The Power of Knowing What You Don't Know Mango Media Inc.
"The Bestselling Hardcover Novel of the Year."--Publishers Weekly
From the number-one bestselling author of *The Nightingale* and *The Great Alone* comes a powerful American epic about love and heroism and hope, set during the Great Depression, a time when

the country was in crisis and at war with itself, when millions were out of work and even the land seemed to have turned against them. "My land tells its story if you listen. The story of our family." Texas, 1921. A time of abundance. The Great War is over, the bounty of the land is plentiful, and America is on the brink of a new and optimistic era. But for Elsa Wolcott, deemed too old to marry in a time when marriage is a woman's only option, the future seems bleak. Until the night she meets Rafe Martinelli and decides to change the direction of her life. With her reputation in ruin, there is only one respectable choice: marriage to a man she barely knows. By 1934, the world has changed; millions are out of work and drought has devastated the Great Plains. Farmers are fighting to keep their land and their livelihoods as crops fail and water dries up and the earth cracks open. Dust storms roll relentlessly across the plains. Everything on the Martinelli farm is dying, including Elsa's tenuous marriage; each day is a desperate battle against nature and a fight to keep her children alive. In this uncertain and perilous time, Elsa—like so many of her neighbors—must make an agonizing choice: fight for the land she loves or leave it behind and go west, to California, in search of a better life for her family. *The Four Winds* is a rich, sweeping novel that stunningly brings to life the Great Depression and the people who lived through it—the harsh realities that divided us as a nation and the enduring battle between the haves and the have-nots. A testament to hope, resilience, and the strength of the human spirit to survive adversity, *The Four Winds* is an indelible portrait of America and the American dream, as seen through the eyes of one indomitable woman whose courage and sacrifice will come to define a generation.

Fear Is Fuel Random House

Internationally renowned author, Susan Jeffers, has helped millions of people round the globe to overcome their fears and heal the pain in their lives. The Art of Fear Random House

Fear, the most powerful force in our life, is the least understood. Every one of us experiences it. Many arrange their lives to avoid it. Yet nearly every one of us needs to find more fear. Most of us know fear as the unwanted force that drives phobias, anxieties, unhappiness, and inhibits self-actualization. Ironically, fear is the underlying phenomenon that heightens awareness and optimizes physical performance, and can drive ambition, courage, and success. Harnessing fear can heighten emotional intelligence and bring success to every aspect of your life. Neuroscience and current research on how the brain processes and uses fear have torn the lid off the possibilities of human performance; yet most people are not reaching their complete potential because of a psychological roadblock Sweeney calls the Fear Frontier. Identifying your Fear Frontier and addressing it, Sweeney illustrates in these pages, is the path to success, happiness and fulfillment in almost all aspects of your life. He also provides the most effective steps toward rewiring your mind for a healthier longer life based on courage. *Fear is Fuel* is a practical guide that instructs everyday readers, business & military leaders, activists, humanitarians, and educators on a unique path toward translating fear into optimal living. By facing fears, and challenging new ones, readers can harness the power of unique motivations to achieve more, experience more, and enjoy more. The path to a fulfilling life is not to avoid fear but to recognize it, understand it, harness it, and unleash its power.

From New York Times bestselling author and former Navy SEAL Brandon Webb comes a simple yet powerful five-step guide to transforming your life by making your fears work for you instead of against you. Brandon Webb has run life-threatening missions in the world's worst trouble spots, whether that meant jumping out of airplanes, taking down hostile ships on the open sea, or rolling prisoners in the dead of night in the mountains of Afghanistan. As a Navy SEAL, he learned how to manage the natural impulse to panic in the face of terrifying situations. As media CEO and national television commentator, he has learned how to apply those same skills in civilian life. Drawing on his experiences in combat and business, along with colorful anecdotes from his vast network of super-achiever friends from astronauts to billionaires, Webb shows how people from all walks of life can stretch and transcend their boundaries and learn to use their fears as fuel to achieve more than they ever thought possible. "Fear can be a set of manacles, holding you prisoner," writes Webb. "Or it can be a slingshot, catapulting you on to greatness." The key, says Webb, is not to fight fear or try to beat it back, but to embrace and harness it. In the process, rather than being your adversary, your fear becomes a secret weapon that allows you to triumph in even the most adverse situations. In *Mastering Fear*, Webb and his bestselling coauthor John David Mann break this transformation down into five practical steps, creating a must-read manual for anyone looking for greater courage and mastery in their lives.

Feel The Fear & Beyond Shambhala Publications

We all want to be liked or loved and feel close to our partners, friends and colleagues. What we don't always know is how to make that connection. In this empowering book, Susan Jeffers gives us the insights and tools we need to end our loneliness and create a sense of belonging everywhere we go. *Dare to Connect* is for everyone who has ever asked: Why do I feel so nervous when I walk into a room full of strangers? Why do I feel lonely, even though I'm surrounded by people? Why do I feel so alienated from

my husband/wife/lover? Why is it the hardest to approach the person I'm most interested in meeting? With wisdom and humor, Susan Jeffers shows you how to enjoy the wonderful relationships you deserve. *Dare to Connect* takes the reader on a powerful journey from fear and alienation to love and empowerment. I highly recommend it." -- Dr. Susan Forward, author of *Toxic Parents, Men Who Hate Women and the Women Who Love Them* and *Emotional Blackmail* "A book that we can all benefit from." -- Louise L. Hay

The Fear Project Penguin

What is the one quality that all successful people have in common? They have mastered the art of dealing with people! Let this book show you how to: Achieve your goals Handle the human ego Become a master conversationalist Make others feel good about themselves And much more! Skill with people is the one essential ingredient for success and happiness at home and in business. "The Art of Dealing With People" gives you the skills to take your people skills to a level that you never thought possible! Skill in human relations is similar to skill in any other field, in that success depends on understanding and mastering certain basic general principles. You must not only know what to do, but why you're doing it. As far as basic principles are concerned, people are all the same. Yet each individual person you meet is different. If you attempted to learn some gimmick to deal successfully with each separate individual you met, you would be face with a hopeless task. Influencing people is an art, not a gimmick. When you apply gimmicks in a superficial, mechanical manner, you go through the same motions as the person who "has a way," but it doesn't work for you. The purpose of this book is to give you knowledge based upon an understanding of human nature: why people act the way they do. The methods presented in this book have been tested on thousands of people who have attended my human relations seminars. They are not just my pet ideas of how you should deal with people, but ideas that have stood the test of how you must deal with people. That is, if you want to get along with them and get what you want at the same time. Yes, we all want success and happiness. And the day is long past, if it ever existed, when you could achieve these goals by forcing people to give you what you want. And begging is no better, for no one has respect for, or any desire to help, the person who constantly kowtows and literally goes around with his hand out, begging

other people to like him. The one successful way to get the things you want from life is to acquire skill in dealing with people.

Every time we eat, we have the power to radically transform the world we live in. Our choices can help alleviate the most pressing

issues we face today: the climate crisis, infectious and chronic diseases, human exploitation and, of course, non-human exploitation. Undeniably, these issues can be uncomfortable to learn about but the benefits of doing so cannot be overstated. It is quite literally a matter of life and death. Through exploring the major ways that our current system of animal farming affects the world around us, as well as the cultural and psychological factors that drive our behaviours, *This Is Vegan Propaganda* answers the pressing question, is there a better way? Whether you are a vegan already or curious to learn more, this book will show you the other side of the story that has been hidden for far too long. Based on years of research and conversations with slaughterhouse workers and farmers, to animal rights philosophers, environmentalists and everyday consumers, vegan educator and public speaker Ed Winters will give you the knowledge to understand the true scale and enormity of the issues at stake. *This Is Vegan Propaganda* is the empowering and groundbreaking book on veganism that everyone, vegan and sceptic alike, needs to read.
