From the duo behind the massively
successful and award-winning podcast
Stuff You Should Know comes an
unexpected look at things you thought you
knew. Josh Clark and Chuck Bryant started
the podcast Stuff You Should Know back in
2008 because they were curious—curious
about the world around them, curious
about what they might have missed in
their formal educations, and curious to dig
deeper on stuff they thought they
understood. As it turns out, they aren't the
only curious ones. They've since amassed
a rabid fan base, making Stuff You Should
Know one of the most popular podcasts in

the world. Armed with their inquisitive
natures and a passion for sharing, they
uncover the weird, fascinating, delightful,
or unexpected elements of a wide variety
of topics. The pair have now taken their
near-boundless "whys" and "hows" from
your earbuds to the pages of a book for
the first time—featuring a completely new
array of subjects that they've long
wondered about and wanted to explore.
Each chapter is further embellished with
snappy visual material to allow for rabbit-
hole tangents and digressions—including
charts, illustrations, sidebars, and
footnotes. Follow along as the two dig into
the underlying stories of everything from
the origin of Murphy beds, to the history of
facial hair, to the psychology of being lost.

Have you ever wondered about the world around you, and wished to see the magic in everyday things? Come get curious with *Stuff You Should Know*. With Josh and Chuck as your guide, there's something interesting about everything (...except maybe jackhammers).
