There are quite a number of women that have never had the art of makeup application handed down to them by their mother or have received the wrong information on how to apply it. The key to having a fantastic look when using makeup is not to make it too gaudy. This is what you can learn by reading "The Makeup Guide: How To Enhance Natural Beauty." This book highlights each sort of makeup application that can be done (the eyes, the lips etc.) and explains the best ways

that the application can be done. The book also highlights the list of tools that can be bought for use in makeup application. The main aim that that author has with this text is to highlight the various methods that can be used to enhance natural beauty, the various shades and colors can be used to bring out the best features in the face and hide those troublesome blemishes.

"Glorify Yourself" is a classic self-improvement book designed for women, written by Eleanore King. It includes twelve comprehensive "lessons" on beauty, including sections on skin and make-up,

posture, relaxation, dress, diet, exercise, hair, and much more. Contents include: "Facial Radiance", "Inviting Lips", "An Enticing Skin", "Corrective Make-Up", "Attractive Legs", "A Graceful Walk", "Sitting Technique", "Flattering Clothes", "Every Woman A Model", "Posture and Relaxation", "Dieting for Size", etc. This volume will appeal to those with an interest in early self-improvement books as well as historical beauty and social standards in western society. Many vintage books such as this are increasingly scarce and expensive. It is with this in mind that we are republishing this volume now in an affordable, modern, high-quality edition

complete with the original text and artwork.

This book is your guide to a complete makeup application and what will work best for your face shape. It includes

chapters on Skin, Face Shapes, Eyebrows for Different Face Shapes, The Right Eyeshadow Color for Your Eye Color, Makeup Application Steps, Cool vs. Warm, Makeup Tools, Which Haircut Suits Your Face Shape? and Glasses for Different Face Shapes. It also goes into detail about how to find the right foundation color and texture for you. As a professional makeup artist, I have been asked numerous times (especially by women who are maturing and the same makeup isn't working for them anymore) about how to apply makeup the correct way. I started a Word document of tips that I could give women I did makeup on and then decided that every woman

should have access to this information and put it in an ebook form.

As competition between companies increases, the need for effective public relations and advertising campaigns becomes imperative to the success of the business. However, with the introduction of new media, the nature of these campaigns has changed. Today's consumers have more awareness and diversified ways to obtain knowledge, and through new media, they can provide feedback. An understanding of how to utilize new media to promote and sustain the reputation of an organization is vital for

its continued success. The Handbook of Research on New Media Applications in Public Relations and Advertising is a pivotal reference source that provides vital research on the application of new media tools for running successful public relations and advertising campaigns. While highlighting topics such as digital advertising, online behavior, and social networking, this book is ideally designed for public relations officers, advertisers, marketers, brand managers, communication directors, social media managers, IT consultants, researchers, academicians, students, and industry practitioners.

This book is suitable for both professionals and beginners who wish to train their eye further to understand and recognize distinctions in color. It explains why we see color, how to categorize and identify

color, relationships between colors, and it relates these concepts to beauty and special effects make-up. The book teaches the reader how to mix flesh tones by using only primary colors, and explains how these colors in paints and make-up are sourced and created. It also discusses the reason for variations in skin colors and undertones, and how to identify and match these using make-up, while choosing flattering colors for the eyes, lips, and cheeks. Colors found inside the body are explained for special effects make-up, like why we bruise, bleed, or appear sick. Ideas and techniques are also described for painting prosthetics, in addition to using color as inspiration in make-

up designs. The book also discusses how lighting affects color on film, television, theater, and photography sets, and how to properly light a workspace for successful applications.
