You never forget your first... Sam Richards was Amber DuBois's first crush, first kiss and first love. Until he broke her heart and left town. Now older and wiser, world-famous concert pianist Amber is at a crossroads in her life. But the sweetheart who spurned her is back—hotter, richer and in need of a favor! Glamour, romance and old heartaches resurface, but will her first crush stand the test of time? Look for

the second book in this trilogy by Nina Harrington Last-Minute Bridesmaid Extra bonus: included is *The Wedding Dress Diaries* by Aimee Carson, the prequel to our fab new quartet!

The Cloud Chaser I. B. Tauris

Winner of the 2013 Women's Prize for Fiction—A darkly comic novel of twenty-first-century domestic life by a writer who is always “compelling, devastating, and furiously good” (Zadie Smith) Harold Silver has spent a lifetime watching his younger brother, George, a taller, smarter, and more successful high-flying TV executive, acquire a covetable wife, two kids, and a

beautiful home in the suburbs of New York City. But Harry, a historian and Nixon scholar, also knows George has a murderous temper, and when George loses control the result is an act of violence so shocking that both brothers are hurled into entirely new lives in which they both must seek absolution. Harry finds himself suddenly playing parent to his brother's two adolescent children, tumbling down the rabbit hole of Internet sex, dealing with aging parents who move through time like travelers on a fantastic voyage. As Harry builds a twenty-first-century family created by choice rather than biology, we become all the more aware of the ways in which our history, both personal and political, can become our destiny and either compel us to repeat our errors or be the catalyst for change. *May We Be Forgiven* is an unnerving, funny tale of unexpected intimacies and of how one deeply fractured family might begin to put itself back together. *First Aid for Animals* Createspace Independent Publishing Platform RESILIAâ„† Cyber Resilience Best Practices offers a practical approach to cyber resilience, reflecting the need to detect

and recover from incidents, and not rely on prevention alone. It uses the ITILÂ® framework, which provides a proven approach to the provision of services that align to business outcomes.

A Novel Courier Corporation

To work with and pose a 5- to 10-day-old infant demands special skills, keeping the child safe and the new parents comfortable, while capturing the subject's raw and natural beauty.

A New Christ novum pro Verlag

Adam Brown, a British army Major in command of security for the British embassy in Beijing, learns of an impending Chinese nuclear strike against America. As all communications are compromised, Adam makes a coded call home for extraction - but as the flight he is sharing with a party of schoolgirls and their teachers crosses the Pacific, the clock runs out and IT happens. As a result the plane makes a forced landing onto a deserted island and they all have to work hard, not just to survive and to establish a new home, but to face up to the reality that it is in their hands to either die out or to make a future for themselves and humanity.

DC Special (1968-) #29 Simon and Schuster

Interaction between the Muslim World and the West stretches back centuries and, although the points of conflict are well known, the exchange of knowledge and cultural awareness has hitherto been mostly neglected. Islam and the West takes inspiration from the so-called 'Golden Age' of Christian-Muslim relations which existed over seven centuries in the geographic area known as Al-Andalus or Moorish Spain. The book seeks to move away from analysis which sees Islam and the West on a path towards inevitable conflict and violence. It identifies how relations between the West and the Muslim world have developed since the eighth century and how modern-day community leaders can learn from the experience of the 'Andalusian' model. Highlighting where mutual interests meet and diverge and examining the prospects for peaceful co-existence, this book is vital for those researching inter-cultural awareness, European and Islamic history, contemporary international relations, media and education.

Vincenzo Gonzaga and Renaissance

Medicine Pickle Partners Publishing Alcohol and Carbohydrates are very similar chemically, and very likely cause the same allergy of the body and obsession of the mind as with the disease of alcoholism. If alcoholics are able to abstain from a substance they thoroughly craved, abstain for the rest of their lives and learn how to totally enjoy life without it, so can carbohydrate addicts. This book is another of a series of books written anonymously that demonstrate how the principles of spirituality and democracy designed by Bill Wilson, co-founder of Alcoholics Anonymous, can be used outside their anonymous organization for the betterment of our society. However, the principles set down in this book are more austere and the participant will be asked to go to very rigorous lengths to achieve recovery, awaken spiritually and maintain a spiritual experience in this life. The methods described within are designed for people who are desperate, hopeless and have nowhere else to turn to. The goal of using this recovery program for the individual is not only to achieve freedom from a high carbohydrate diet, but to achieve a spiritual awakening

so that your life can become pleasant, peaceful, happy, and sane.
Baby Don't Smoke DC Comics
 Chicago is known for many things: jazz, Al Capone, being the windy city. But it is also home to one of the world's most haunted cemeteries, Bachelor's Grove, and, fittingly, Rick Hale, a master paranormal investigator and scholar of all things haunted. This is his account of how he became interested in the spookier side of life, which all started with an encounter with an innocuous spirit in his grandmother's home. Read all about his adventures battling dark entities, helping the perplexed at a loss at what to do with their resident ghosts, meeting the ghosts at the Stanley Hotel, aka The Overlook to horror movie buffs, finding out about alien abduction and many more unnerving encounters. To find out what it takes to not only be a ghost hunter, but ultimately, how one man dealt with one of the biggest challenges life threw at him, open this book and be prepared for a bumpy ride!

 Penguin
 Orphaned as a toddler and homeless from

an early age, Russ Hudson started selling marijuana while living on the streets at age 14. By 21, he was smuggling weed from Mexico to New England, and by his thirties, Hudson was brokering cannabis deals for major international players in the industry. This book chronicles Hudson's marijuana-centric life, following him through his years of street-level dealing, narrow escapes from authorities, time spent in juvenile detention centers and jail, his frustrations and joys of growing marijuana, and his ascent through the world of cannabis to become one of the world's most well-known and trusted consultants in the field. Hudson's extraordinary life is proof that even the most downtrodden, luckless person can accomplish the impossible. An intense, fast-paced ride, this book is the unforgettable account of how one man journeyed from seed to sage.

The Hidden Inheritance Createspace Independent Publishing Platform
 Popular novelist and Countess of Gorham Marina Wyatt knows her public scandals help sell her romances. Her latest novel coincides with the arrival of her lover's uncle, Jasper James Hedges—an antiquarian

who sees a priceless work of art in Marina. For all of her passionate works, none compare to the erotic adventure that Jasper promises...

Blind Vision Createspace Independent Publishing Platform
Educational achievement carries more importance than ever in the 21st century. According to academic research, teacher quality plays the most vital role in raising achievement among all K-12 students, so improving teacher quality will lead to both greater student outcomes and greater prosperity for individuals and the whole of society. *The Handbook for Embedded Formative Assessment* makes the case that incorporating formative assessment into daily classroom practice raises teacher quality and enhances student learning to help all parties meet the evolving demands of society. As a companion to *Embedded Formative Assessment, Second Edition* (William, 2018), this book has one main purpose: to help teachers develop the practice of formative assessment in classrooms by providing tried-and-tested classroom formative assessment techniques and giving evidence that shows how these

techniques positively impact student achievement. Grades K-12 teachers can choose from these techniques, try them out in the classroom, and modify them to meet their specific needs. However, *The Handbook for Embedded Formative Assessment* can also act as a stand-alone book, sharing highlights from *Embedded Formative Assessment* as necessary before leading straight to the how-tos of classroom formative assessment.

The Handbook for Embedded Formative Assessment Xlibris Corporation
Bringing together a range of leading academics and experts on social democratic politics and policy, *Why the Left Loses* offers an international, comparative view of the changing political landscape, examining the degree to which the centre-left project is exhausted and is able to renew its message in a neo-liberal age.

What's That Weed? The Hidden Inheritance
Beginning in New Orleans, Peter Jenkins continues his walk across America--with his bride Barbara. Lavishly illustrated with 48 pages of full-color and black-and-white photos, here is the story of the journey

that captured a nation's heart, now available for the first time in trade paperback.

The consequences of drug use, whether illicit or prescribed. Consequences that can be enduring, lifelong, even carry through generations. Yet few of us have the time to consider them as we live in the heat of our own daily lives. I have seen this in action, watched events while they happened, seen it unfold, lived through the results, and unfortunately am observing the ongoing calamities of it all, still today. It is not fun to watch but not mine to fix. I was and am an observer, a recorder, merely that, out of the action, incapable of altering the results. My wife made a great point on this novel's subject. Drug use she said is a leveler. It brings people down the lowest common

denominator. What a concept! How right on is that statement! Drugs affect the rich, the poor, the famous, and the infamous in every country and nationality on this earth. If you are on the upscale end drugs keep you there. The user's life contribution to humanity is likely to be nothing, but the cost to the user, their family and friends in physical, emotional, and fiscal terms expensive and of course dangerous, because it may also kill you. I have put these observations into this novel hoping that readers can identify with the characters, watch them grow and suffer through the consequences of their actions unaware of the effect of their lives and on others.

Eating Wildly Policy Press

Baby Don't Smoke is an exciting, information-rich and colorful graphic novel of a teenage Latina girl named Maria who lives in East Los Angeles with her mother, boyfriend and their newborn. She is led through a series of dramatic encounters with sinister and friendly characters which climax in a surprise ending, leaving her with the resolve to quit smoking forever. The findings against cigarette use haven't been new or remarkable for years. What is

remarkable is the continued allure of smoking despite its obvious dangers. Since badgering and many forms of education about the obvious health concerns caused by smoking haven't eliminated the problem, Baby Don't Smoke takes a different approach. It encourages teens to rebel! In this case, against the cigarette companies who entice them into addiction and ill-health, and thus contribute to the illness of their infants and children. "We give people a pre-packaged, cool, rebellious identity when they can't create one for themselves," scoffs Doris, the novel's seductive and brilliant villainess who controls Tobacco Empire. When protagonist Maria, a pregnant teen, responds with sarcasm, "You must be very proud," Doris counters menacingly, "I'm not proud, I'm rich." Baby Don't Smoke presents hard evidence of the dangers of smoking in an imaginative, edgy, and readable format. Author Everett Jaime, an Hispanic American writer and artist, directs his short graphic novel to young parents and pregnant teens, and their social network of friends and family. Contemporary illustrations by Eliot R.

Brown, with previous publications for Marvel Comics, skillfully drives home the message. The approach is perfectly suited to its target market-ethnic teens and pre-teens-without ever patronizing them. Baby Don't Smoke will appeal to • library Markets, especially High Schools & Junior Highs, and to Health Educators, and agencies like Planned Parenthood concerned with teen pregnancy and Health. • in Bookstores, it will attract parents & Friends of Young Smokers who will buy it for their loved ones.

Toward Soviet America Harlequin
Generously illustrated, user-friendly guide by popular illustrator presents abundance of valuable pointers for both beginners and experienced cartoonists: pen and brush handling; coloring and patterns; more.

May We Be Forgiven Pearson Education
"The old South bursts to life in this series of adventures by one of the Palmetto State's most celebrated physicians. From farming peaches in his family's Ridge Spring orchards to surviving the Depression, becoming a US Marine deployed in the bloody Pacific Theater to the agonizing and often hilarious

recollections of being educated and
trained as a physician, Dr. Mike Watson's

life resonates with stories about family,

friends, career decisions, school, and job
demands"--Cover, page 4.
