A Survivor's Story: The Biography of Miss Eva Hart Bloomsbury Publishing USA
As the Titanic and her passengers sank slowly into the Atlantic Ocean after striking an iceberg late in the evening of April 14, 1912, a nearby ship looked on. Second Officer Herbert Stone, in charge of the midnight watch on the SS Californian sitting idly a few miles north, saw the distress rockets that the Titanic fired. He alerted the captain, Stanley Lord, who was sleeping in the chartroom below, but Lord did not come to the bridge. Eight rockets were fired during the dark hours of the midnight watch, and eight rockets were ignored. The next morning, the Titanic was at the bottom of the sea and more than 1,500 people were dead. When they learned of the extent of the tragedy, Lord and Stone did everything they could to hide their role in the disaster, but pursued by newspapermen, lawyers, and political leaders in America and England, their terrible secret was eventually revealed. *The Midnight Watch* is a fictional telling of what may have occurred that night on the SS Californian, and the resulting desperation of Officer Stone and Captain Lord in the aftermath of their inaction. Told not only from the perspective of the SS Californian crew, but also through the eyes of a family of third-class passengers who perished in the disaster,

the narrative is drawn together by Steadman, a tenacious Boston journalist who does not rest until the truth is found. David Dyer's *The Midnight Watch* is a powerful and dramatic debut novel--the result of many years of research in Liverpool, London, New York, and Boston, and informed by the author's own experiences as a ship's officer and a lawyer.

THE DEFINITIVE EXPLORATION OF THE MYTHS SURROUNDING THE TITANIC DISASTER.

Titanic's Last Secrets Harper Collins
'Fresh and valuable... Mr Padfield knows what he is writing about...with a knowledge and devotion displayed by no previous writer.' Times Literary Supplement 'This is not just another book on the Titanic but a fascinating revelation.' Birmingham Post 'The fascination of a closely reasoned detective story, and every landlubber should be able to follow it.' Daily Telegraph 'The story compels.' The Times 'An angry, exciting, vivid book. It may shake or shock, but never bore... decidedly one to remember.' Lloyds' List 'Admirable piece of detective work and reasonable speculation.' Books and Bookmen 'A dramatic and excellently told story.' The Book Society 'Mr. Padfield is justified in questioning the findings of the Mersey Inquiry.' Capt. Stephen Roskill, The Sunday Telegraph 'Mr. Padfield's book succeeds in clearing Lord's name of culpability.' Capt. S.W.C. Palk, The Navy 'It is a pity that Captain

Lord did not live to read this splendid vindication... Padfield's magnificent analysis.' New Zealand Herald 'The night was clear and the sea was smooth. When she first saw the rockets the Californian could have pushed through the ice to the open water... and so have come to the assistance of the Titanic. Had she done so she might have saved many if not all of the [more than 1,500] lives lost.' This damning censure was handed down to Captain Lord of the Californian by the British Court of Inquiry into the loss of the Titanic. Lord was refused an appeal and was never charged under the Merchant Shipping Act for such a clear dereliction of duty, so never had an opportunity to defend himself. This book, first published in 1965, two years after Lord's death, was the first to question his censure. The evidence given in Court had convinced the author, Peter Padfield, that the Californian was never close enough to the Titanic to recognise her distress signals or attempt rescue. Twenty years later he was vindicated by the discovery of the wreck of the Titanic some 20 miles from the Californian's logged position that night. He remains convinced that the Inquiry was 'rigged' and Lord scapegoated to preserve the reputation of British liner companies and the responsible government department, the Board of Trade.

A Survivor's Story: The Biography of Miss Eva Hart, MBE, JP Frontline Books

In the early hours of 15 April 1912, after the majestic liner Titanic had split apart and the 1,500 men, women and children struggled to stay alive in the freezing Atlantic, the sea was alive with the sound of screaming. Then, as the ship sank to the ocean floor and the passengers slowly died from hypothermia, a deathly silence settled

over the sea. Yet the echoes of that night reverberated through the lives of each of the 705 survivors. SURVIVING THE TITANIC tells the extraordinary stories of some of those who survived. Although we think we know the story of the Titanic - the famously unsinkable ship that hit an iceberg on its maiden voyage from Britain to America in April 1912 - little has been written about what happened to the survivors after the tragedy. How did the loss of the ship shape the lives of the people who survived? How did those who were saved feel about those who perished? And how did they remember that terrible night, in effect a disaster that has been likened to the destruction of a small town? Timed to coincide with the 100th anniversary of the sinking, SURVIVING THE TITANIC will shed new light on this enduringly fascinating story by showing how the disaster continued to shape the lives of a cross-section of passengers who escaped the sinking ship.

The Midnight Watch Crown

Books have been written, films made, we have raised the Titanic and watched her go down again on numerous occasions, but out of the wreckage Frances Wilson spins a new epic: when the ship hit the iceberg on 14 April 1912 and a thousand men prepared to die, J Bruce Ismay, the ship's owner and inheritor of the White Star fortune, jumped into a lifeboat with the women and children and rowed away to safety. Accused of cowardice, Ismay became, according to one headline, 'The Most Talked-of Man in the World'. The first victim of a press hate campaign, his reputation never recovered and while other survivors were piecing together their accounts, Ismay never spoke of his beloved ship again. With the help of that great narrator of the sea, Joseph Conrad, whose Lord Jim so uncannily predicted

Ismay's fate - and whose manuscript of the story of a man who impulsively betrays a code of honour and lives on under the strain of intolerable guilt went down with the Titanic - Frances Wilson explores the reasons behind Ismay's jump, his desperate need to make sense of the horror of it all, and to find a way of living with lost honour. For those who survived the Titanic the world was never the same again. But as Wilson superbly demonstrates, we all have our own Titanics, and we all need to find ways of surviving them.

The Titanic's First-Class Passengers and Their World Skyhorse

Colonel Archibald Gracie IV, an American writer, amateur historian, and member of New York's prominent Gracie family, boarded the Titanic as a first-class passenger on his return trip home from a visit in Europe. In the fateful early morning hours of April 15, Gracie assisted Second Officer Lightoller in freeing the collapsible lifeboats before he scrambled atop overturned Collapsible "B" to avoid being pulled down by the undertow of the sinking ship. Gracie survived the harrowing night atop the lifeboat and returned to New York aboard the Carpathia, beginning work on an account of his Titanic experience upon his arrival home. Published shortly after Gracie's death in December 1912 (his health never recovered after the calamity), "The Truth About the Titanic" remains one of the most popular accounts of the sinking for its painstaking detail.

A Life of Patricia Highsmith Simon and Schuster

This is one of the first and most famous books published after the sinking of the Titanic, and contains much material from contemporary newspaper accounts. It was written by Logan Howard-Smith (under the pen name of Logan Marshall), an editor who specialized in the rapid publication of books about current events. For this book, his crowning achievement, the initial print run was for no fewer than 110,000 copies. The publisher achieved this by running 11 presses simultaneously, and the books were then sold door-to-door across America for a dollar apiece. Although Marshall's own description of the sinking is melodramatic and sensationalistic, the many verbatim interviews with survivors of the disaster have stood the test of time, and are often cited in Titanic literature.

The original 1912 news accounts of the Titanic disaster include the first-hand accounts of survivors as told to reporters who met the ship bringing them from where they were saved from lifeboats. The surviving crew describes the crucial moments after the ship hit the iceberg. Teachers across America buy this book citing the original sources detailed that enable them to teach a lesson on the Titanic.

The Story of the Titanic As Told by Its Survivors Rowman & Littlefield

From the acclaimed and award-winning author of *The Hunger* comes a haunting

psychological twist on one of the world's most renowned tragedies, the sinking of the Titanic and the ill-fated sail of its sister ship, the Britannic. Someone, or something, must be haunting the ship. Between mysterious disappearances and sudden deaths, the guests of the Titanic have found themselves suspended in an eerie, unsettling twilight zone from the moment they set sail. Several of them, including maid Annie Hebley, guest Mark Fletcher, and millionaires Madeleine Astor and Benjamin Guggenheim, are convinced there's something sinister--almost otherworldly--afoot. But before they can locate the source of the danger, as the world knows, disaster strikes. Years later, Annie, having survived that fateful night, is working as a nurse on the sixth voyage of the Titanic's sister ship, the Britannic, newly refitted as a hospital ship. When she happens across an unconscious Mark, now a soldier fighting in World War I. At first, Annie is thrilled and relieved to see he survived the sinking. But soon, Mark's presence awakens deep-buried feelings and secrets, forcing Annie to reckon with the demons of her past--as they both discover that the terror may not yet be over. Brilliantly combining the supernatural with the height of historical disaster, *The Deep* is an exploration of love and destiny, desire and innocence, and, above all, a quest to understand how our choices can lead us inexorably toward our doom.

Titanic Survivor Regnery History

On 15 April 2012, it will be 100 years since the Titanic sank. Since that fateful night, stories about the sinking have become legendary - how the band played to the end, how lifeboats were lowered half-empty - but amongst the films, novels and academic arguments, only those who were there can separate truth from fiction. After the sinking, inquiries into the loss of 1,517 lives (out of 2,223 aboard) were held in both the UK and US. The proceedings produced 1,000 pages of transcripts. Some of the testimonies were inevitably less than impartial, but as a whole the transcripts represent the most thorough and complete account of the sinking, told in the voices of those who were there. For the first time these transcripts have been specially edited and arranged chronologically, so that they tell the story of the Titanic's sinking as a narrative, rather than a list of questions and answers in a courtroom. The witnesses are transformed into

characters in a much bigger story, and the events are described from different perspectives of people in every part of the ship, from a stoker in the boiler room escaping his section before the watertight doors sealed behind him, to first class passengers trying to buy their way onto lifeboats. Capturing the disbelief, the chaos and the terror of the disaster, this unique book brings to life the tragedy through the voices of those who survived it.
