner wisdom and sense of the sacred: dream journals, visualization, Tarot play, talismans, and interactions with the natural world Part 2 is a guide to the specific seasonal festivals, and offers a comprehensive collection of practical and enjoyable ways to celebrate the sacred days of our ancestors. Make a bean rune divination system, gather smudge sticks, grow grass pots, assemble a "dream pillow," create altars the authors offer easy-to-follow suggestions. Includes suggested reading

and resource sections for locating additional information and materials for creative projects.

This deluxe softcover journal features 220 pages of cream-coloured premium quality wood-free paper, with a combination of lined and unlined pages to accommodate all facets of your self-expression - you may like to write, paint, muse, scribble or sketch. These 13 workshop-based papers critique ecofeminist assumptions about traditional societies viewing women as closer to nature and more spiritual than men. Following an overview by Low (history, Open U.) and Tremayne (social and cultural anthropology, U. of Oxford), the first contribution frames the debate over gender politics and environmentalism. Next, case studies illustrate sacred landscape (not intrinsically ecologically-oriented) in such societies past and present. Part III treats nature and gender in several major world religions. The final paper discusses contemporary paganism's quest for wholeness. The cover title reads *Women as sacred custodians of the earth?* Annotation copyrighted by Book News, Inc., Portland, OR

#1 NEW YORK TIMES BESTSELLER • In this, the extraordinary conclusion of the ice-age epic series, *Earth's Children®*, Ayla, Jondalar, and their infant daughter, Jonayla, are living with the Zelandonii in the Ninth Cave. Ayla has been chosen as an acolyte to a spiritual leader and begins arduous training tasks. Whatever obstacles she faces, Ayla finds inventive ways to lessen the difficulties of daily life, searching for wild edibles to make meals and experimenting with techniques to ease the long journeys the Zelandonii must take while honing her skills as a healer and a leader. And there are the Sacred Caves that Ayla's mentor takes her to see. They are filled with remarkable paintings of mammoths, lions, and bears, and their mystical aura at times overwhelms Ayla. But all the time Ayla has spent in training rituals has caused Jondalar to drift away from her. The rituals themselves bring her close to death, but through them Ayla gains A Gift of Knowledge so important that it will change her world. BONUS: This edition contains a reading guide and an interview with Jean M. Auel. Sixth in the acclaimed *Earth's Children®* series.

In 1865 a French priest was visited by a small group of Japanese at his newly built church in Nagasaki. They were descendants of Japan's first Christians, the survivors of brutal religious persecution under the Tokugawa government. The Kakure Kirishitan, or "hidden Christians," had practiced their religion in secret for several hundred years. Sometime after their visit the priest received a copy of the Kakure bible, the Tenchi Hajimari no Koto, "Beginning of Heaven and Earth," an

intriguing amalgam of Bible stories, Japanese fables, and Roman Catholic doctrine. Whelan offers a complete translation of this unique work accompanied by an illuminating commentary that provides the first theory of origin and evolution of the Tenchi. Today, the few Kakure Kirishitan communities still in existence view the Tenchi as strange and flawed, expressing a distorted form of Christianity. It is, however, the only text produced by the Kakure Kirishitan that depicts their highly syncretistic tradition and provides a colorful window through which to examine the dynamics of religious acculturation.

For the ancient Druids, the healing and magical properties of herbs were inseparable from the larger cycles of the seasons, the movements of the planets, and the progression of a human life. A Druid's Herbal shows the reader how to use herbs when creating rituals to celebrate festivals and significant life passages such as births, house blessings, weddings, funerals, and naming ceremonies. Drawing on extensive research and a deep personal experience with Pagan traditions, Ellen Evert Hopman explores the history and folklore surrounding the eight major Celtic festivals: Samhain, Winter Solstice, Imbolc, Spring Equinox, Beltaine, Summer Solstice, Lughnasad, and Fall Equinox. Included in each discussion are complete instructions on the medicinal and magical uses of the herbs associated with each celebration. Using these Celtic traditions as examples, the author suggests ways to incorporate the symbolic and magical power of herbs into personal rituals that honor all phases of life from childbirth to last rites. Also included are chapters on

how to prepare herbal tinctures, salves, and poultices; herbs used by the Druids; herbal alchemy and the planets; and the relationships between herbs and sacred places. Filled with practical information and imaginative suggestions for using herbs for healing, ceremony, and magic, this book is an indispensable and comprehensive guide to age-old herbal practices.

Celebrating the Great Mother

Berghahn Books

A leading spiritual teacher reveals how Celtic spirituality—listening to the sacred around us and inside of us—can help us heal the earth, overcome our conflicts, and reconnect with ourselves. John Philip Newell shares the long, hidden tradition of Celtic Christianity, explaining how this earth-based spirituality can help us rediscover the natural rhythms of life and deepen our spiritual connection with God, with each other, and with the earth. Newell introduces some of Celtic Christianity's leading practitioners, both saints and pioneers of faith, whose timeless wisdom is more necessary than ever, including: Pelagius, who shows us how to look beyond sin to affirm our

sacredness as part of all God's creation, and courageously stand up for our principles in the face of oppression. Brigid of Kildare, who illuminates the interrelationship of all things and reminds us of the power of the sacred feminine to overcome those seeking to control us. John Muir, who encourages us to see the holiness and beauty of wilderness and what we must do to protect these gifts. Teilhard de Chardin, who inspires us to see how science, faith, and our future tell one universal story that begins with sacredness. By embracing the wisdom of Celtic Christianity, we can learn how to listen to the sacred and see the divine in all of creation and within each of us. Human beings are inherently spiritual creatures who intuitively see the sacred in nature and within one another, but our cultures—and at times even our faiths—have made us forget what each of us already know deep in our souls but have learned to suppress. Sacred Earth, Sacred Soul offers a new spiritual foundation for our lives, once centered on encouragement, guidance, and hope for creating a better world.
