The Survey assesses global and regional e-government  
development through a comparative rating of national

government portals relative to one another. It is designed to  
provide a snapshot of country trends and relative rankings of e-  
government development in the implementation of the  
Sustainable Development Goals. It presents trends and relative  
rankings of e-government development across 193 Member  
States through a quantitative composite index, the E-Government  
Development Index (EGDI), with three separate components - the  
Online Service Index (OSI), Telecommunication Infrastructure  
Index (TII), and Human Capital Index (HCI). Includes addendum

on COVID-19 (coronavirus) response

*Proven Success Beyond the Classroom* OXFORD University Press English for Academic Purposes provides a comprehensive overview of the field of English for Academic Purposes (EAP) for teachers. It not only looks at study skills, but also at other central concerns of EAP, such as needs analysis, syllabus and course design, methodology and materials, learning styles, tests and exams, and academic style and genre analysis. In addition to general EAP, the author also considers subject-specific language and the production of teaching materials. Throughout, the author adopts a user-friendly approach in which theoretical considerations are balanced with practical experience. Issues are discussed and illustrated, but readers are also encouraged to form their own opinions by means of stimulating introspect and discuss sections at the end of each chapter.
